James T. McCleary Says Conditions in the Gopher State Are All Right—Charles F. Taft at Headquarters.

NEW YORK, Aug. 5.—An important conference between Chairman Frank H. Hitchcock of the republican national committee and George Bruce Cortelyou, secretary of the treasury, who managed the republican campaign two years ago, was held late today at the Manhattan hotel.

Secretary Cortelyou is thought to have taken up the gubernatorial question in New York state. At one time the head of the treasury department was credited in political circles here with being an aspirant for the republican nomination and he was thought to be favored by some of the state leaders who have opposed the renomination of Hughes. He could not be seen here today and Mr. Hitchcock declined to say what was talked about beyond admitting that he had a great deal more about the state question. He declared that he did not express an opinion nor offer a suggestion on the subject himself and that his part was that of a listener.

Representatives Bennett and Parsons, the latter chairman of the New York county republican committee, were with Mr. Hitchcock for some time, their mission being the discussion of the gubernatorial nomination. Mr. Hitchcock said that every day brings to his office a large amount of correspondence on the subject of the governorship. So far as can be learned no governor has not sent any delegations to national headquarters on speak in his behalf.

Gopher State All Right.

Several parts of the country were heard from today by Mr. Hitchcock. He received a call from James T. McCleary, second assistant postmaster general, who is a candidate in Minnesota for renomination by the republican party for the house of representatives. Mr. McCleary said that he was confident that the republican state ticket would be elected in Minnesota this fall and that each congressional district would send a republican to Washington. He expressed the opinion that Governor Johnson would not again take the democratic nomination. Representative C. B. Stump, the only republican in congress from Virginia, called at headquarters with Representative George H. Pearce of Maryland. Both of these southern members of congress urged that work be done in their states and that particular attention be given to certain congressional districts where they said the party has excellent chances of winning. Charles F. Taft of Cincinnati, brother of the republican nominee, was one of the first callers at headquarters today. He had a long talk with the chairman and then met the local newspaper men. He was greatly amused at their pointed questions concerning the chances of running a campaign, but would not tell how much it was costing him. He parried the questions good-naturedly and with great success. He expressed the opinion that Ohio was safely republican.

FAIRBANKS NAMES COMMITTEE

Designates Senators to Attend Funeral of Late Senator Allison.

WASHINGTON, Aug. 5.—Vice President Fairbanks today designated the following senators as members of the congressional committee to attend the funeral of the late Senator Allison, which he has been notified will take place at Dubuque next Saturday afternoon: Doolittle, Frye, Culbertson, Gallinger, Ekins, Nelson, Bacon, Fowler, Penrose, Beveridge, Culbertson, Keam, McCumber, Gable, Simmons, Heyburn, Burket, La Follette, Long, Carter, Raynor, Warner, Smith, Michigan, Johnson, Frazier and Brown.

WILLIAMS WON'T TALK POLITICS

Mississippi Disappoints Management at Creston Chautauqua.

DES MOINES, Aug. 5.—John Sharp Williams, nominee for senator from Mississippi and former leader of the democratic minority in the national house, yesterday abruptly refused to deliver a campaign partisan address at the Creston (Ia.) chautauqua. The day had been billed as a de-jocato day and tremendous crowds were present, expecting to hear a stirring political address. The pleadings of the management were in vain, for Williams refused absolutely to discuss politics.

SCIENTISTS TO SALTON SEA

Government Experts Will Study Evaporation to Arrive at Formula.

LOS ANGELES, Cal., Aug. 5.—If plans which scientists in the employ of the government are now carrying into effect are successful, engineers will have within the next few years what they have never hitherto had—a formula of evaporation of water under given conditions. The field of study of the scientists is the Salton sea, the inland body of water near the Mexican line which was in ages past a part of the Gulf of California.

DEMOCRATS NAME COWHERD

Indications Kansas City will Have 25,000 Majority for Governor.

STUBBS IS IN LEAD IN KANSAS

Reports Indicate His Nominating by Republicans—Little Interest is Shown in Primaries in Oklahoma.

KANSAS CITY, Aug. 5.—Late returns from yesterday's primaries in Missouri indicate that William S. Cowherd of Kansas City, formerly chairman of the democratic national congressional committee, was nominated by the democrats for governor over David A. Ball of Pike county and Criminal Judge William H. Wallace of Kansas City. Cowherd's nomination is claimed by close to 25,000, but returns are coming in so slowly that definite figures will not be obtainable until late today. Ball appears to have received a larger vote than Wallace, who made his campaign on his Sunday enforcement record. Herbert S. Hadley of Missouri, the only candidate for governor on the republican ticket.

Cowherd's strength lay principally in the cities, and in St. Louis, Kansas City and St. Joseph he received goodly pluralities. Wallace and Ball showed their greatest strength in the farming districts. The cities turned the scale in favor of Cowherd. Late reports, however, show Cowherd fell below the campaign estimates made by his managers.

Returns from Congressional Districts

ST. LOUIS, Aug. 5.—Returns received this morning from the various congressional districts indicate the nomination of the following: First District—James T. Lloyd, Shelbyville, democrat; Wilbur F. Chamberlain, Hannibal, republican. Second District—William W. Rucker, Keytesville, democrat; Benjamin F. Bonas, Chillicothe, republican. Third District—Joshua W. Alexander, Gallatin, democrat; Henry L. Eads, Patonsburg, republican. Fourth District—Charles F. Booher, Savannah, democrat; Morris A. Reed, St. Joseph, republican. Fifth District—W. P. Borland, Kansas City, democrat; Edgar C. Ellis, Kansas City, republican. Sixth District—David A. Deamond, Rich Hill, democrat; William O. Atkinson, Butler, republican. Seventh District—Courtney W. Hamlin, Springfield, democrat; John Whitaker, Wausatch, republican. Eighth District—Dorsey W. Shackelford, Jefferson City, democrat; William C. Irwin, Jefferson City, republican. Ninth District—Chaump Clark, Bowling Green, democrat; Reuben F. Roy, New London, republican. Tenth District—Frank A. Thompson, St. Louis, democrat; Richard Bartholm, St. Louis, republican. Eleventh District—Patrick F. Gill, St. Louis, democrat; William T. Findley, St. Louis, republican. Twelfth District—Colin M. Selph, St. Louis, democrat; Harry M. Cooney, St. Louis, republican. Thirteenth District—Madison E. Smith, Farmington, democrat; Gilbert O. Nations, Farmington, republican. Fourteenth District—Joseph J. Russell, Charleston, democrat; Charles A. Crow, Carthage, republican. Fifteenth District—Thomas Hackney, Carthage, democrat; Charles H. Morgan, Joplin, republican. Sixteenth District—Robert Lamar, Houston, democrat; Albert L. Reeves, Steelville, republican.

Stubbs Nominated in Kansas.

TOPEKA, Kan., Aug. 5.—Returns received up to early this afternoon indicated that W. R. Stubbs, republican, for governor, was nominated by at least 12,000 over Cyrus Leland. At that time it was considered practically certain that Joseph L. Bristow had defeated Chester I. Lons for the republican nomination for United States senator. At the Long headquarters here, however, Bristow estimates were not admitted and it was asserted the vote for senator would be very close.

The returns are extremely slow in coming in, but every return received so far at the different headquarters in Topeka indicates that it has been something of a landslide for Bristow and that Stubbs is the nominee in a safe majority.

Yew democratic votes were cast, but returns received indicate that W. H. Ryan of Girard will be that party's nominee for governor and Hugh P. Farrelly of Chanute the senatorial nominee.

W. Y. Morgan, Senator Long's campaign manager, says western Kansas is close on the senatorship fight and that it will take the official count to decide the contest. J. N. Dolley, Mr. Stubbs' manager, says Stubbs has won by a large majority. He says also that Bristow has defeated Long.

Early returns indicate the renomination of all of the present congressmen on the republican ticket as follows: First district, D. R. Anthony, Leavenworth; Second district, Charles F. Scott, Iola; Third district, Phillip P. Campbell, Pittsburg; Fourth district, James M. Miller, Council Grove; Fifth district, W. A. Calderhead, Marysville; Sixth district, William A. Reeder, Topeka; Seventh district, E. H. Madison, Dodge City; Eighth district, Victor Murdock, Wichita.

Little Interest in Oklahoma.

GUTHRIE, Okla., Aug. 5.—United States Senator Thomas P. Gore, democrat, of Lawton, and Dennis T. Flynn, republican, of Oklahoma City, had no opposition in their parties for the nomination for United States senator in yesterday's primaries in this state to succeed Gore for the short term. Gore, who is one of the first two senators to be sent to Washington by the new state, is blind. Flynn formerly was delegate to congress from the Territory of Oklahoma.

Little interest was shown in the election, owing to the lack of contest. The principal interest centered in the race between Congressman Bird S. McGuire of Pawnee and Judge Bayard T. Halner of Perry for the republican congressional nomination in the First district. The indications this morning were that McGuire had received an overwhelming majority.

Numerous tangles have developed over the construction of the new primary law and as a result definite figures may not be forthcoming until the end of the week.

Butte Man Kills Brother-in-Law.

BUTTE, Mont., Aug. 5.—James W. Ryan, brother of John A. Ryan, superintendent of the North Butte Extension company, today shot and killed his brother-in-law, Daniel F. Mooney. Ryan surrendered and was placed in jail. The shooting is believed to have been the result of family differences. Both families are prominent.

Fighting Blacksmith Dead.

SENATOR ALLISON'S FUNERAL

Services Will Be Held Saturday Afternoon at Late Residence.

LONELINESS OF LATER YEARS

Without Kin, the Aged Statesman Has Been Living Solely for the Public Service—Colleagues Will Attend.

DUBUQUE, Ia., Aug. 5.—The funeral of Senator Allison will be held on Saturday afternoon at 4 o'clock and it will be simple in the extreme. Funeral services will be held at the residence of the dead senator, Rev. J. T. Bergen, D. D., pastor of Westminster Presbyterian church, of which Senator Allison was a member, will officiate at the house and also at Linwood cemetery, where the burial will take place. The body will lie in state on Friday afternoon and evening. Arrangements are under way for the suspension of business in the city during the funeral. Flags are at half-mast on all public buildings. Telegrams of sympathy are pouring in from public men in all parts of the country.

The arrangements for the funeral of Senator William B. Allison were completed today at a meeting of his friends. There is not a relative to consult, not a single wish to consider outside of the desires of his best friends in Dubuque and Washington and throughout Iowa. Alone, not survived by a blood relative and living solely for the public service which he might perform, Senator Allison's last few days were a fitting climax of a lonely man's life.

The Allison home today is in charge of the few intimate friends of Senator Allison. The house is draped in mourning, is fairly filled with the flowers and the body of the aged senator, prepared for burial, will no doubt be laid in state for several hours later in the week.

His funeral arrangements depict the loneliness of his later years. No relatives are present—be has none. Friends are there—be had legion, and it is they who are arranging for the final obscurity over the remains of Iowa's distinguished senator, who had cast his life so much in the hands of the public. Home life, privacy and quiet were all sacrificed by Senator Allison for the public weal.

Senator Allison was more than a public man; he was the public's man. He belonged to them. They will bury him as he would be buried, by throngs of his neighbors and friends.

Elaborate preparations are being made to handle the enormous crowds of friends, not only from Iowa, but from all over the United States, who will attend the funeral services of the great statesman. Many of his colleagues in the senate will be present. Many of the officials from Washington are telegraphing to Dubuque friends that they will be present. No man other than a president will be more honored dead than Senator Allison.

ROOSEVELT LAUDS ALLISON

Declares He Was Most Efficient in Securing Good Government.

OYSTER BAY, N. Y., Aug. 5.—President Roosevelt today paid a tribute to the late William B. Allison, United States senator from Iowa, the news of whose death yesterday afternoon at Dubuque greatly shocked the president. Today he sent a telegram to the late senator's secretary, as follows: OYSTER BAY, N. Y., Aug. 5, 1908.—Most sincerely sympathizing with you and shocked and concerned at the news. The whole country loses a man grown gray in the most honorable type of public service, a man who, because of his experience and trained ability, was one of the most efficient aids in achieving good government that we had in our country. THEODORE ROOSEVELT.

Fighting Blacksmith Dead.

ST. LOUIS, Mo., Aug. 5.—Henry C. Cartwright, a veteran British middleweight, who fought before King Edward, when he was prince of Wales, died here today, aged 35 years. Cartwright's nom de guerre was "the fighting Blacksmith."

PIG IRON TRADE ACTIVE

Heavy Buying to Cast Iron Pipe Interests in New Life Into Market.

CLEVELAND, Aug. 5.—The Iron Trade Review tomorrow will say that heavy buying of pig iron by cast-iron pipe interests has brought new life to the pig iron market. A leading pipe interest has within a few days, purchased 30,000 tons of southern iron and an order for 15,000 tons, recently placed by the New York state pipe concern, is announced. The sale of southern iron places several companies, which have been making low prices, out of the market for the third quarter. Although it may still be possible to buy on a basis of \$11.50 Birmingham for No. 1 foundry, several important interests have advanced their quotations to from \$12.25 to \$12.50. In spite of the improvement in conditions in the south the situation is not such as to justify further advances, which, if made, would probably check buying. The Standard Sanitary and Manufacturing company has purchased 4,000 tons for its Louisville plant and is in the market for 4,000 additional tons. The usual sale basis for southern pig iron is \$11.50, Birmingham. In the east there is moderate activity in foundry iron. The average price of Bessemer for July was \$12.20, compared with \$12.50 for the same period of last year. M. A. Hanna & Co., sold 1,000,000 tons of ore on a five-year contract, but other sales are for smaller lots.

The production of pig iron for July amounted to 1,225,383 tons, compared with 1,225,383 tons for the same period of last year. In finished materials the strength of the situation, largely, is not very satisfactory situation lies largely not very satisfactory on specifications that are being received.

Buying by the railroads is still disappointing and some companies which cater exclusively to the railroad trade, state that their business is poor. We note, however, an order for 14,500 tons of rails placed by the Baltimore & Ohio railroad. An industrial railroad is in the market for 500 cars. The light rail demand is fairly active.

CLOUDBURST WRECKS TOWN

Waters Sweep Down Six Feet Deep from Mountain Side at Bisbee.

BISBEE, Ariz., Aug. 5.—The postoffice and all the business houses and offices on one side of Main street for a distance of 200 yards were wrecked late yesterday by the cloudburst which swept down the mountainside a mass of mud and rocks. The damage is estimated at \$100,000.

Postmaster M. E. Cassidy, Sheriff Jack White and eighteen city clerks in the post-office narrowly escaped when the flood, almost without warning, struck the building and filled it with water six feet deep. Huge boulders and tons of dirt and rocks slid into the first floor of the postoffice, where the force was at work. Considerable mail was washed away.

Miss Clara Larson of Chicago was rescued from five feet of water by Miss Gray, another clerk. Thousands upon thousands of tons of rocks and dirt were washed into the streets, which are piled five to twenty feet high with debris.

LABOR COMMISSIONERS ELECT

Charles P. Neill of Washington Heads National Association in Session at Detroit.

DETROIT, Mich., Aug. 5.—Officers were elected by the Association of Labor Commissioners as follows: President, Charles P. Neill, United States commissioner of labor, Washington; vice president, Charles F. Getty, Boston, and Charles L. Daugherty, Oklahoma; secretary-treasurer, W. L. A. Johnson, Kansas. The association appointed a committee to confer with the Association of Factory Inspectors and other state bodies, on the subject of amalgamation.

FLAMES TURN ON MICHEL

After Three Days' Fight for Homes People Are Beaten.

RUIN AS COMPLETE AS AT FERNIE

Canadian Pacific Train with Fire Fighters on Board Blocked by Wall of Fire and Forced to Turn Back.

VANCOUVER, B. C., Aug. 5.—For three days the people of Michel have fought for their home with death at the door. Yesterday afternoon they were beaten at the game. The city, the second in size of the devastated district of East Kootenai, started to burn in real earnest at dusk. Nothing can save it from being a heap of ruins even more complete than Fernie.

From a light eastern breeze the wind turned to a gale from the west at 2 o'clock in the afternoon and the city in a moment was doomed. The blaze came sweeping down the hill. At the edge of the town 10,000 feet of mine timbers owned by the coal company caught fire and four loaded railroad cars standing on a sidetrack were consumed. Two Canadian Pacific locomotives were hitched on to a train to carry the fire fighters away to the west to safety. By the time the train left for the west the fire was spreading all over the yards.

The train got only half a mile on its journey when it encountered a wall of flames. There was danger of its being hemmed in and being burned with everybody aboard, so the locomotives were reversed and run back with all speed. By the time the train returned all the houses of the flat district back of the Great Northern depot were burning and the main town was likely to catch at any moment. At 5 o'clock a lone newspaper man and the telegraph operator still stuck by the telegraph instrument.

The last message the newspaper man sent was: "Many houses are burning. Trains cannot go west of here. Railroad service west of this town will be blocked indefinitely. To the east the line is clear. Will try to reach Crow's Nest before morning and forward news from there."

MAY SEE DAUGHTER MARRIED

Ban of Church Will Not Keep President of France from Attending Nuptials.

PARIS, Aug. 5.—The marriage of Miss Ann Fallieres, daughter of the president of the republic, to J. J. E. Lanes, the president's secretary, which is to take place in the church of the Madeleine, August 10, has raised the question whether the president can participate in the ceremony, which ignited and caused a great explosion and that the great airship was destroyed. After reading this bulletin the people moved in long lines down the streets of the town toward the railway stations and the steamship docks along the lake front, while automobiles scurried off in all directions, some of them even heading for Echterdingen. The music of the bands was hushed and the musicians silently packed away their instruments, while the villagers immediately began taking down the flags and festoons which had been hung in honor of the expected homecoming of the daring aeronaut and his wonderful invention.

MURDER MYSTERY AT CHICAGO

Disembered Body of Young Boy Found in Lake in Stock Yards District.

CHICAGO, Aug. 5.—A murder mystery which promises to be one of the most baffling with which the police have had to deal in some time was developed today by the discovery of the dismembered body of a boy in what is known as "Mud lake," in the stock yards district. The finding of the lower limbs, severed at the hips and at the knees, this morning, was followed this afternoon by the discovery of the torso, which had drifted some distance. The legs were wrapped in a newspaper and part of a shirt bearing the initial "C." and at first were supposed to be those of a young woman. The torso from which the arms had also been hacked, however, disclosed that the victim was a boy.

News of Disaster Creates Consternation Among Holiday Crowd Gathered to Welcome Count Home.

STUTTGART, Aug. 5.—During a storm today the Zeppelin airship broke away from its moorings, took fire and disappeared in the air. Several persons were injured. Count Zeppelin, however, is safe.

It appears that the airship exploded during a thunder storm at 3 o'clock this afternoon. Previous to exploding it broke into flames. It is supposed to have been struck by lightning. The latest report from Echterdingen says it is completely ruined. The airship exploded on a plateau near the village of Echterdingen, five miles south of this city, shortly before 3 o'clock this morning, owing to a defect in one of the motors.

The storm blew up unexpectedly. A fierce gust of wind tore the balloon from its anchorage and drove it in a southerly direction for some fifty yards. Here the rear end of the great fabric dropped and smoke and flames were seen to burst into flames one end to the other. Then in a few seconds came the explosion and great columns of flame shot upward into the air.

This was followed by the crashing down to the earth of the motors and frames that had been attached to the under side of the airship. Several bystanders were knocked down. Two causes had conspired to make it necessary to land the airship at Echterdingen, the overheating of the piston box of the forward motor and the escape of considerable gas owing to the defect in the count took the airship to a height of about 4,000 feet.

Consternation at Friedrichshafen.

FRIEDRICHSHAFEN, Aug. 5.—The news that Count Zeppelin's airship exploded at Echterdingen and was a total wreck came like a thunderbolt amidst the preparations for the reception of the famous aeronaut at Friedrichshafen. Tens of thousands of people had come from all parts of Germany to witness the return of the count from his remarkable voyage, and they were walking along the lakeshore making merry in anticipation of the forthcoming justification. Since early morning automobiles and carriages had been coming into town and speeding through the streets, while peasants from the surrounding country clad in their picturesque Sunday clothes gazed in amazement at the unwonted scene and the gaily decorated houses in the park.

In front of the principal hotel the military band was just on the point of beginning its concert when at 4 o'clock a local newspaper and affixed a telegram on the blackboard at the entrance to the building. A crowd of people gathered to read the news, expecting
