READY FOR LONG STRUGGLE

Canadian Pacific Property in Good Condition for Strike.

TRAINED JAPS ARE IMPORTED

Nippon Workmen Are Distributed Through Shops—Trouble Will Not Disturb Moving of Western Crop in Fall.

WINNIPEG, Man., Aug. 7.—It is beginning to be realized that the Canadian Pacific railroad is prepared for a strike

struggle with the mechanics, which will last some time. The company's locomotives and rolling stock are at present in excellent condition, the dry summer having caused little wear.

for the nonunion workmen, guarded by special constables. Fifteen shop firemen or gang bosses walked out here last evening declining to work with the imported men. Only one declined to come out.

No violence or disorder has been reported from any of the company's shops in western Canada. Mass meetings continue to be held by the men and the pickets are continuing to keep close watch at the shops and all incoming trains.

Newcomers are employed in almost all departments and are divided into shifts, which work night and day. All locomotives receive inspection and undergo repairs before leaving the roundhouse and coaches are leaved and taken care of by the men, who are taking the places of the strikers.

Yesterday a gang of laborers was put to work to fill in the open spaces beneath the fence that surrounds the yards, and in this and other ways the company is preparing to safeguard its property.

Throughout last night the strikers had pickets posted at all entrances to the yards and they took care that they could not be seen from within.

Will Not Stop Crop Moving. It is not expected that the strike will interfere in any way with the handling of the western crops, even though it should last until wheat moving commences. West-

ern wheat will not begin to reach the railroad in any volume for five or six weeks. It is estimated that the crop will require about 100,000 box cars, and of these there are already 100,000 in the west with corresponding supply of engines. The rest will be sent on as freight conditions require and will be kept in the west until they are required.

The Canadian Pacific telegraphers are seriously preparing for a strike within a fortnight. The arbitration award will be forwarded to Ottawa next week and the men do not expect to be satisfied with it.

At Calgary the Canadian Pacific railway put twenty-one Japanese at work in the roundhouse yesterday. Otherwise the situation there remains unchanged.

The company will have several plain clothes men in that city to protect the new workmen. Two locomotives were out of use there yesterday, owing to the fact that the boiler makers are not working.

At Kamloops last night a conductor of a west-bound freight train declined to take out a train until he had written orders authorizing him to do so, without official inspection by car repairers. He was given the order.

to work. We are resuming some improvement work where it is necessary."

Mr. Mohler said that he was not able to announce any new work at this time, but gave the impression that things were soon to pick up so that more and more work could be taken up.

He said that Mr. Harriman enjoyed his trip thoroughly over the Union Pacific and was considerably refreshed. He said the heat of Chicago had been a little hard on Mr. Harriman, but that he had completely recovered any temporary indisposition before he had crossed the state of Nebraska.

"The crop outlook is most excellent," added Mr. Mohler, "and we were able to note a hardening of business continually. The growing crops looked fine, the wheat being harvested and the corn making giant strides under the great corn weather we are now having."

"I saw by The Bee that you announced the renewal of double track work before my return. That was right, and the work will be pushed along."

NEW OFFICE FOR W. R. M'KEEN

Consulting Engineer of Motor Cars for Union Pacific. W. R. McKeen, maker of motor cars, formerly superintendent of motive power and machinery of the Union Pacific and now president of the McKeen Motor Car company, a grandson of the Union Pacific, is appointed consulting engineer of motor cars of the Union Pacific by Vice President Mohler. The announcement was issued by Mr. Mohler Friday.

CHARITY, CATS AND PARROTS

Half Million-Dollar Estate Left to These by Philadelphia Woman. PHILADELPHIA, Aug. 7.—Half a million dollars out of an estate of \$600,000 is given to charity by the will of the late Mrs. Annie L. Lowry of this city.

The will, which was probated today, directs that \$500,000 be invested and the income paid to Violet Peak, a cousin, for the care of cats and parrots that belonged to Mrs. Lowry, who was 85 years old when she died on August 1. These pets are to be considered as having equal share in the income and when they die the trust fund reverts to other heirs.

Among other bequests made are the following: The American Sunday school union for establishing Sunday schools and evangelical Protestant churches in small communities in the United States, \$100,000; children's seaside home, Atlantic City, \$50,000.

Fifty institutions and societies are remembered in the will. Mrs. Lowry had no immediate relatives. Three servants are provided for.
