

GRAIN AND PRODUCE MARKET

Government Report Does Not Have the Effect Anticipated.

INTERPRETED AS BEING BULLISH

Values Early Are Some Lower and Disappointing to the Bulls—Much Long Staff Comes Out on High Points.

OMAHA, Aug. 8. 1908. The government report had very little of the effect expected, although it was interpreted as being bullish by the most experienced operators. Values early were some lower and were disappointing to the bull faction. A great deal of long staff came out on high points, but the market powers lack the necessary snap to any more than hold values.

Chicago Grain and Provisions Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Ill., Aug. 8.—Liberal realizing rates caused a recovery in the local wheat market, the September delivery closing at a net loss of 1/4c. Corn was up 1/2c, but was short of support. Provisions were a shade to 1/2c lower.

The wheat market opened firm, chiefly because of reports that the government report made public yesterday. Sentiment in the pit, however, soon became pessimistic.
