WINNIGEG, Man., Arg. &-Fifty more nonunion workmen were taken to the Winnipeg shops of the Canadian Pacific rallway this morning and put to work. The company has perfected arrangements for housing and feeding 1,000 men in the yards. A special policeman on duty in the yards was brutally assaulted by on unknown man with a club last night. A number of Winnipeg strikers have been rebuked by their executive officers for publicly libing it a workman, who had refused to join in

The men on the other hand profess to be confident of success. It is accepted as a fact in business circles that it will be a fight to a finish. Many officials and clerks in the Winnipeg general officers are out in the yards clad in overalls doing the work of the strikers. The officers of the rallway are besteged by unskilled men seeking for work, but

they are not the kind wanted. The company is relying principally on a large con tingent of British machinists and boilermakers, expected here at the end of next

The principal contention of the lawyers was that the primary law does not specify how the i per cent of the vost cast is to be determined. The general law, they con tended, provided it should be computed upon the highest vote cast for a member of the party. The fusion supreme judges refor regent and the lawyers wanted the judges to be the basis. All of the democratic candidates for judge, however, were also voted for as populists, while Millard. a democratic candidate for regent, did not appear on the ballot as a populist. Mr. Rosewater contended that the difference between the votes cast for Sundean, a fusion candidate for regent, and the vote of Mil-

Through Dr. Curtis I have learned that many of your are taking an active part in star athletic contests and athletic events in your city. I am glad to see this. I believe in work and I do not believe in sacrificing work to play; but I most emphatically believe also in play. A boy or girl who has a healthy body will be all the better fit for serious work, and if the health comes through vigorous sports pursued in an honorable, straightforward manner not only their mind, but their character is benefitted.

To the boys I wish to say a special word. I emphatically believe in maniliness, in courage, in physical address, but I believe quite as much in good comradeship and in a spirit of fair play. They have discovered a method to catch the brown nun moths that lay the aggs from which the caterpillars. come in enormous quantities. They make use of what they call the electric light trap. This consists of two large and powerful reflectors placed over a deep receptacle and powerful exhaust fans. The whole has been erected on top of the municipal electric plant. At night two great streams of light are thrown from the reflectors on the wooded mountainsides half a mile distant. The results have been astonishing. The moths, drawn by the brilliancy, come fluttering in thousands along the broad rays of light.
