VERY IMPORTANT

Keep Always in Mind, the Quality of Silk We Are Selling During this Great Sale—Haskell's. Yesterday was the greatest day in volume. We are going to make Saturday equally as good, and perhaps a little better. We ask you to examine these sliks, test them in any way you choose. The one thing you must keep in mind in buying a slik, is quality. That is what counts. Cheap trashy sliks are expensive at any price.

CHICAGO, Aug. 14.-As a result of overlevotion to health promotion Mrs. Nancy Balleon of Oak Park is near death. While taking a sun bath yesterday Mrs. Balleon felt from a scaffold she had built outside her room on the third story of her home and on which she was lying. Mrs. Balleon had been interested in a number of health exercises. After taking a walk in the morning in her bare feet, exercising on the parallel bars and taking a cold plunge she has been in the habit of spending several hours in her improvised sun porch. It is supposed that while dozing she rolled from her cot off the scaffolding. She is suffering from three broken ribs and concussion

Reports Irregular, with Pronounced Gains in Some Sections.

NET RESULT IS ENCOURAGING

Steel is Broadening Each Week, Despite Fact that Few of Orders Are from Railroads-Jobbing Trade Active.

NEW YORK, Aug. 14.-R. G. Dun & Co's. Weekly Review of Trade tomorrow will

counced gains in some sections and no im-provement in others, the net result being incouraging, however, and sentiment reencouraging, however, and sentiment regarding the future grows more confident each week. Steel is steadily broadening, each week bringing a jarger percentage of active capacity and the improvement is especially gratifying in view of the few orders from the railways. Export contracts are recorded in every department of the industry, from pig from to steel rails, and further improvement in this respect is also anticipated. Sales of pig from have been for delivery during the first half of next year and some coke ovens also have received orders covering the same period, while there is a larger movement of ore down the lakes. The lighter lines of steel continue most actively angaged, notably wire products.

there is a larger movement of ore down the lakes. The lighter lines of steel continue most actively engaged, notably wire products, pipe and plates.

Textile markets have been dominated this week by the second big autetion sale, buyers either devoting attention to seeking bargains there or awaiting the effect on the general market. A large attendance of outside jobbers and retailers at the auction is promised iff every department next week, although many now specialize in this particular lipe. Prices are almost nominal in consquence, except on cash transactions for current needs, which are necessarily limited. Many cotton mills will be idle next week, pending a more definite tendency in the market. Aside from small sales of lightweight sheetings to Australia, export trade is stagramt. As to woofen goods, the market for men's wear is now fully opened, the feature of the last week being the offering of fancy worsteds.

For the first time this year, shipments of boots and shoes from Boston were almost as large as in the corresponding week of 197. It is also gratifying to note that contracts increase, despite the fact that there are practically no buyers in the Boston market and New England manufacturers salesmen have not started for the west and south with spring samples. Hence the increase is mail orders and comes chiefly from western wholesalers. Leather is quiet, but firmly held, and sales would be heavy if supplies of heavy sale were more pientiful.

BRADSTREET'S REVIEW OF TRADE

Buyers Are in Eastern Markets in Almost Record Numbers, NEW YORK, Aug. 14.-Bradstreet's to norrow will say:

Trade is of fair volume, crops have made further progress, corn especially being helped by rains and collections show tangible improvement, though backwardness is still a subject of complaint. Advices agree that buyers are in the various markets in large, if not record, numbers, but caution and conservatism are strongly apparent and at some centers disappointment is expressed at the volume of business done. There is still slow, gradual improvement in the iron and steel and added trades though pig iron is lower this week and as southern lumber prices are hisbor there is talk of many mills being again set in motion. Still there are numerous reports of curtailed output and textile lines at one leading center are running to only 50 to 60 per cent of capacity. The wool trade had a cheerful tone and good interest is displayed by large and small buyers. Manufacturers of cheap and medium grades of shoes are doing relatively better than in more expensive lines.
