BARLEY AND HOPS—a food and a tonic. A trifle of alcohol—an aid to digestion. That's beer. If you get a pure beer-well aged-nothing is better for you.

It is not good advice to say "Don't drink beer." There are many who need it.

Your doctor advises beer. The healthiest peoples of the world drink the most of it.

But it is good advice to say, "Don't drink the wrong beer." Some beer causes biliousness. Schlitz does not.

Schlitz beer is both good and good for you.

Nine people in ten would be better for drinking it. Schlitz is the home beer, because of its absolute purity. It is aged for months, then filtered, then sterilized. There are no after effects.

Ask for the Brewery Bottling. Common beer is sometimes substituted for Schlitz. To avoid being imposed upon, see that the cork or crown is brouded Schlits.
