Slight Rise-Offerings on the Cash Market Are Quickly Taken.

OMAHA, Aug. 18, 1908. Wheat and corn strengthened slightly, owing to lesser offerings and light country acceptances on the lower bids sent out after the slump from recent high values. Farmers are sluw to market their grain and receipts at primary markets have fallen off considerable.

Offerings on the cash market were

and receipts at primary market were of considerable.

Offerings on the cash market were quickly taken for better values.

Wheat started uneasy with some more selling, but small offerings were taken on the breaks and higher prices resulted from buying by traders who had let loose of there holdings at higher levels. The large elevator concerns were bidding large elevator concerns were bidding. for there holdings at higher seven large elevator concerns were bidding strong on cash wheat and samples on the foor brought better prices. September wheat opened at 85%c and closed at 85%c. Corn opened steady but proved dull and nothing of interest resulted from the light nothing of interest resulted from the light irading. Country receipts, while increasing, are not what might be expected, consider-ing the favorable prospects for the com-ing erop. Offerings on the cash market were well taken at a slight advance. Sep-tember corn opened at 13c and closed at 13c.

Primary wheat receipts were 771,000 bushels and shipments were 546,000 bushels, against receipts last year of 552,000 bushels and shipments of 256,000 bushels.

Corn receipts were 561,000 bushels and shipments were 278,000 bushels, against receipts last year of 358,000 bushels and shipments of 350,000 bushels.

Clearances were 11,000 bushels of corn, none of cats and wheat and flour equal to 23,000 bushels. 2,000 bushels. Liverpool closed unchanged to lad lower on wheat and id lower on corn.
Seaboard reported 215,990 bushels of wheat
saken for export.

Prices on Board of Trade.

CHICAGO, Aug. 18.—A bulge in coarse grain and the failure of the Liverpool wheat market to respond to the break nere yesterday, has had a strengthening effect today on the local market. At the close september wheat was he higher. Corn was up lightly. Oats were up lightly. Provisions were The to Sc lower.

Wheat displayed moderate firmness all day, but the volume of trade was small. Weather in the northwest was again ideal for hervesting and the fear of a speedy heavy movement of the new crop had a leudency to restrict trade. Winnipeg reported the arrival of the first car of new wheat, which is the earliest arrival of new wheat, which is the earliest arrival of new wheat at that point on record. These bearish influences, however, were completely offset by the steadiness of the Liverpool market and by an advance of more than it early nearly and oats. Small primary receipts also aided the bulls. The close was firm. September opened unchanged to the bigher, at 21% 2015, advanced to Note and closed at 22%c. Clearances of wheat and flour were equal to 22,000 bushels. Primary receipts were 71,000 bushels. conding day a year ago. Minneapolis, Du-luth and Chicago reported receipts of 280 cars against 570 cars last week and 612 cars

Cals were highly susceptible to bullish scitivity owing to the small amount of cash supplies available in this market. September opened tic higher at 45%c, advanced to 45c and closed at 47% \$47%c. Local receipts were 250 cars.

Provisions were weak, because of heavy flouidation of the September delivery. At flouidation of the September pork was down 25c, at \$14.754. Lard was down 10c, at \$0.175. Bibs were 2½c lower at \$8.70.

WEATHER IN THE GRAIN BELT

Slightly More Warmth,

The weather is generally cloudy this morning over the Missouri valley and west to the mountains, and light rains are failing in southwestern Nebraska and Colorado. Showers occurred within the past twenty-four hours in the Ohio valley, lower take region, and throughout the castern and southern states. It is cooler in the lake region, the Ohio, Mississippi and lower Missouri valleys, and warmer in the extreme upper valleys and northwest, and it will be slightly warmer in this vicinity tonight, with continued fair tonight and Wednesday. London Stock Market. LONDON, Aug. 18.—American Securities opened dull and featureless today and frices at noon ranged from 14 below to 12 above yesterday's New York closing. 

On the Stock exchange husiness continued amail and the markets generally were uninteresting. Consols and other gilt-edged securities drooped for lack of support, but the first mentioned recovered in the afternoon. The securities in which Paris is interested closed firmer, copper shares improved with the metal, and diamond shares were active and higher. American securities received little attention at the opening. The public is holding aloof and the professionals seemed less eager. With the exception of Canadian Pacific and Grand Trunk, which were well supported, values in the forenoon were barely maintained at parity. Later the New York opening caused fair strength. The leading stocks fluctuated sharply, but after a temporary weakness, the market finished with a hardening tendency.
