LINE FROM OMAHA TO GULF

Railroad Connecting Gate City with Water is Being Advocated.

KANSAS MAN VISITS THE CITY

LeBar Tompkins of Kansas City & Gulf Says Stillwell Wants to Connect Orient Road with Omaha.

To connect Omaha and the Gulf of Mexico with a direct line of railroad is the plan now being talked in Omaha by LeBar Tompkins, general counsel of the Kansas Southern & Gulf railroad.

Mr. Tompkins has been in Omaha for several days, sounding the shippers as to the advisability of such a road and he says that he meets with nothing but encouragement from all sides.

Careful maps of the new line have been prepared which show the road will run direct from Omaha to Wichita, using some lines already built by the Kansas Southern & Gulf railroad.

The line will traverse Nebraska thirty miles east of Lincoln with the Missouri Kansas & Texas at Skiddy for the gulf and at Wichita will connect with the Orient road, the Santa Fe and the Frisco.

Mr. Tompkins says that his people realize Mr. Stillwell, president of the Orient road, will soon want an outlet into Omaha and as that road is nearing completion he says they want to build the road, which will give Mr. Stillwell the most direct connection before that gentleman starts to build a line from the Orient road to Omaha for himself.

The plan also includes extending the road to Sioux City, but Mr. Tompkins says that is an after consideration and that the road he and his associates are now working on is a line from Wichita to Omaha.

As soon as the Panama canal is completed there will be an immense volume of business moving north from the gulf and an equally large volume seeking an outlet in that direction and that a north and south road will have plenty of business.

Gain of Milwaukee Line. With the new Milwaukee coast extension completed to Butte, Mont., 715 miles west from Moberly, S. D., where the start was made, the Milwaukee will soon be getting its share of the business of that traffic producing country.
