Truth and Quality appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time. It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading drug stores.

WHAT THE MARKET AFFORDS Fruits that Will Supply the Demand Until the Local Crop Matures. Peas are to be more plentiful than they have been, two carloads from Colorado—the first shipped from there this season having arrived Friday morning. They are selling wholesale for \$2 a box of from twelve to fifteen dozen. Colorado peaches will come in the early part of next week and will sell wholesale for about \$1 a box. The California crop of plums and prunes is about exhausted, which has advanced the price of that fruit, but Idaho, Utah and Colorado will begin shipping soon. Peaches will last until late in September. Grapes will be more scarce than usual. The hail did heavy damage to the local crop which will little more than supply the local demand. Muskat grapes from California are in and sell wholesale for \$1.50 a crate of four baskets. Tokay grapes will be in the middle of September. Cantaloupes are not altogether satisfactory just now as the home crop is inferior to the shipped melons, which came earlier in the season. Rocky Ford melons are still going east and the dealers say it will be the last of August before they begin coming to the local market. The cool weather has decreased the demand for watermelons, which are selling cheaper, good melons being sold for 25 cents retail. Homegrown tomatoes are especially good now and are selling wholesale for 75 cents a market basket. Women who have been looking out for little pickles to put up are going to be disappointed. There have been very few and no more are expected. Pickles for dill are also scarce. To Die on the Scaffold is painful, compared with the weak, lame back kidney trouble causes. Electric Bitters is the remedy. See Beaton Drug Co. Notice to the members of local union No. 2, Sheet Metal Workers, a special meeting will be held Friday evening, August 21, at 7:30 at Labor Temple. Important business. H. H. FARMER, Secretary. Advertise in The Bee—it goes into the homes of those you are trying to reach.
