Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, Aug. 21.—Reports of frosts in several localities in the Canadian northwest caused a spert of bullish enthusiasm in the wheat and oats pit on the Board of Trade today, but the strength in the former was dissipated by predictions of a liberal and speedy movement of the new crop. Oats closed firm, but wheat, corn and provisions were weak.

The wheat market opened weak, due mainly to the apparent indifference of

crop Oata closed firm, but wheat, corn and provisions were weak.

The wheat market opened weak, due mainly to the apparent indifference of foreign traders to the advance here yesterday, as evidenced by declines at nearly all the principal European centers. The decline abroad was ascribed to more iberal offerings of wheat from Russia and ports on the Danube and the favorable prosects for the Argentine crop. Trade in the local market was very quiet for a time, but receipt of dispatches telling of low temperatures last night in Manitoba. Saakatchewan and Alberta brought out an active demand from several leading commission houses. These advices together brought an advance of more than it cent in Wifinipeg, soon started a rally which care mission houses. These advices together brought an advance of more than t cent in Winnipeg, soon started a rally which carried prices more than 1 cent above the opening quotation. September advanced from 23 to 16 to 1 by numerous reports which predicted a heavy movement of new wheat in the northwest next week. Minneapolis and Duluth were expecting from 400 to 500 carloads on Monday. The market failed to recover from this setback, a heavy tone prevailing the remainder of the day. The close was weak at almost the lowest point. Clearances of wheat and flour were equal to \$72,690 bu. Exports for the week, as shown by Bradstreet's, were equal to \$72,690 bu. Primary receipts were 145,000 bu., compared with \$11,000 bu, the corresponding day a year ago. Minneapolis, Duluth and Chicago reported receipts of 382 cars, against 261 cars last week and 244 curs a year ago.

Cold weather in the corn belt and the strength of wheat induced considerable purchasing of corn early in the day, which caused moderate strength. The close was easy, although December and May were still a trifle above yesterday's final quotations. Local receipts, 255 cars.

Outs were independently firm all day and closed at moderate gains for all deliveries. One of the chief factors in the situation was the crop report of a local hank, which was made public today and which placed the lotal yield for this year at 23,00,000 bu, less than the estimate made by the government on August 1. Local receipts were still meager at 123 cars.

With the exception of a brief period of steadiness early in the day, growing out of buying by a local packer, provisions were weak all day. The close was at about the lowest point.

were weak all day. The close the lowest point. Estimated receipts for tomorrow: Wheat. Or cars; corn. 185 cars. oats. 121 cars; hoge. 11.008 head.

Cash quotations were as follows. FLOUR-Steady, winter patents, \$4.100 50; straights, \$2.8594.25; spring natents,

Price Movement is Unimportant, with General Trend Downward.

ROCK ISLAND ISSUES WEAK

Market Rises During Noon Hour, but Trading Soon Becomes Desultory and Close is Heavy.

NEW YORK Aug. II.—Price movements in the stock market today were unimportant for the most part, with the trend towards a lower level. As on the previous day of the week trading was in moderate proportions and largely restricted to the speculative element. That faction appears to be puzzled by existing conditions, but WEATHER IN THE GRAIN BELT

Cloudy and Possibly Showers and
Cooler Saturday.

OMAHA. Neb., Aug. 21, 188.
Showers were general in the northwest, mountly districts and southwest within the past intenty-four hours, and continue in the northwest this more ventised by existing conditions, but its more ventures are arrayed on the bear side. The boldness of the shorts has been comewhat arrested by the collapse of the cotton pool, which is said to have depleted the "paper" fortunes of several well known operators in stocks.

Political conditions are playing a more important part in the financial situation just now by reason of the reported turn of events in this state and the effect this change may have on the presidental cammountin districts and southwest within the past twenty-four hours, and continue in the northwest this morriag. An area of high pressure, with cooler weather, is moving down from the northwest, and will extend over the central valleys, causing code; in this vicinity by Saturday, with probably allowers tonight and Saturdays. The weather senerally clear in the castern states and is showery and unsettled in the southern states.

Omaha record of temperature and pracipitation compared with the corresponding day of the last three years:

Minimum temperature for today 14 degrees. Deficiency in precipitation since March 1. 25 of an inch.

Deficiency corresponding period n 197 to 50 of an inch.

Deficiency corresponding period n 197 to 50 of an inch.

L. A. WELSH, Local Forecaster.

later and was attended by a recurrence of gossip concerning the complicated financial condition of those properties. The market moved up during the noon hour under moved up during the noon hour under heavy short covering, a factor in the advance being the lending of call money at la per cent. Trading in the late session became desultory, with some disposition in the direction of higher quotations, but the increased weakness in Rock Island had a domoralizing effect, resulting in a heavy the increased weakness in Rock Island had a demoralizing effect, resulting in a heavy close, with Southern Pacific gain cancelled. Americans were irregular abroad, with late firmness in the Harrimans on the proboliday covering. Trading here for London was again nominal Estimates as to the week's cash gains vary from \$1,000,600 to \$8,00,000, practically all of which is derived from operations with the subtressury. Gold to the amount of \$1,100,000 was forwarded to Canada, but otherwise there is no check in the inflow of cash. International conditions are making for greater ease in the local money situation.

CATTLE—As usual on a Friday the receipts of cattle of all kinds were very light, there being hardly enough of anyone kind on sale to make a test of the market. Such cattle as there were generally sold in about the same notches as yesterday, there being hardly enough change in any one description to be worth quoting.

quoting.

This has been a week of very large receipts the arrivals showing a heavy gain over last week, but still falling quite a little short of the corresponding week of Ittle short of the corresponding week of last year.

The market on boef steers has been in very satisfactory condition all the week. although at the outset prices were a little lower on account of the heavy run on Monday. During the remainder of the HOGS—Receipts, estimated about 13,000 HOGS—Receipts, estimated about 13,000 Monday. During the remainder of the week, although receipts were liberal, the market was firm until at the close prices to 5c higher, others not wanted; choice were fully steady with the close of the previous week. Corn-fed beeves, if anything, were a little stronger.

Cows and heifers sold decidedly lower during the first two days of the week, as a result of the very large receipts of that kind of cattle. During the latter part of the week prices firmed up, but still not should be seen the stronger to the seek prices firmed up, but still not should be seen the seek prices firmed up, but still not should be seen the stronger.

Copper was a shade higher at £00 for spot in the London market, but futures were unchanged at £00 lbs, Locally the market was dull, with lake quoted at £13.506(13.50), electrolytic at \$13.576(13.50) and casting at \$13.124(13.574). Lead was unchanged at £13.124(13.574). No. 1 foundry, northern, was quoted at £13.124(13.124). No. 1 foundry, no

HOG8—The run of hogs was very moderate again today, only sixty-three cars being reported in. The market was strong to a shade higher than yesterday. While the trade was not active, the most of the

log but of the hogs sold at record that but of the hogs sold at records a good share of the dogs brought sold of the sold that the hogs brought sold of the series was hot of the market as a cery make change in the market as a cery make change agree carries the market

still what there was sold at pilcen that looked about steady with yesterday's clossing.

Assembly of sheep this week have been very large, being more than twice the size of a year ago and decidedly larger than for recent weeks. A considerable proportion of the arrivals have consisted of lambs, the supply having been large at most all of the leading market points. In spite of the big run the market here advanced very snarply on Monday, being quoted lights higher. At the same time unloage reported a lower market and continued lower all the week. The market here held up until Wednesday, when, under the influence of the heavy break at Chicago, lamb prices began weakening, until today it is safe to say that all the advance of Monday has been wiped out, leaving the market on fat lambs a little lower even than last week's close. On the other hand, feeder lambs advanced very sharply early in the week, reaching the high point of the season to date. Choice feeder lambs sold as high as \$5.55 and the trade was very active at prevailing prices. Later in the week the demand was not so active, buyers showing season to date. Choice feeder lambs sold as high as X.85 and the trade was very active— at prevailing prices. Later in the week the demand was not so active, buyers showing an inclination to move a little more cau-tiously, with the result that while no marked decline has taken place in the mar-ket, still there is a feeling that the wire edge is off so far as feeder lambs are con-cerned.

cerned.
Fat sheep advanced at the beginning of the week sharply, the same as they did last week, but the receipts during the week were quite moderate. While the demand was very brisk, the advance was all maintained. Thus at the close of the week fat sheep were around 15255c higher than at the close of last week. Feeder sheep were also very good sellers all week, closing up strong on all desirable kinds.

# NATIONAL STOCK

## A Fortune for Everyone -- Quick

I have always preached "Don't speculate," lar they can spare and not be frightened off by but the whole world does. The soundest, safest, surest principle of

speculation is: Buy 100 shares of something selling at \$2 per share to make 100 points profit instead of buying 100 shares of anything at \$100 per share to make 2 points profit. Your liability on \$100 per share is \$10,000, at \$2 per share it

is only \$200. The greatest fortunes in the

world have ALL been laid on this foundation. My own fortune and financial success was laid in buying Butte & Boston at the present price of "National Stock." Standard Oil, Rogers and Rockefeller, who were my partners in the deal, and every broker in Boston and New York will vouch for this fact. They will vouch, too, for the fact that I advertised as I am now advertising "National Stock" that all who would buy at \$2 per share would be able to sell at \$100 per share, and also for the fact that inside of two years from the time I advertised they could all have sold at \$130 per share, and notwithstanding the recent panies and what-nots each \$2 invested in

is worth in the open market today \$80. I trust that people everywhere will buy "National Stock" to the extent of every dol-

Boston, August 19, 1908.

Butte & Boston upon my pledge for its future

the System's machinations, for the System, panic-stricken at the enormous success of 'National Stock," as evidenced by the trading each day in the open markets of Boston and New York, from 500,000 to 800,000 shares, is getting out its broom to sweep back the deluge. It has sent instructions to its presa agents and brokers everywhere "Spread this story. 'National Stock' is a blind discretionary pool; has never been traded in on Stock Exchanges, is not traded in on any open market. Is sold privately by Lawson for his personal profit."

To spike this mud gun of the System I herewith as president of "National Stock," legally bind it to pay to anyone who can prove there is any truth in any of the above statements the sum of \$50,000.

Yesterday was the heaviest day for orders, pamphlets and inquiries since the campaign

Tomorrow the first pamphlets will be mailed. On receipt of pamphlets the real buying of "National Stock" will begin, and in anticipation of the tremendous demand, I again ask that everyone limit their orders to \$3 per share [Boston] or \$6 [New York] and to hold orders at this figure until I advise in public advertisements to increase the limit.

THOMAS W. LAWSON.
