Omaha Engles Got Eighty-Pive Per Cent of Votes at Seattle Without the Minnesota Town's Ballots.

The unfair and faise reports circulated by St. Paul Eagles at Scattle in their vain effort to debase and defeat Omaira its contest for the national acrie for 1905, have been the source of amazement and resentment in this city; amazement Because Omaha stood so strongly by St. Paul in its campaign to land the Shriners and resentment because the Minnesota town sought to befoul Omaha with false and malleious reports, rather than make

a clean, honest fight at Seattle. "I have it from the assistant to the president of the Eagles that Omaha received % per cent of the votes cast," said window and he's on. Commissioner J. M. Guild of the Commercial club. "I do not know what St. Paul hopes to gain by such work as trying to show Omaha to be composed of a lawless element."

Some of the members of Tangler Temple Nobles of the Mystic Shrine, are disguested that St. Paul should return such underhanded work for the boosting which Omaha Shriners did at several Imperial councils to secure a national meeting of the Shriners at St. Paul.

"I will never forget the way the Omahane worked for St. Paul at Niagara Falls in candidate for the meeting and Omaha the because Minneapolis Shriners voted against the sister city, and St. Paul lost by just the sister city. #### THRILLS IN THE BALL GAME

A Play that Caused a Spectator to Fall Off a Roof and Land on His Head.

Of all the forms of public entertainment base ball seems to be the one that S. J. thrills its devotees to the core at every performance. The circus comes to town and suffers by comparison with its percursors, the billboards. The art exhibition brings down criticism upon the heads of the contributors of pictures. Half of the audience is bored at the The drama attracts to the theater its thousands, but most of them go | Rev in a frame of mind antagonistic to the playwright and the cast. All of them are quick to jeer and slow to gurgle with enjoyment of comedy or to clap their appreciation of the climaxes in melodrama or tragedy. But the base ball "fan" is a self-forgetting worshiper of the game he patronizes. During the game he is translated into a land of glants and heroes and demigods, revolving around an umpire who is either a beneficent being -an incarnation of the square deal-or a creature devoid of a sense of justice. The base ball enthusiast admires and condemns vividly. If he finds fault at the top of his lungs he records his approval with equal vim. During moments of excitement resultant upon worthy achievement upon the diamond he is in a delirium of ecstacy, when he is oblivious of all events of the future and the past and his present surroundings. A dispatch from Chicago illustrates the point. William Hudson was standing near the edge of the roof upon a threestory building. He was absorbed in the battle between the Chicago and New York National league teams. In the fifth inning Tinker of the Chicago team batted a ball far into center field. In his excitement Hudson ran forward, yelling like a Comanche. Forgetting that he was not upon terra firma, he stepped off into the air as the great Tinker neared the home plate, completing the circuit of the bases. A mighty roar went up from the multitude of those who had paid admis- The Longest Continuous Double Track sion to the game as the hapless Hudson hurled through space and landed upon his

sweets.-Chicago Inter Ocean.

Bolivar, biggest of elephants, died in his prison house at the Philadelphia Zoological Gardens. He never had a rival in esptivity except Jumbo, and Jumbo, while tailer, was lighter than Bolivar. The amount of money, as the society has paid. Philadelphia monster weighed six tons. For twenty years the big fellow had been confined within a small inclosure at the Zoo, and for twelve or fficen years he had not been allowed even to pass out of his cell into the tittle yard. One foot shackled with a big chain, he stood there all day long, year after year, his huge bulk swaying from side to side, his clumsy feet scuffling slowly on the floor. He was kept a prisoner because he wasn't safe. He had a fairly mild eye, had Bolivar, but somewhere in the huge head was a "bad" streak. Twice during his career, before he was chained up, that bad streak flared up into victousness. and he trampled the fives out of two men.

No one knows how old Bolivar was. Until recently it was believed that he was 87 or 38 years old. When Adam Forepaugh, the circus man, bought him thirts years ago, he was told that the elephant was 17 years old. But he may have been any age up to 160 years, which elephants sometimes attain. He died of old age, the animal doctors think.

It is a curious coincidence that the only man whom Bolivar acknowledged as a real master is lying prostrate in the Presbyterian hospital, battling with the white plague, a struggle that may have but one ending. That master was Eph Thompa complete classifications for entries, the many years the head elephant keeper for son, a glant colored man, who was for Adam Forepaugh.

Bollyar, an Asiatic elephant, was bought by Adam Forepaugh in 1878. The rule among elephants is that the bigger the animal is the better its temper. But Boilvar was an exception to this rule. It is certain that he had never killed any one before he came to America, for once an elephant kills a man he will kill another at the first opportunity offered.

For an elephant who had not reached what is known as the "musth" period, when he becomes dangerous, Bolivar had an unusually vicious temper. The veteran showman had him for nine years money from the county this year than before he became murderous. In the usual, the amount being proportioned on spring of 1888 he killed a man who was a smaller vote than in other years. The tantalizing him with the lighted end of a

The curling tip of the great trunk seized him, and in an instant later the mighty foot of Bolivar had crushed the man's head out of all human semblance.

It was only a question of time before he would claim another victim, and he have condemned him. But Adam Fore-

It was first the intention of the woman's husband to have Mr. Green looked up with a start, then the woman taken back to Wyoming and prosecuted, but upon reconsidering he deolded not to prosecute and Sheriff J. T. Farreil of Sundance will take the child

back to its father. Burkhoffer signed a paper giving the father all claim to the daughter. She was arraigned before Judge Crawford Saturday morning, who delivered a stinging lecture to the woman before he discharged ner, owing to lack of prosecution.

HOGAN ATE UP PRIZE FIGHTERS Recollections of a Kansas City Barkeep Who Had a Large

Gradge.

I had a speaking acquaintance years ago with a bartender who served drinks in a Battle Row saloon in Main street, near the old Central police station in Kansas City. This bartender, who hore the martial name of Hogan, was a monomaniac on the subject of whipping prizefighters. He hated the professional puglist and never overlooked men all up and down the river. There is an opportunity to "take a crack" as he exone stationed at every pier entrance; he pressed it at one of the fraternity.
