

OMAHA AND ROADS PROFIT

City Shares with Rock Island-Frisco Benefits of Trade.

BOYCOTT INJURIOUS TO BOTH

Within a Few Days Tariff Officials of These Railroads Will Make Their Rates Fair to Omaha.

Within a few days the tariff officials of the Rock Island and Frisco lines will meet to revise tariffs to equate grain rates from Nebraska and Kansas points to Omaha and Kansas City.

The result will be that both the railroad company and the grain market will secure more business.

That the railroad company has lost by the action of Omaha shippers is admitted. This is especially true of the wholesale and retail members of the Commercial club, who have stood loyally by the Omaha Grain exchange to secure an equitable division of the territory in southern Nebraska and northern Kansas.

The Rock Island admits that it has lost in shipments of merchandise both on business coming from Chicago and the south to Omaha and on outgoing business. By sending routing orders or giving them to freight agents of other lines, the shippers of Omaha have kept the railroad company from securing hundreds of cars from Chicago to Omaha.

As to the loss of grain shipments, the Rock Island officials deny they have lost heavily, if at all. They point to the record of the last six months following two letters sent out by the Grain exchange and Commercial club, advising against shipping over the Rock Island lines, as months when they received their share of the grain business.

A glance at the records in any railroad office or in the office of the grain exchange shows that the merchandise shippers struck the hardest blow.

The Rock Island has been bringing some grain to Omaha, but it has been taking out what the officials call "our full share."

During March, when shipments were the heaviest, the following is the record which shows the cars shipped to Omaha by the Rock Island as compared to the Great Western and Illinois Central lines, roads which bid for the shipments out of Omaha without originating the grain:

Table with columns: Date, C. R. I. & F., G. W., I. C. Rows for March 25, 26, 27, 28, 29, 30.

Proof for the Road. Days selected at random during June and May bear out the statement of the Rock Island lines that they have managed to secure their full share of the grain shipped from Omaha to Chicago.

But the Rock Island had to scheme to get all of the business which it has secured in grain shipments. At times there were buyers on the Omaha market who bought largely to secure the traffic for the Rock Island lines.

Secretary E. J. McVern of the grain exchange is out of the city, as is also J. M. Guild, commissioner of the grain exchange. The letters are said to be authorized by the transportation committees of the two organizations, which accepted the promise of the Rock Island lines that the right thing would be done by Omaha when the tariffs were revised.

Grain Men Get Case Set Off. Grain men doing business in Omaha and other Missouri river points have secured a continuance of the case and the date set for the cessation of the payment of elevation allowances at the Missouri river points until December 1, which will permit most of the grain from this section being shipped under the old rules.

On complaint of the St. Louis Merchants' association the Interstate Commerce commission ordered the railroads to cease paying elevation allowances at Missouri river points October 1. No order was made against other points and naturally when it was brought to the attention of the commission that body soon recognized that this was a discrimination against Omaha and other Missouri river points.

As a consequence the Interstate Commerce commission has postponed the effectiveness of this order until December 1 to give the grain men at the Missouri points time to present their cases.

FRONTIER DAY THE BEST EVER. Bucking Bronchos Real Thing, Says Charley Lane, Who Took Party Out.

"The wild horse riding at the Frontier day celebration at Cheyenne makes an ordinary bucking horse exhibition look like a prayer meeting," said Charles J. Lane, assistant general freight agent of the Union Pacific, who returned Sunday from Cheyenne.

"There they go onto the plains and secure wild horses which have never seen a halter, and many have never seen a white man. The horse is run into the arena in a perfectly wild state and those western boys throw him, saddle and then ride him. It is a sure thrilling sport. The exhibition is proving a bigger drawing card each year and the crowds were tremendous."

Mr. Lane accompanied a party of twenty-seven stockmen from South Omaha, under the leadership of Everett Buckingham, general manager of the Union Stock Yards of South Omaha, and all were thoroughly impressed with the high class of the entertainment.
