CHICAGO, Aug. 24.—Bearish weekly statistics and an increased movement of the new crop were insurmountable obstacles to any advance in wheat prices on the local exchange today, the market closing heavy, with prices unchanged to it befow the final quotations of the previous session. Corn and oats were also weak, but provisions closed firm.

The wheat market opened weak under the weight of lower cables, an increase of 1,92,900 hushals in the amount on passage, world's rhipments and a market increase of 1,92,900 hushals in the amount on passage, world's rhipments and a market increase of 1,92,000 hushals in the movement in the northwest. The last factor was, perhaps, the most important. Receipts at Minneapolis today were 374 cars, of which number about 200 cars were from the new crop. Initial quotations shawed losses of it @ ic. compared with Saturday's close. September opening at 92% @ 92% c and December at 92% c. Business was very quiet all day and, although prices rallied slightly several times, the upturn failed to increase the volume of trade, the impending movement of the new crop seeming to prohibit any great activity. Arrivals of wheat today at Kansas City were 467 cars and the cash market there was very heavy. This had a depressing effect on the local market during the last half of the season. The range on September for the day was 12% @ 31% c, while December sold between 22% @ 31% c, while December sold between 22% at the constant was a little better. Prices on Board of Trade. EXCHANGE TO INVESTIGATE Market Opens Lower, with Wenkness Throughout Active List-Southern Pacific Railies Near Close, with Others Generally Lower. Receipts. Shipments NEW YORK, Aug. 74.—Discussion in the financial district today had to do mainly with last Saturday's sensational market and announcement that the Stock exchange had determined to take immodiate official cognizance of the episode was received with general approval.

A closer study of the day's business was said to have heightened the impression that in a very large part it represented neither genuine short covering nbr legitimate trading of any kind. It is the avowed purpose by the governing body of the exchange, to probe the matter to the bottom and preparations to tifat end are already well under way. That traders and the speculative faction as a whole have taken warning was clearly evident from the character of today's operations. Business during the early session was least than one-fifth of that transacted in the same period Saturday and throughout the day the market had frequent periods of utter inertia. Reports dealing with general business conditions were rather conflicting. Railroad officials west of Chicago admitted that long-haul traffic continued disappointing, with the grain movement much below expectations. From the southern mercantile centers came advices of slow recovery. The coal, lumber and live stock movements are somewhat better, but still much below normal. Grain receipts at Chicago last week were 750-000 bushels under the same week last year. The same falling off applies in greater or less degree to other food-stuffs. Other developments having direct relation to the stock market were Candidate Taff's piedge to an early tariff revision in the event of his election and the inauguration of an action by the attorney general of this state against the various companies engaged in the Iransportation of hard coal within its boundaries. The defendants to this action embrace fully a score of the business. There was also the news today that the Texas railroad committee had urged the state's legal authorities to institute proceedings against the Rock Island and other lines in vertice of the late trading NEW YORK GENERAL MARKET Quotations of the Day on Various NEW YORK, Aug. before the cattle were ready to go on and before buyers were ready to do business.

As will be readily understood from the above, the trade on beef steers was slow and the tendency lower throughout the day. Some cattle that just happened to suit buyers, did not possibly show that much decline, but a good many sold lower than last week. While the market was late, a good share of the offerings finally changed hands before the close. Cows and helfers showed about the same decline as beef steers, being anywhere from slow to 10015c lower than last week. The best fleshy feeders were in very light supply, there being comparatively few cattle of that description and prices were accordingly about steady. On the other hands there were a good many common to medium kinds that were all of 10015c lower. All slong the road we saw negroes hurrying in every direction, with what few belongings they could carry tied in a sack and many of them munching a loaf of bread on their way. Many of these negroes own property in Springfield, I understand, but I suppose as soon as the excitement quiets down they will return." Mr. Miner is of the opinion that the conditions in Springfield are worse than reported. He says the people are worked up to a fever stage and on the least provocation it is feared the trouble will break

TENANT CLINGS TO HOUSE Declines to Vacate for Gospel Mission and the Latter Brings Ouster Suit.

Suit has been brought before Justice of the Peace Altstadt to oust Barnuel Ravits. who has a rooming house at 1321 Douglas street, in order to make room for the Union Gospel mission, which keeps a restaurant on the street floor of that number and wants to take the upper floors for reading rooms. Ravitz had a three-year lease on the up

per floors from an eastern owner, but the property in the meantime was sold to A T. Klopp of Omaha. Ravitz asserts that he had a verbal agreement to renew his lease for two years when the first term was up, but the new owner, wishing to 3,000 will not recognize this agreement. The 3,000 nitssion has planned to remodel the upper 26,000 stories and put in new furniture, where it 56,5% will operate a poor man's reading room in connection with the restaurant below. Justice Altstadt took the case under ad-

Small Town Guest Will Register at Hotel from Big City to Make Show.

"It's funny," said a hotel clerk, "what little vanities some people are caught in. Take the signing of a hotel register for instance. Now, here's a man who comes from a little town over here in a nearby state and he signs up from New York. It looks big, you know, to put New York these people have for distinction is to come from some town where nobody else ever

travels. But they seem to prefer the big towns as a part of their signature. "A lot of these false addresses are given by traveling men, who very naturally give rather than the town in which they live. Others, however, have no such good ex-

cuse. You can't tell where a man comes from by what he puls on the register. Not by any means,"
