FIGURING ON WATER PLANT

Engineer Bryan Seeking Information for His Report on Etnyre Plans.

DOCUMENT EXPECTED MONDAY

Intimation that if He Reports the Wickham Bid Reasonable the Contract for Construction Will Be Awarded Him.

William He Bryan, the expert hydraulic engineer employed by the city council committee on water works to check over the plans and specifications for a municipal water plant prepared by City Engineer Ettyre, and on which Contractor Wickham based his bid of \$631,000, arrived in Council Bluffs yesterday for the purpose, it was stated, of securing additional data on

which to base his report. As on his previous visit to the city, every effort was made by Councilman Jensen, chairman of the committee on water works. and City Engineer Etnyre to keep the fact of Mr. Bryan's presence from becoming public and to prevent him from being "interviewed" by newspaper reporters.

It is said that Mr. Bryan will return come this evening and that he will probably have his report completed by Monday or Tuesday of next week. Mr. Bryan's where it was stated yesterday she was suspected of knowing something about the recent burglaries on South Main street are being held at the city jail on a general charge of vagrancy, while the police are labor and material. It is possible, it is said, that Mr. Bryan, in addition to his report on the Etnyre plans, may submit an estimate of the cost of such a water plant, based upon his own calculations.

Councilman Jensen said yesterday that the report of Mr. Bryan would probably determine the fate of the Wickham contract, which is now awaiting the decision of the committee. "If Mr. Bryan's report indicates that the Wickham bid is reasonable, it is likely that the committee will, acting on the authority given it by the council, award the contract to Mr. Wickham." Mr. Jensen said.

Yesterday Chairman Zurmuehlen of the Board of Fire and Police Commissioners received the following communication from ceived by the latter yesterday, suggests E. H. Doolittle, chairman of the executive that the state legislature be requested at committee of the Commercial club:

The Council Bluffs Commercial club has been requested by certain prominent citizens of Harian and Avoca to ask your nonorable body to allow the racing team of the Council Bluffs fire department to exhibition runs at the fairs at Haran and Aveca.

It has been stated to us that an arrangement can be made whereby the apparatus in Council Bluffs will be fully equipped with horses while the team is absent and that the men who handle the team and apparatus on the exhibition run, will only be absent from the city a few hours each day and that their places will be filled with a property of the city and th with substitutes. Under these circumstances it is our belief that the team can be allowed fo go out of town without danger to property in this city.

These communities have always been very

friendly to Council Bluffs and have granted us favors in the past, therefore, in view of the above stated considerations, we re-spectfully request that you give permission to have this team used for exhibition purposes at these fairs.

In view of the fact that the request of the pusiness men of Harlan and Avocanow has the endorsement of the Commercial club. Chairman Zurmuehlen stated yesterday that he saw no obstacle to granting Fire Chief Nicholson permission to take the team to the two county fairs to give exhibition runs.

City Ordinance Held Void.

The ordinance "licensing the business and occupation of distributing advertising matter within the limits of the city of Council Bluffs," will have to be amended as the result of a decision of Judge Wheeler in the district court yesterday. Judge Wheeler held that the ordinance in question was void for the reason that it provided both fine and imprisonment as penalty, whereas under the state law it could only provide one or the other.

The question of the legality of the or dinance was raised in the case of John F. Hogie, a solicitor for a correspondence school, who was arrested January 10, of this year, and charged with distributing advertising matter without a license. On February 28 Hogie was fined \$5 and costs and appealed from the police court to the district court. While holding the ordinance void, Judge Wheeler ruled that the requiring of a license for distributing advertising matter was not unreasonable nor illegal.

Owners Refuse to Start in Races 'a Ballaton Fair While Governor is Present.

BALLSTON, N. Y., Aug. 27 .- For an houand a half yesterday afternoon the openly expressed hostility of the owners of trotting horses taking part in the events at the Saratoga county fair toward Governor Charles E. Hughes held up the racing program at the fair grounds here. Governor Hughes was a visitor at the fair today and addressed a big gathering. which gave him a hearty greeting and an attentive hearing. The governor's presence on the grounds, however, was resented by the horse owners, who have taken exceptions to the governor's efforts to suppress betting on the race tracks of the state. As a consequence they refused to start their horses while the governo was on the grounds.

The "strike" of the horsemen created an unprecedented scene and caused the management of the fair marked embarrassment. When the condition became known a sensation was created among the thousands of spectators on the grounds and considerable pressure was put on the trotthe members of Bluff City Masonic lodge, recover the body of his murdered son, off the races as scheduled.
