

GRAIN AND PRODUCE MARKET

Strong Cables Boosted Values and Prices at the Opening.

WHEAT OPENED STRONG AND HIGH

Better Cables Induced the Early Strength in Buying, but Sustaining Power Was of but Short Duration.

OMAHA, Aug. 28, 1908. Strength in cables started heavy buying...

Officers of long staff of yesterday were among the best buyers today, and offerings were not free on the advance.

Primary wheat receipts were starting at the high point yesterday, after a slump in the late trade.

Buyers indicated the early strength in buying, but the sustaining power was of short duration, and values were easier in the close, when they opened at 1/2 and closed at 3/4.

Wheat held steady to a shade higher in nearby wheat and was generally strong for country shipments as a strong factor in keeping values down in the face of the grain market.

September corn opened at 72 1/2 and closed at 72 1/2.

Primary wheat receipts were 307,000 bushels, against receipts last year of 235,000 bushels and shipments of 1,000,000 bushels.

Corn receipts were 400,000 bushels and shipments were 472,000 bushels, against receipts last year of 350,000 bushels and shipments of 1,000,000 bushels.

Clearances were 5,000 bushels of corn, 2,000 bushels of wheat and flour equal to 27,000 bushels.

Liverpool closed 1/2 higher on wheat and 1/4 higher on flour.

Board reported 80,000 bushels of wheat for export.

Chicago Grain and Provisions: Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Aug. 28.—The local wheat was strengthened today by an unexpected advance at Liverpool and closed firm, with prices 1/2 above yesterday's final figures.

Corn and provisions closed firm, with prices 1/2 above yesterday's final figures.

The status of trade in the wheat pit was an urgent demand for the September wheat, but by shorts and cash interests.

The limited amount of that option caused the market to sell off on a price of 72 1/2.

The premium on the same month was only 1/2, a market opening strong on an initial quotation of 72 1/2.

The strength at start was due to a report of a large advance of 1/2 at Liverpool, which it was said, was the result of the small amount of the nearby crop.

Com Argentina, the total movement from that country being 302,000 bu., compared with 220,000 bu. in the previous year.

Receipts in the northwest and weather conditions in the spring wheat country, the heavy movement of the new crop, were seemingly ignored.

The market for wheat in the northwest was a decline in the price of cash wheat at Minneapolis and Duluth.

Pressure was on the December and May deliveries. The market for wheat was quiet, but it was reported that a heavy report and Duluth and Toledo also reported moderate sales.

The cash market for wheat in the south and west was quiet, with a decline in the price of cash wheat at Minneapolis and Duluth.

Receipts for the week, as shown by Braintree's, were equal to 423,000 bushels of wheat, 100,000 bushels of corn, and 57,000 bu. of exports for the week, as shown by Braintree's.
