AN INNOVATION

IN CLOTHES BUYING AND CLOTHES SELLING

AT THE NEW STORE

16th and Howard Streets Opposite Thempson, Belden @ Co.

HE Greatest Clothing Store in the Middle West is about ready to invite you to its Grand Opening-when you will be able to judge for yourself whether or not our claims for store superiority are justified.

Today we want to tell you why you have a right to expect so much more for your money at the New Store.

The usual way for a store to buy itselothing is from sample "models" shown by the several wholesale tailors good, bad or indifferent. But we have adopted a system of buying which will work wonders in value-giving.

We go direct to the best tailors—we specify just how every garment shall be made—we select the fabrics, trimmings and linings oureslves. Then we subject the finished garments to a rigid examination before we accept them. We apply these methods to every garment regardless of price, and by so doing we get a quality into our clothes that is impossible otherwise, and it enables us to sell them at prices so low as to be astounding.

(Centinued from First Page.)
