Corn is the Real Power and High Valnes Are a Great Influence to the Other Cerents-Closing Prices.

OMAHA, Sept. 3, 1998. Values are held strong owing to rebuying by sellers on the bulge yesterday.

Demand remains steady to strong and traders to a man are builtsh, with conditions strong enough to warrant higher values. n seems to be the real power and the values are a great influence to the

other cereals.

CHICAGO GRAIN AND PROVISIONS Peatures of the Trading and Closing

Prices on the Board of Trade.

Prices on the Board of Trade.

CHICAGO, Sept. 2.—Wheat prices on the local exchange today advanced nearly 2c from the low point of the season owing chiefly to confirmation of enormous sales of flour at Minnespolis yesterday. All of the advance was not maintained. But the market closed strong, with prices up %5%c to 14,50%. Corn size was buoyant and closed at net gains of 150%c.

Outs and provisions showed gains of moderate proportions.

Builish sentiment was rampant in the wheat pit almost the entire day, but quieted down considerably late in the session with a fear of possible realising sales. The market showed slight weakness at the start because of the poor response of the Liverpool market to the upturn-here yesterday, but a firmer tone soon developed as a result of general buying by commission houses, who seemed to have accumulated a large number of buying by commission bouses, who seemed to have accumulated a large number of buying offers over night. This buying was chiefly based on the flour situation at Minnespolis, where 19,000 barrels were said to have been sold for export. An estimate made by a French trade journal on the total yield of wheat in France, and which indicated that it might be necessary for what country to import from 18,000,000 to 38,000,000 bushels of wheat in France, claimed that early bids for wheat for exports ower munerous, but that the subsequent advance carried the market out of the export sone. Oats were active and strong early in the day in sympathy with wheat and corn, but quieted down later in the session. Cash oats in the sample market were 4c higher. The close was firm. Local receipts 219 cars.

The metal and industrial group were most closely affected in sympathy and their weakness was aggravated by rumors of pressure to place copper metal by some of the larger producers and concessions. These large producers are anystery of their selling prices so far as general public knowledge is concerned and no reports of quotations from their selling agencies is obtainable. The American Smelting episode undoubtedly had an influence in the auggestion that many things had been taken for granted as to the progress of improvement by those who had been speculating on the long side of railreads coming to hand and those of the revival is going on steadily, but admittedly slowly. On the side of the crops it is realised that some revisions of the most hopeful estimates must be made.

Sales of stocks by foreign arbitrage brokers, while not largs in proportion to the general market, were of influence on sentimates of the rate of improvement. The same is true of the returns of the senting and the provision of the most hopeful estimates must be made.

CATTLE—Receipts of cattle were small today compared with the heavy runs on the week foots up 36,899 head, being larger than any previous days this week. Still the total for the week foots up 36,899 head, being larger than any previous week since the beginning of the range season and a trifle larger than for the corresponding week of last year. The market has been in very satisfactory condition all the week notwitnstanding the extremely large receipts, and prices have two with an any previous described and the week notwitnstanding the cattle were in good season, the market closing at the strong point of the day. The hogs sold very largely at \$5.50ge.56, with a top at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remembered that the most of the hogs yesterday had to sell at \$6.70, 11 will be remem ten weil maintained on all kinds, except common to medium feeders.

There was a very fair demand for beef steers and the market on all desirable kinds was generally quoted as steady. In fact there was no noteworthy change or any new features worth mentioning. The offerings for the most part changed hands in good season.

The market on cows and heifers was also devoid of any quotable change in any direction. Desirable kinds, if anything, commanded good, strong prices and the general was
