GRAIN AND PRODUCE MARKET

Heavy Receipts and Shipments Take Edge Off Grain Values.

PREDICTIONS FOR FUTURES MIXED

Receipts Are Daily Running Over Esfimates and it is Coreeded that Prices Will Come to Lower Level.

OMAHA, Sept. 5, 1968.

Heavy receipts and large expected country shipments take the edge off grain values. Northwest markets cams lower and seiling became general and offerings were backward and slowly taken. Sentiment runs mixed as to the future action of values, but receipts are running over the estimates daily and it is conceded that if they continus large prices will have to come to a lower level. heat proved a dull affair owing to the short Saturday session and the holiday to come Monday. Short selling on the larger northwestern receipts proved the real factor Advices show a good demand all along

the line, and this should sustain prices. September wheat opened at 25%c and closed sold off moderately on realizing. The weather continues ideal throughout the belt, and the forecast is for continued fair conditions: The weather is still the important factor with the deterred futures, september forh opened at 73c and closed at 3c.

Primary wheat receipts were 5,880,000 bu. and shipments were 3,200,000 bu, against receipts last year of 4,549,000 bu, and shipments of 3,18,000 bu.

Corn receipts were 2,757,000 bu, and shipments were 2,428,000 bu, against receipts last year of 2,368,000 bu, and shipments were 2,428,000 bu, and shipments of 2,390,000 bu. cats and wheat and flour equal to 307,900 bu.
Liverpoolschosed %d higher on wheat and

CHICAGO GRAIN AND PROVISIONS

Prices on the Board of Trade.

CHICAGO, Sept. 5.—Selling for profits assumed liberal proportions in the wheat market today owning to a heavy movement, both present and prespective in the morthwest. The market closed weak, with prices off 1-25-8c. Corp; eats and provisions were also weak.

Business in the wheat pit was of an evening up character, as is usual preceding a holiday and holiders being more anxious to sell than shorts were to buy, prices steadily declined all day. The chief influence was the situation in the northwest. Receipts at Minneapolis and Dulath were enormous, the total arrivals today at the two points being 156 cars, against 47 the corresponding day a week ago, and it was predicted that the receipts at Minneapolis next Tuesday would aggregate from 2,60s. to 2,50s cars. Despite an unusually urgent demand for cash wheat by millers in the northwest and the large sales of floor which have been made the past few days, the exceptionally heavy movement naturally could have no other effect, it was claimed than to weaken wheat values. Local exporters claimed that any material decline in prices would force liberal export sales but only small sales had been made during the day. Minneapolis and Chicago cash wheat premiums were unchanged and St. Louis was become and the interference of wheat and thou were equal to 307,000 bushels. Primary receipts, 1, 40,000 bushels. Compared with 58,000 bushels the cofresponding day. A. year ago. Minneapolis, Duiuth and Chicago reported receipts of 831 cars, against 502 last week, and 366 a year ago.

Corn was dragged flown slightly by the weakness of wheat. The selling of September was due to the turning out of about 180,000 bushels of contract-corn from elevators during the past twenty-four elevators during the past twenty-four Features of the Trading and Closing Prices on the Board of Trade.

LEGAL NOTICES

DFFICE OF THE SIOUX CITY AND WESTERN RAILWAY COMPANY.
Omars, Nebraska, August 2, 1908.
To the Sto kholders:

The disposition of the day's receipts as follows, each buyer purchasing the riber of head indicated:

Omaha P. Co., Denver. 116 Cudahy Pkg. Co., Ft. W. 183 Cudahy Bros. Co., Sullivan Bros. 1 St. Louis Ind. Pkg. Co. Wismun

Totals — 0.1. 388 4,433 3,022 for cartile.—Only a few scattering bunches of cattle were on saic this morning, there of tattle were on saic this morning, there of tattle were on saic this morning, there of tattle were on saic this morning, there of the market. It might be said, however, that the feeling was about steady with yesterday. For the week the receipts of the market of the face that the arrivals on most days have been quite fiberal that the arrivals on most days have been in spienoid conditions as viewed frags a seller's standpoint.

In spite of the face that the arrivals on most days have been in spienoid conditions, with the feasit that the market throughout the week has been in a good healthy condition.

Hardly enough cornifed steers have been received during the week to make a real test of the market seal that the survivals of the market through prices as comparsed with last week. Hange beef cattle have been active sellers on practically every day throughout the week advanced in the face of very liberal market is around 100 fight higher than it was at the close of the face of very thing coming the prices are considered to take a seal and that may be taken as an explanation of the fact that prices have advanced in the face of very liberal receipts.

The market on cows and helifers also has been in very salisfactory condition throughout the week. The demand has been at very evident that they have had a place to put the cattle and that may be taken as an explanation of the fact that prices have advanced in the face of very liberal receipts.

The market on cows and helifers also has been in very salisfactory condition throughout the whole week. SHEEP-T

Last Week.

Cattle, Mogs. Sheep. ... 6,804 3,304 28,18 Date. | 1908. | 1907.1906. | 1906. | 1904. | 1908. | 1902.

There has been a sufficient demand to take care of everything coming, so that each day's arrivals have sold readily, and, as a rule, been cleaned up before the close of the day. In fact, about the only thing that has been carried over here on any day has been the odds and ends, which buyers and sellers could not get at in time to clean up before the close of the market.

selling points as well, has given values a downward tendency everywhere, with the result that at the close of the week the market here on sheep is generally quoted around 20630c lower on the general run of stuff, with occasional sales showing a lit-

netive, no that each day's arrivals have met with quite ready sale at prices showing more or less strength from day to day. At the close of the week the market is around 10c higher than last week's close. The strength shown has not been limited to any one kind, strictly good cattle, as well as canners, being quoted higher.

Good Tleahy freeders have been in active densand throughout the week, selling freely every day at good steady prices and at the close of the week the market is fully steady with a week ago. On the other hand there has been a targe supply of common to medium grades of both stockers and feeders, which have been rather slow asie every day, the country not appearing to care for that kind. Hence there has been a tendency toward accumulation of that class of cattle in the hands of speculators, with the natural result that prices have had a downward tendency. At the close of the week and 26490c lower than the high time two weeks ago.

Quotations on cattle: Good to choice corn-fed steers, \$1.506.5c; good to choice corn-fed steers, \$1.506.5c; good to choice corn-fed steers, \$1.506.5c; common to fair comes steers, \$1.506.5c; common to fair comes steers, \$1.506.5c; common to fair cows steers, \$1.506.5c; common to fair cows and heifers, \$2.506.5c; covs and facelers, \$2.506.5c; covs and heifers, \$2.506.5c; covs and facelers, \$2.506.5c;

heifers, \$3.6064.5; fair to good cows and heifers, \$3.6063.50; Common to fair cows and heifers, \$2.5563.00; good to choice stockers and feeders, \$4.0064.65; fair to good

Condition of Trade and Quotations on Staple and Fancy Produce. very dull at the close and the feeling weak and unsatisfactory as compared with the early market. The hogs soid very largely at \$6.55096.65, as against \$6.55096.60 yesterday. The top hogs reached \$6.75, which was 5c higher than yesterday's top and the highest price paid in a long time. Receipts of logs this week have been alightly less than last week and considerably smaller than a year ago. The market this week has fluctuated back and forth, the low point having been reached on Thursday. The improvement in prices yesterday and today leaves the market about 15c higher than at the close of last week and at the high point of the year to date.

per crate.

Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. No medicine can do more.

Dun's Rep ort of ank Clearings

Midsummer dulness in trade usually reduces settlements through the banks to the smallest volume of the year, and while August bank clearings still denote considerable curtailment they are now more nearly normal than for any mouth for nearly a year, exceeding in amount four of the seven preceding months this year. R. G. Dun & Co. report total bank exchanges for the month for more than one hundred cities in the United States, all that report, of \$10,236,877,439, 11.4 per cent, under the corresponding month last year. One business day less in the month this year makes the comparison slightly more unfavorable than it should be, average daily bank exchanges for the month showing a loss of only 8.0 per cont.; compared with August, 1906, the loss is somewhat larger, but this is mainly due to the heavy decrease at New York City, where stock market operations two years ago were exceptionally active, raising August bank clearings above three of the seven preceding months, instead of their being at the lowest point of the year. There are again some gains at some of the smaller cities, but losses in comparison with both preceding years continue to predominate. The August report denotes some improvement in the volume of payments through the banks, but the improvement is naturally very alow. Comparison is made below of bank exchanges by sections covering three years; also the average daily figures for August and the seven preceding months:
