TO SPECULATORS

Interspersed in our thousands of cash orders for "National Stock" from investors all over the world are many requests for us to buy and carry "National Stock" on margin: To accommodate this class of buyers we have entered into an arrangement with "National Stock" whereby we will sell to our customers through the open market, and at the open market price, any part of 500,000 shares on the following terms: 50% margin on any amount from 500 to 1000 shares and 25% margin on any amount over 1000 shares with 6% per annum interest on unpaid balances, our only charge being the regular market commission, the same as on cash orders.

In making this offer, it should be borne in mind we will not buy and carry on margin any less than 500 shares, for it is not our desire, nor the desire of the "National Stock" management, to encourage margin buying, but we will margin purchases in the case of regular seasoned stock market speculators or brother brokers. In other words, while "National Stock" is securing millions of investors to aid in earrying out its plans, we will offer every facility to speculators, that "National Stock" may compete in every way with System stocks.

We take this occasion to express our thanks to the public for the enormous business they have sent us on "National Stock" and to assure all who have bought and who have not yet received their certificates that they will receive them at the earliest possible moment.

Notwithstanding we have an extra office force working day and night, it will be some three weeks longer before we will be caught up on orders and certificates.

We call the attention of any client who has not yet received his certificate to the fact that its non-receipt should make no material difference with his investment, for if he wishes at any time before he receives his certificate to sell his stock we will dispose of it the same as though he had had his certificate and remit to him the proceeds of the sale.

We also call the attention to brokers throughout the country to the misinterpretation of a notice contained in the "National Stock" pamphlet to the effect that all orders for "National Stock" should be sent to New York or Boston Stock Exchange or Curb houses. Mr. Lawson authorizes us to state that he intended this to mean that would-be buyers should give their orders to those brokers in their vicinity who had business connections with any New York or Boston Stock Exchange or Curb house. We solicit the business of all reputable brokers throughout the country and assure them the same quick and reliable service which we give to clients direct.

LAWSON-NATIO

YOU have been reading Mr. Thomas W. Lawson's advertisements regarding NA-TIONAL stock [Bay State]. EVERY-BODY has been reading these advertisements, and from the way the ORDERS HAVE BEEN POURING INTO THIS OFFICE, everybody is buying some of this

The buying orders come from all classes, from 5 shares to 10,000 shares at an order.

NATIONAL stock [BAY STATE] affords a channel for speculation within the reach of ALL CLASSES, and what can be accomplished by Mr. Lawson or any other one man having the AMERICAN PEOPLE behind him is BEYOND CALCULATION.

Buyers of NATIONAL STOCK pay for the stock outright, and no fluctuation in the market price can entirely wipe out their investment, as is the case in buying higher priced stocks on a margin.

As we said before, the buying of NA-TIONAL stock during the past week has been enormous. MR. LAWSON'S PAMPH-LETS are now being distributed. If you have not yet received a copy write us and we will send you one. We believe that as the people read this pamphlet the buying of this stock during the coming week will be MUCH LARGER than in the past.

Our commission charge for buying or selling NATIONAL stock [BAY STATE]

is \$6.25 per hundred shares as long as the stock is selling below \$5 per share. When the stock sells above \$5 per share our commission charge will be \$12.50 per hundred shares, buying or selling.

We have direct private wire connection with the New York and Boston curb markets, and having made a specialty of NA-TIONAL STOCK and being recognized as the WESTERN HEADQUARTERS for purchasers we can execute your orders to better advantage and give you more PROMPT DELIVERY of stock certificates than any other house in the west.

We have our own office at 74 Broadway, New York. Orders may be sent there if you so desire.

We have the most complete records in our office of transactions of stockholders in leading corporations of any firm in the West, covering a period of thirty years.

Send us your orders on NATIONAL [BAY STATE] and any other stocks in which you may be interested, and if you are going to buy, BUY NOW.

Enclose draft or check with your order, instructing us not to pay above a certain price, say \$2 per share. We will buy the stock at the lowest price possible and return any balance.

If you do not know our financial standing, write ANY BANK IN CHICAGO regarding it.
