Men's Clothing Main Floor

UNEQUALED VALUE AND WORKMANSHIP IN OUR Men's Fall Suits

There need be no uncertainty in clothes buying here. We give you every assurance that whatever amount you spend for your suit you are going to get better money's worth than in any other place we know of. We are building a big, substantial clothing business along these lines. Men who have bought suits here come back again and again.

Our New Fall Suit Styles at \$15 \$18 \$20 Are Pre-eminently the best.

In these three great lines every late style note has been introduced; new fall effects in pockets, lapels, sleeves, cuffs, vests, trousers, etc., with an abundance of new fabrics and colorings such as new browns, blues, greens and grays to choose from.

The tailoring is distinctively a feature, too. Every suit is hand-tailored; interlined in best manner so as to retain its shape. It means a clear saving to you of from \$3.50 to \$5.00 on any suit you might select.

BOYS' SUITS—The greatest amount of style, good service and good materials for the least money if you come here. Our line is broad in variety. Bring the boy in Saturday. Prices are \$2.00, \$3.00, \$4.00 and \$5.00.

FANCY VESTS—The new fall vests are beauties, the colorings are refined and genteel and will appeal to men of taste; worsteds, flannels and mercerized—in stripe, plain and embroidered effects. \$1.00, \$2.00, \$3.00, \$4.00, \$5.00.

Engraved Tumblers, 6 for... 25c
Weisbach Light complete... 65c
20c Gas Mantles, for... 10c

Open until 10 P. M. Saturday

LAST DAY Greatest Corset Sale

Saturday Last Chance to Buy actual \$2.50 Corsets, for 1.29

Such sales as this are of rarest occurrence. Through one of the most fortunate of purchases from a maker who was anxious to keep his factory running and his help employed, we secured these corsets at a very nominal cost. 3,000 corsets in a single purchase, needless to tell you the price, must have been sensationally low to buy such a quantity.

These are the identical corsets usually sold under a certain brand selling at \$2.50. On account of the nature of this purchase the brand has been omitted, so as not to conflict with regular business.

There are no defects. Every garment is absolutely perfect, made of batist, heavily boned and trimmed with Bonnaz embroidery. Extreme long hips and high bust models, two pairs hose supporters.

Positively the greatest corset bargain advertised in years, and Saturday is your last chance to get them. Regular \$2.50 value, for \$1.29

BEST \$2.50 CORSETS MADE IN AMERICA ON SALE ONE MORE DAY ONLY AT 1.29

SHOES For Men For Boys

Big values. Be early to avoid disappointment.

RIVER BOOSTERS WILL MEET

Officers of Missouri River Congress Go to Chicago Next Month.

SUPPORT FOR DEEP WATERWAYS

F. D. Wead, Vice President for Nebraska, Will Attend and Important Conference is Expected to Fix Dates of Yankton Congress.

Vice presidents and executive officers of the Missouri River Navigation congress will attend a meeting to be held in Chicago October 7 in the interests of the Lakes to the Gulf Deep waterway and expect to do their share of boosting for this project, believing that waterway improvements should come together.
F. D. Wead, vice president of the Missouri river congress for Nebraska, will attend, leaving Omaha October 5. It is expected the executive council of the congress will hold a meeting in Chicago and decide on several plans which have been made in connection with the work of securing appropriations for the Missouri river improvement. Among other things the council will decide the dates for the

next meeting which is to be held at Yankton, S. D.
The congress also plans to send a representative to the head of navigation on the Missouri river, somewhere near Great Falls, where the river is navigable.

Report of Traffic for River.
This agent will collect a tabulated statement of the possible traffic which would be given to the river should a boat line be established, a statement of the traffic which now moves parallel to the river by the various lines of railroad, to what markets the products of the great northwest are shipped and to what markets the inhabitants look for supplies. Fuel and water rates will also be compared, the acreage under cultivation near the river ascertained and other facts collected which can be presented to the rivers and harbors committee and the next congress when large appropriations will doubtless be made for river improvement.

The sinking of the Tennessee near Kansas City last week has not discouraged the river enthusiasts. The boat was bought by the Kansas City Transportation company, which is composed of Kansas City business men, to prove that the river is navigable and can get business. The boat got business. It had sixty passengers on board when it went down and a big cargo of merchandise, most of which was saved. "This boat was old and was not constructed for running on the Missouri river," said Vice President F. D. Wead. "It was

bought from an old Mississippi river company simply to try out the navigation on the lower river and it is no surprise that when it got into a bad nest of snags that it went down."

It is believed before another year a company will be incorporated which will be composed of business men of Kansas City, Omaha, Sioux City, Yankton, Bismarck, Williston, Great Falls and Fort Benton, to operate an active line of boats on the river.

FRESH AND COOKED FRUIT

It Serves to Keep the Blood Cool and Also in a Healthy Condition.

Fruit and fruit juices keep the blood in a healthy condition when the supply of fresh meat, fish and vegetables is limited and salt or smoked meats constitute the chief elements of diet. Fresh fruit is generally more appetizing and refreshing than cooked. For this reason it is often eaten in too large quantities and frequently when underripe or overripe; but when of good quality and eaten in moderate quantities it promotes healthy intestinal action and rarely hurts anyone.

If eaten immediately, uncooked fruit is apt to induce intestinal disturbances. If eaten unripe it often causes stomach and intestinal irritation; overripe, it has a tendency to ferment in the alimentary canal. Cooking changes the character and flavor of fruit, and while the product is not so cooling and refreshing as in the raw state, it can, as a rule, be eaten with less danger of causing stomach or intestinal trouble. If sugar be added to the cooked fruit, the nutritive value will be increased. A large quantity of sugar spoils the flavor of the fruit and is likely to make it less easily digested.

BIG BUILDING OPERATIONS

Large Structures Going Up Will Stop Only for Winter.

DEMAND SCORES OF WORKMEN

If Any Unemployed There Be in Omaha They Will Have a Chance to Work All This Fall.

Cheering news for the unemployed—if there be such here—has reached Omaha. The chery ring of the crowbar and the sturdy grating of the shovel will be heard in all parts of the city until winter stops the building operations.

Here are some of the buildings which will employ men from all countries and of all classes:
Loose-Wiles cracker and confectionery plant.
Howard Street Works, four buildings and foundry.

John Deere Plow company, nine-story warehouse.
Maney Milling company, 2,000-barrel flour mill.
Auditorium, completion of the work.
St. Cecilia's cathedral, twenty-eight feet more of walls around gire building.
St. Philomena's church at Tenth and William streets.
Omaha Mitten company, factory and warehouse.
Clarkson hospital, completion of main building.
Wolverton alfalfa mill, East Omaha.
Besides these buildings there is a score

of brick and stone buildings for flats, apartments and new stores. A vast amount of remodeling is also to be done and the outlook at the Building exchange is for a heavy fall work. Several \$50,000 apartment houses are to be erected, three or four residences costing from \$15,000 to \$30,000 and a number of jobs for real estate firms who are erecting a large number of small houses. Several school buildings are still employing many workmen, and there is a probability of work starting on two churches and a bank building.

To secure material is something of a problem with some contractors. Garret Mulder, who is erecting the Bacon flats at Seventeenth and Cumling streets, paid off his force Friday because he could not get brick, but expects to begin again Monday. This building was originally planned for an all-flat building, but the increase in demands for business property on Cumling street had led the owner to change the plans somewhat. The building will have three store rooms on Cumling street and three flats on Seventeenth street.

In all parts of the city there are signs of building activity, which will give employment to many workers until Christmas.

Many Permits Issued.
Friday, for the fifth time during the year, the real estate firm of Hastings & Hayden took out permits to build a number of buildings. The lot includes thirteen dwellings, aggregating in value nearly \$40,000. Four double brick dwellings are included, three of which will be built for \$5,000 each, and a fourth for \$7,500. The list of the new Hastings & Hayden houses complete is as follows: 487 North Thirty-first avenue, frame dwelling, \$1,800; 315 Grand avenue, frame dwelling, \$1,000; 344 Grand avenue, frame dwelling, \$1,500; 343 Webster avenue, frame dwelling, \$1,500; 702 and 704 North Twenty-third street, double brick

GUN STOPS MAN WITH KNIFE

Revolver is Whipped Out, in Time to Head Off Combatant.

Elmer Henley and Sam Majors, two negroes, became involved in a heated argument Thursday night near the corner of Twelfth and Dodge streets and in an endeavor speedily to win the fight, Henley drew a knife and started for Majors with the declared intention of carving the latter into shoe strings, whereupon Majors produced a revolver from a hip pocket and immediately won the decision, as Henley ducked around the corner out of range of any bullets. Before any damage could be done both participants were arrested and were each fined \$5 and costs by Judge Crawford Friday morning.

S.S.S. CURES S.S.S. MALARIA

Malaria is due to impurities in the blood which destroy the rich, healthful qualities of the circulation, and reduce it to a weak, watery fluid. The body is then deprived of its necessary nourishment and strength, and is unable to resist the countless disorders that assail it, and the general system suffers in consequence. The appetite fails, digestion is weakened, chills and slight fever are frequent, while the sufferer loses energy and ambition. Boils, skin eruptions, and sometimes sores and ulcers follow when the blood becomes deeply polluted with the malarial germs. Both a tonic and blood purifier are needed to cure malaria, and S. S. S. is best fitted for this work. It is the most perfect of all blood purifiers and at the same time an invigorating, healthful tonic. S. S. S. goes down into the circulation, and removes every trace of impurity or poison, and gives to the blood the health-sustaining qualities it needs. It cures malaria thoroughly and permanently, because it removes from the blood the germs and poisons which produce the disease, and while doing this tones up and strengthens every part of the system. Book with information about S. S. S. and any medical advice furnished free to all who write.
THE SWIFT SPECIFIC CO., ATLANTA, GA.

Old Coughs

Old coughs, desperate coughs, rasping coughs, extremely pertinacious coughs, that shake the whole body. It takes a strong medicine, a doctor's medicine, to master such coughs. A great many people rely on Ayer's Cherry Pectoral.
