RESIGNATION IS CALLED FOR Harmony Among the Local Democrata Breaks Out in a New Spot and Shows Stronger Than

Ever.

The faithful supporters of his honor. the mayor, have loosed the vials of their wrath and Ed P. Berryman, member of the park board by the mayor's appointment, is slated for execution. At the meeting of the Dahlman Democracy Friday evening when the mayor was abroad delivering banquet orations the desperate deed was done, and a resolution declaring that since Berryman has shown by his actions that he doesn't like the mayor, that the mayor's cohorts don't like him. and it would be wise for him to resign. There was little damage done to the atmosphere when this angry protest was registered. John E. Reagan spoke on be half of party discipline and said that what Tammany would do the Dahlman club ought to do because "the Tammany organization has come down for centuries an the greatest political club in the world until the dawn of the Dahlman Democracy. The whole proceedings was put through with rapidity and a terribly quiet upanimity. The concluding words of the resolution are:

tion are: Therefore, be it resolved by this club, Hat we think li the duty of the said Berryman, in view of the fact that the administration is so obnoxious to him, to tender his resignation as such member of the park board to his honor, the mayor, for whom he is by the late decision of the supreme court of the state of Ne-standing the fact that he has been claim-ing to hold his appointment, notwith-standing the fact that he has been claim-ing to hold his appointment from the dis-to for the good of his administration to request and denmand that the said berryman tender his resignation imme-diately. And be it further The forward to E. P. Berryman a copy of the supreme. For County Chairman.

### For County Chairman.

When it came to choosing the candidate of the club for chairman of the county committee Reagan announced that he didn't want it, and Thomas J. Flynn was under stood to be the choice. Because of Mr. Flynn's own protests no formal recommendation was made, but it was understood that the two-thirds majority which the Dahlmanites hold in the committee will stand for Flynn. Joe Butler was appointed a floor manager to see that the club is not neglected in its own committee.

The matter of secretary for the county organization was left out of consideration. It was talked early in the evening in some of the other democratic camps, that Berryman would be acceptable to the outcasts who belong not to the Dahlman De-

mocracy, but the resolution leaves no stand on that proposition. As it seems was selected as the choice of the club to go school reception given by the boys of the was selected as the choice of the club to go to the meeting which will arrange the state Young Men's Christian association Friday no employes that gave as much and as F. Are we claiming too much for Peruna when we claim it to be an effective

remedy for chronic catarrh ? Have we abundant proof that Peruna is in reality such a catarrh remedy ? Let us see what the United States Dispensatory anys of the principal ingredients of

Take, for instance, the ingredient hydrastis canadensis, or golden seal. The United States Dispensatory says of this herbal remedy, that it is largely employed in the treatment of depraved mucous membranes, chronic rhinitis (nasal catarrh), atonic dyspepsia (catarrh of the stomach), chronic intestinal catarrh, catarrhal jaundice (catarrh of the liver), and in diseased mucous membranes of the pelvic organs. It is also recommended for the treatment of various forms of diseases peculiar to women. Another ingredient of Peruna, cory-

dalis formosa, is classed in the United States Dispensatory as a tonic. So also is cubebs classed as a stomachic and as a tonic for the mucous membranes.

Codron seeds is another ingredient of Peruna, an excellent drug that has been very largely overlooked by the medical profession for the past fifty years. The seeds are to be found in very few drug stores. The United States Dispensatory tays of the action of cedron that it is used as a bitter tonic and in the treatment of dysentery, and in intermittent diseases as a substitute for quinine.

Oil of copaiba, another ingredient of Peruna, is classed by the United States Dispensatory as a mild stimulant and diuretic. It acts on the stomach and intestinal tract. It acts as a stimulant on the genito-urinary membranes. Useful in chronic cystitis, chronic dysentery and diarrhea, and some chronic diseases of the liver and kidneys.

Send to us for a free book of testimonials of what the people think of Peruna as a catarrh remody. The best evidence is the testimony of those who have tried it.
