Range beeves, in spite of the fact that receipts have been so large, have sold freely all the week, but at decidedly lower prices. The best grades, such as both packers and feeder buyers would bid on, are generally quoted about 25c lower than last week, but outside of that the market is generally soughed lower. Heavy-horned cattle, too rough for feeders and not overly desirable for killers, have suffered the most decline, being a good big 50c lower for the week.

erally quoted about 25c lower than last week, but outside of that the market is generally 40000c lower. Heavy-horned cattle, too rough for feeders and not overly desirable for killers, have suffered the most decline, being a good big 50c lower for the week.

1. Cows and helfers have been in very liberal receipt all the week and have in consequence felt the full force of the decline. While some of the more desirable kinds are possibly not over 30c lower, a good share of the she stock could safely be quoted 40050c lower than last week's close. While the trade was rather dull during the week, owing largely to the fact that there were so many cattle on sale and a good deal of time was necessarily consumed in getting ready to show the cattle, still receipts were good sellers all the week and a the close are not to exceed 15625c lower than last week's now than last week's now than last week's now than last week's now than last week and a good deal of time was necessarily consumed in getting ready to show the cattle, still receipts were good sellers all the week and at the close are not to exceed 15625c lower than last week. On the other hand the general run to medium grades and all kinds of trashy sturf, are around 40250c lower. NEW YORK, Sept. 19.—Closing quotations on mining stocks were as follows:
Alies \$2,004.293.41 \$ SHEEP-There were no fresh receipts

ticeable from day to day. On the other hand, fat sheep eased off and at the close of the week are quotable 10915c lower than last week. The fact that fat sheep have declined while feeders have remained about steady leaves the two selling in very nearly the same notches.

Taking everything into account, the market this week has been very satisfactory from a seller's standpoint.

After circling about for a minute ever the balloon grounds, Sergeant Ward headed the craft towards Lake Contrary. At this time the gas bag was only at an elevation of about 100 feet. It gradually ascended. however, until it reached a height of about 200 feet. The strong wind caused the skyboat to drift south and by the time it reached Lake Contrary !! was over the extreme south end of that body of water. Sergeant Ward then turned the craft so that it followed the bank of the lake. This the boat did, remaining about 200 feet in
