NATURE AND A WOMAN'S WORK

Lydia E. Pinkham and a woman's work combined have produced the grandest remedy for woman's ills that the world has ever known.

In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering.

The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffled the most skilled physicians who have spent years in the study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.

Mrs. Bertha Muff, of 515 N.C. St., Louisiana, Mo., writes: "Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my troubles public."

For twelve years I had been suffering with the worst form of female ills. During that time I had eleven different physicians without help.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Muff, it will do for other suffering women.
