Don't Try HAYDEN'S First It Pays

ALL DELEGATES ARE FETED

(Continued from Page One.)

the future you will realize that there are other cities aside from your own, though you will always remain loyal to your home town and steadfast in the belief that the ball which in which you live is the garden spot in the world."

Today's session of the convention will begin at 9 o'clock, the afternoon session to be crowded into the morning meeting, the convention to adjourn at 1 o'clock. At 3 o'clock the delegates will board the street cars for Fort Omaha, where the Second Cavalry from Fort Des Moines will give a special drill for their entertainment.

Much work will have to be done through with at this morning's session of the convention. The treatment of "Municipal Government by Commission" was not completed yesterday and this will come up again the first thing in the morning.

The election of officers for the ensuing year and the selection of the city for the 1909 convention will also be this morning. This morning's meeting will be the last session of the convention and the delegates will leave tonight and tomorrow for their homes.

Home Rule and Commission. "Home Rule for Cities" and "Municipal Government by Commission" were the topics discussed by the delegates attending the convention on Thursday.

Only One Such Address. One address was delivered on the subject of "Municipal Government by Commission."

Commissioner Huston was alderman for four years and then mayor for four years of Cedar Rapids, under the old regime and has been a commissioner since the establishment of the plan in his city last March.

Indifference the Cause. Stating that he believed poor government was due to the indifference of the public and its failure to attend the primaries and to vote with judgment, Mayor Lawrence said:

"I would not eliminate politics from city life. Every man who votes should have some kind of political bearing and should be man enough to exercise the right of suffrage on every occasion when opportunity presents itself."

Home Rule Campaign. Before adjournment Mayor Rhet of Charleston, S. C., chairman of the committee, presented the following resolutions, which were adopted by unanimous vote of the convention:

Resolved, That a committee of ten be appointed to study the question of forming and projecting an organized campaign for the desirable end-home rule in municipalities.

Resolved, That all municipalities, however small, be extended a cordial invitation to join in the movement.

Resolved, That the fifteenth convention shall be held in the city of Chicago during the month of September in the year 1911, and be still further:

Resolved, That in connection with the said convention a "municipal exposition" shall be conducted by the information bureau of American municipalities, similar to the plans set forth by the said bureau; and shall be still further:

Resolved, That a cordial invitation shall be extended to all municipal organizations, to municipal improvement and good government, throughout the United States and Canada, to convene in the city of Chicago during the said month of September, 1911, and to otherwise co-operate to the end that the proposed "Municipal exposition" will also be a "congress of organization."

Whereas, There are many commodities used by the cities of the United States and Canada in which standardized values do not seem to prevail and in which allowances are made to be unfortunately made for exploiting and introducing which result in incidental expense which ought not to be required, therefore be it

Resolved, That the league recognizes the need for requiring such commodities to be standardized in price so that all cities may have the benefit of the lowest prices and may be enabled by making proper freight allowances to at once determine the proper prices to pay for any such commodity.

Resolved, That the secretary be and hereby directed to maintain in connection with the league a clearing house for such commodities as paving brick, asphalt and other material, sewer and water pipe, fire and hose appliances, sprinkling, road-making appliances, and other articles in ordinary municipal use, to which the various cities can report their purchases and from which they can derive required information.

Delegates View Plant. Before the convention opened City Engineer Rosewater took about thirty delegates to the sewage disposal plant at Forty-sixth and Harney streets and explained to them the method of consuming sewage by means of septic tanks.

Those who visited the sewage disposal plant were the delegates from St. Paul, Kansas City, Mo.; Gary, Ind., and from a number of the smaller cities in New York.

WOMEN VISIT LININGER GALLERY. Wives of Delegates Enthusiastic Over Art Display.

Fewer women came with their husbands to the convention than was expected and the work of the Omaha matrons on the reception committee for women has not been as exacting as that of the men similarly engaged.

Prominent among the visitors are Mesdames Gay and Levesque, wives of two of the Montreal delegates of French Canadian. Both are handsome women and regarded as attractively as might have been expected of people of Gallic birth.

At the same time some of the men from Montreal were the guests of Vice Pres-

dent William Wallace of the Omaha National bank in an automobile trip to the smelter, M. L. A. Lapointe, chairman of the aldermanic committee of finance, and Alderman V. Levesque, Mayor Oliver of Toronto and Alderman Hecken of the same city were Mr. Wallace's guests.

The committee of local women assigned to entertain visitors and their sex included Mesdames J. W. Bedford, M. F. Funkhouser, George F. West, E. F. Thomas, James C. Dahlgren, Burnam and Austin Collett. It was announced by Mrs. E. L. Hatler that the Lininger galleries would also be open to the men-delegates to the convention and that access could be had all day.

The leading men on the large Montreal delegation—there are fifteen of them—are Acting Mayor N. Leclair and Alderman N. A. Lapointe, who is chairman of the committee on finance. The latter is a big man physically as well as mentally, and while full of enthusiasm for the native city, does not display any "Gallic effervescence."

"I hardly think that people in the states fully realize the size and commercial importance of Montreal," said he. "It is the metropolis of Canada, you know, and the second biggest seaport in America. Furthermore the shipping interests are growing with tremendous rapidity."

"Montreal has a population of 600,000 within the city limits," declared Alderman Levesque, who is one of the few delegates who brought his better half with him. "But the suburbs immediately adjacent contain fully 200,000 more."

"It is chiefly different from Omaha in the relative size of territory covered. We are much more cramped, partly because the city is on an island. But here it is much better. I like to see the green grass around the houses and the streets are broader, too."

Like nearly all his party, Mr. Levesque speaks excellent English, and in linguistic accomplishments could shame the average alderman in this country. The Montreal men want the next convention of the league, but are so reasonable a lot that they will not suik if over-voted. The fact that, while the league is continental in scope and as yet no convention has been held without the confines of the United States, is proving a powerful argument in their behalf.

In dress the Canadians do not differ notably from their more southern colleagues.

Postal authorities wish that the attention of delegates be called to the fact that the postage necessary for Ak-Sar-Ben cover programs is 3 cents. A large number lacking in amount have already been placed in mail boxes.

Delegates to the convention of the League of American Municipalities will occupy seats on the stage at the Auditorium this evening when Mr. Taft makes his speech.

On the arrival of the Taft special at Union station Charles Martin will take a moving picture of the reception committee and Mr. Taft alighting from the train. This picture is to be used at the National Corn exposition which will be held at Omaha in December.

Mayor W. G. Sears of Sioux City is a belated visitor. He arrived Thursday morning and attended the session at the city hall. He did not go on the cut-off trip in the afternoon, but spent the time discussing municipal affairs and democratic politics with Mayor Dahlgren.

Mayor Sears is once more running for congress in the Eleventh Iowa district.

MACVICAR HAS BIG OPPOSITION. Secretary for Nine Years is Opposed by HUGO GROSSER.

No opposition to the candidacy of Silas Cook, mayor of East St. Louis, Ill., for the office of president of the league has as yet been manifested, but John MacVicar of Des Moines, candidate for re-election to the office of secretary and treasurer, has opposition in the person of Hugo Grosser of Chicago, director of the Institute of Statistics and Research.

Mr. MacVicar has held the office for nine years, but Mr. Grosser is waging a strenuous campaign and is understood to have secured a number of pledges of support.

St. Paul has withdrawn as a candidate for convention honors and a member of the delegation from the convention go to Thursday morning that its twenty-five delegates will vote for Kansas City, a new candidate for the convention in 1909. Duluth is one of the leading candidates, but its sister city is not with it in the campaign.

Mayor Rhet of Charleston, S. C., says he would like to see the convention go to Montreal, Canada, but the Canadians seem to be weakening in their efforts to land the meeting. Montreal sent twenty-one delegates to the Omaha convention.

Mayor Rhet and the other two delegates from the southern city are all Eiks. The mayor seems to be that when he made his appointment of delegates to the convention that the only two members of his logic who sit upon the council were selected.

The other two delegates from Charleston are W. D. Clarke and F. J. McCarty. They, together with the Baltimore delegates, visited the smelter Thursday morning and are enthusiastic in their praises of the big industry.

dent William Wallace of the Omaha National bank in an automobile trip to the smelter, M. L. A. Lapointe, chairman of the aldermanic committee of finance, and Alderman V. Levesque, Mayor Oliver of Toronto and Alderman Hecken of the same city were Mr. Wallace's guests.

CORRECT DRESS FOR MEN AND BOYS

OUT-OF-TOWN AND HOME PATRONS

A MAN'S SUIT WANTS

"I Want Style" "I Want Service"

And you're right. It is style in clothes that shows the difference between the prince and the peasant.

All the striking new features are here, as well as the more conservative cuts—every one in exact the right fashionable lines—but best of all this style and shapeliness is tailored into each garment, it will have that stylish appearance until it is worn out.
