Sweden and Banks. KEARNEY, Neb., Oct. 8.—To the Editor of The Bee: The World-Herald still maintains that it was correct when it claimed that the Swedes in America send money to Swedish banks for safe keeping. To prove this it quotes from the postmaster general's report, that during the fiscal year ending June 30, 1907, over \$2,000,000 was sent to Europe in postal money orders.

Not Used to the Ways. RED OAK, Ia., Oct. 8.—To the Editor of The Bee: I see in your paper for October 6, a special telegram from O'Neill, Neb., in reference to the registration now going on. The reporter writes as follows: "O'Neill is spreading herself for the victors and winning their commendation. Ample provision has been made to care for those who arrive and the best of order prevails."

Announcements of the Theaters. Today is matinee day at the Burwood, where "The Devil" is holding forth to enormous attendance—attendance so great that it has been found necessary to prolong the engagement for another week. Inevitably theater-goers candidly admit that no dramatic offering has ever stirred up the entire city as has this self-same Devil. The masterly way in which the Burwood Stock company is handling this wonderful play has created a degree of confidence which will result in still greater audiences when "The Girl of the Golden West" is produced week after next.

PIANOS RENTED. One hundred beautiful pianos must be rented at once. Special terms—order now. \$3.00 A MONTH. Brings a beautiful instrument to your home. Free moving and tuning if rented for 6 months. Rent allowed if purchased. Schmoller & Mueller Piano Co., 1311-13 Farnam Street.

If the World-Herald man does not see the folly of a citizen of this country keeping his money in Europe for safe keeping he is deficient in something. Perhaps it is in a sense of humor. N. H. JOHNSON.

As one who was there I feel sorry indeed for the reporter's conception of "ample provision" and "best of order." Were it not that people are misled by such reports as that I should keep silent, but common honesty between man and man demands that the searchlight of truth be thrown on such statements.

There comes to this country every year many laborers from southern Europe, who do not come with the intention of becoming citizens; many Greeks and Italians. These remain here long enough to earn what they regard as a small competency, then the vine-clad hills and sunny climate of their historic fatherland calls them back. Their seldom acquire much knowledge of our language or institutions. They are foreigners when they come and foreigners when they leave. It is those who buy postal money orders payable in their own name or in the name of a wife or dependent in the old country (they seem to have no more confidence in their own banks than they have in ours), and it is these people that account for the large postal money order business.

Another witness of the forenoon was H. L. Coxey of Mount Vernon, O., a former resident of Chicago, who was one of the members of the Chicago Ranch company and who had made one of the \$50 class of filings.

Thomas F. Allen, a land locator and real estate man of Crawford, testified to having contracted with Baird, King, Coleman and others relative to locating the entrymen on the land and that he subsequently engineered a deal whereby the Chicago ranch people were enabled to make filings on what was then known as the Cooper tract, with its improvements, in Dawes county and secured the relinquishment for that tract for \$1,200, which was paid to him by Coleman in October, 1904.
