J. L. BRANDEIS "BOSTON STORE" & SONS OMAHA

NEXT MONDAY OCT. 19TH Brandeis Will Hold a Wonderful Sale Lace Curtains

It is owing to the fact that we so often secure our most extraordinary bargains outside the regular commercial channels that we are able to startle the business world with such amazing sales.

In this instance we secured an immense new stock of lace curtains from a storage warehouse company. The stock had been stored by an eastern drapery firm which discontinued business and the stock had to be sold to pay the storage charges. Brandeis bought the entire stock at a bargain that almost passes belief.

When You See Our Great Window Displays of Lace Curtains You Will Marvel How any Store Could Sell Such Fine Goods so Cheaply

All the Lace Curtains on sale Monday, October 19th.
All the Bobbinet on sale Tuesday, October 20th.

HOME FOR COMMERCIAL CLUB

Purchase of Old United States National Bank Building is Under Consideration.
The Commercial club again has under consideration the securing of a building for permanent new headquarters and Monday afternoon a committee headed by E. A. Benson visited the old United States National Bank building at Twelfth and Farnam streets with a view to looking over the property.
The building, which is in excellent condition and stands on a valuable piece of ground, can be secured by the club at from \$100,000 to \$125,000. It is built of gray granite and is one of the substantial buildings in the business section of Omaha.
At present the Chicago & Northwestern line has the general offices of the lines west of the Missouri river located in the

building and would probably remain as a tenant of the Commercial club. Other parts of the building are leased to good tenants and members of the club who know of the proposition are enthusiastic over securing the building.
The proposition is to issue bonds sufficient to cover the purchase price, and it is believed there would be no difficulty in placing 100 or 125 bonds of \$1,000 each, which would undoubtedly bear interest. The present quarters of the club are on the fifth floor of the Board of Trade building at Sixteenth and Farnam streets. The rooms are quite unsatisfactory. The company which owns the building makes no attempt to provide elevator service and frequently members of the club wait what seems an unreasonably long time for the elevator which hauls freight, and must serve all tenants of the building, making it annoying to get to the fifth floor or call the elevator to the club room.
In the building which the club is looking over the elevators are better and it is possible to have an elevator for the use of the club if the rooms are located on one of the floors above the second story.
The proposition to secure new quarters was up just a year ago, but the financial flurry and some opposition and misunderstanding as to whether the club should move north or south, prevented any move being made. But the proposition of new quarters has never been entirely dismissed, according to a member of the house committee.

A Cruel Mistake
is to neglect a cold or cough. Dr. King's New Discovery cures them and prevents consumption. 50c and \$1.00. For sale by Beston Drug Co.

Demonstration—Wiazrd Carpet Cleaner IN BASEMENT—GET A FREE SAMPLE

The Stoetzel Stove Co.

714 South Sixteenth Street
We sell the best stoves sold in Omaha and we can prove it by 10,000 families who are using ours and have tried others. We sell on small monthly payments or a cut price for cash.

The Solar double heater Base Burner was awarded highest prize at the Omaha exposition on three points. Strength of double heater, starting quick and construction. People who are using it and have used others and compared it with others say that it does give more heat with the same fuel and start quicker in the morning than others.

Thousands of soft coal stoves have been invented and not one is on the market today only those that some fakir is trying to fool the people with. The only soft coal stove that has proven a success is the first class oak. Now that we have met the soft coal stove problem is solved. The Solar makes a clean fire with the cheapest and dirtiest soft coal and keeps fire forty-eight hours. Mr. McKenzie, who bought one last season says: "When I bought my Solar, I thought you were stretching things when you told me what it would do. You exaggerated nothing; it does all you said it would and more, too. If people who are going to buy soft coal stoves will find out what the Solar will do that is the stove they will buy."

Mr. Haskins, 2211 North 27th Ave., says: "We heated six rooms last winter with two and one-half tons of coal. It started in twenty minutes in the morning. We know that no other Base Burner would have done the same work with so little coal."

Have You a Friend
Who's birthday comes this month. If so an opal—the birthstone for October—would be acceptable. We have them loose and mounted in a variety of grades and styles. Look for the name **S. W. LINDSAY, Jeweler** 1616 DOUGLAS STREET
