WOMAN HURT IN RUNAWAY. Horse Driven by Mrs. Schultz Frightened by Automobile. Mrs. August H. Schultz, 908 Eighth avenue, was painfully, although not seriously, injured yesterday afternoon in a runaway accident caused by the horse she was driving being frightened by a passing automobile. Mrs. Schultz and her husband were driving in a buggy near the school for the deaf when their horse became frightened at an automobile belonging to a man named Sny of Persia, Ia. The horse became unmanageable and started off on a gallop. It had proceeded but a short distance before it ran the buggy into a bank, overturning it. Mrs. Schultz, who was dragged some distance before she became disentangled from the overturned vehicle, suffered a dislocation of her shoulder and her face was cut and bruised. Mr. Schultz escaped with a few more or less painful bruises.

Jansen was charged with enticing the 15-year-old daughter of Anderson away from her home in Omaha and bringing her to Council Bluffs Saturday evening. The girl was in Jansen's company when the latter was arrested about 8 o'clock yesterday morning on Broadway. The girl was turned over to her father, who took her back to Omaha, while Jansen, after being booked at police headquarters as a fugitive from justice, was turned over to an officer from Omaha and taken across the river.

Jansen's home is in Clinton, but he has been an extra fireman here for some time past. He is said to have brought the girl across the river Saturday evening on the switch engine on which he was firing.

HEALS SORES AND ULCERS. Sores and Ulcers are indications of impure blood. They show that the circulation has become infected with germs and poisons, which are being constantly discharged into the open place to irritate the delicate nerves, tissues and surrounding flesh and keep the sore in a state of inflammation and disease. Whether these impurities in the blood are the result of some debilitating sickness, an old taint from a former disease, or whether it is hereditary bad blood, there is but one way to cure sores and ulcers, and that is to purify the blood. Washes, salves, lotions, etc., are often beneficial because their cleansing, antiseptic effects, but nothing applied to the surface can reach the blood where the real cause is, and therefore cannot cure. S. S. S. is the remedy for sores and ulcers of every kind. It gets down to the very bottom of the trouble and removes every trace of impurity or poison, and makes a lasting cure. S. S. S. changes the quality of the circulation, so that instead of feeding the diseased parts with impurities, it nourishes and heals the irritated, inflamed flesh, causes the liver to fill with healthy tissue by supplying it with pure, rich blood. Book on Sores and Ulcers and any medical advice desired sent free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

NO BUMPER CROP FOR IOWA

Corn This Year Will Not Equal Yield of Two Years Ago. WEATHER CONDITIONS NOT BEST. State's Fight Against Tuberculosis Declared to Be Along Most Modern Lines of Experts' Theories. (From a Staff Correspondent.) DES MOINES, Ia., Oct. 12.—(Special.)—Corn, the great staple crop of Iowa, is already beginning to crowd election news in the interests of the people, and Iowa desires to rank as the greatest corn state in the union. The reports from the various agencies are beginning to come in. The secretary of the association, George Wells, declared that it is not going to be a bumper crop, however. There has been much talk during the summer and early fall of a bumper crop. People who talk so are ill advised. There may be counties in the state where the crop will be a bumper crop, but taking the state as a whole, it is not a bumper crop. The crop is not a bumper crop any crop that Iowa turns out is a big crop and is therefore correspondingly important and the crop this year is probably worth more in dollars and cents than that of last year for the reason that the price this year is 75 cents a bushel, whereas it was only 60 cents in May when it should have been planted. Farmers who got their corn planted on the regulation day, May 10, are probably preparing to harvest a good big crop. But with the bulk of the farmers it was later than that time and with many of them it is not until the first of June that the corn is planted, which takes to October 10 if planted on May 10. But this year the bulk of the crop was not planted till after May 10 and then frost came in before October 10 and cut the crop short at that end. The time was therefore suffered.

WATERLOO OFFICER IS SHOT. Patrolman Wideman Probably Fatally Injured by Burglar. WATERLOO, Ia., Oct. 12.—(Special Telegram.)—While making the regular city patrol this morning at 3 o'clock, Policeman Fred Wideman was shot by an unknown assailant, who fired two shots from behind a box where he was concealed. Both bullets lodged in the stomach of the officer, who was taken to Lafayette street, where his wounds attracted the attention of other officers. While reaching for his revolver two more shots were fired, one striking his right hand. Severe internal hemorrhages marked the condition of the man critically. Proof was found of an attempt to rob Coburn's bicycle store near the scene of the assault. Before daylight seven men had been arrested in the city, but as yet there is no clue to the coward who made the dastardly attack.

Corn Planted Late. In the first place this year the farmers were late in planting their corn because of the late start of the season. It is now May when they should have planted it. Farmers who got their corn planted on the regulation day, May 10, are probably preparing to harvest a good big crop. But with the bulk of the farmers it was later than that time and with many of them it is not until the first of June that the corn is planted, which takes to October 10 if planted on May 10. But this year the bulk of the crop was not planted till after May 10 and then frost came in before October 10 and cut the crop short at that end. The time was therefore suffered.

MAN SHOT BY POLICEMAN DEAD. Bert Betzer, Said to Be from Omaha, Dies in Sioux City. SIOUX CITY, Ia., Oct. 12.—(Special Telegram.)—Bert Betzer of Omaha died at the Samaritan hospital this morning after having been shot in the head by Policeman Shoemaker last Sunday night. Six weeks ago Betzer and Amy Larson came here from Omaha. Last Sunday Betzer was arrested for beating the woman at her room at 215 Sixth street. While being taken to jail he tried to make his escape and the policeman shot him in the head. He lay unconscious up to the time of his death. Betzer was a plasterer. The woman is said to have left the city.

YOKOHAMA BLAZE OF COLOR. Japanese Are Preparing to Give Royal Welcome to American Battleships. YOKOHAMA, Oct. 12.—Preparations for the reception of the Atlantic battleship fleet are assuming tremendous proportions. The popular demonstration of eagerness to participate in the ceremonies is the greatest thing of the kind ever witnessed in Japan. Yokohama is a blaze of color this morning with American and Japanese flags flying from every building in honor of the delegation of the Pacific coast business men who arrived at 7 o'clock on the liner Tenyo Maru from San Francisco. The visitors were greeted at the dock by a crowd which numbered hundreds of representative business men of Japan, assembled from the cities of Yokohama and Osaka. The completely prepared program of entertainment for the Americans commenced as soon as they stepped ashore and every day of their stay in Japan will be completely filled with receptions and sightseeing trips arranged by their Japanese hosts. On Thursday the Americans will be the guests of Count Komura, minister of foreign affairs, at a luncheon given in honor of the visitors. The Tenyo Maru had an exciting trip across the Pacific.

Chicago Worse Than London. Analysis of City Air Shows that it Contains Three Times More Dust and Soot. CHICAGO, Oct. 12.—The health department in a report issued tonight states that the dust and soot in the atmosphere of Chicago, as shown by tests just taken, is three times as great as that in the atmosphere of London. Samples of the air taken at a height of forty feet above the street level at four points of the city were subjected to analysis. The report says: "The dust and soot is partly attributed to the increased density of the air. The dust had not been washed out of the air for some time previous to the collection of the specimens."

WOMEN TO MEET IN BUFFALO. British Suffragette Says Her American Sisters Are Entirely Too Timid. BUFFALO, N. Y., Oct. 12.—Added interest has been given to the fortieth annual convention of the National Woman's Suffrage union, which will open here on Thursday, by the action of Mrs. Annie Cobden Sanderson, the militant English leader of the suffrage movement, who has taken occasion to extend her criticism of the "idle rich" to the women of this country in a letter which will be read at the convention. Mrs. Sanderson says in her letter: "The idle rich women of your country represent the power of the nation and it is only just as the women led by Mrs. Humphrey Ward in England, who have formed themselves into an aristocratic suffrage league represent the spirit of emulation combined with modern imperialism, the two most retrograde elements in English politics today."

General Dodge Reaches Home. He Says Taft is Sure to Carry New York. General Grenville M. Dodge arrived Saturday from New York, and will remain at his home in this city for the winter. General Dodge is of the opinion that Judge Taft will carry New York. "Judge Taft will carry New York I believe," said General Dodge. "Not there are so many different elements entering into the gubernatorial campaign that it is impossible to be as sure of carrying the state for Hughes. Many of the people who are opposed to Hughes for governor will vote for Taft for president."

Improvement Club to Meet. It is announced by L. L. Poston, president of the Federation of Improvement clubs of this city, will be the principal speakers at the annual meeting to be held Tuesday at the city hall, at which the campaign in favor of the issuance of \$300,000 bonds for the city is to be discussed.

Brooklyn Policemen Overpower Inmate After Escaping 535 Feet Above River. NEW YORK, Oct. 12.—At the top of the great iron tower at the Brooklyn end of the Williamsburg bridge a thrilling struggle took place today while hundreds of persons looked on from below. An insane man, who had climbed the tower watchman, climbed an iron staircase to the top of the tower, 535 feet above the East river, and was preparing for a leap into the river, when two policemen climbed up after him. The appearance of the policemen distracted the man from his purpose and he turned upon the bluecoats with a razor. The insane man rushed to attack them and then on the narrow foot of the dizzy height a ten minutes' battle took place. Back and forth the trio struggled, now on the verge of toppling to destruction and then tottering back to the center of the small platform. To those who gazed aloft it seemed hours instead of minutes before the man was overpowered. At the hospital the prisoner gave his name as Joseph Kratz of Brooklyn. He was placed in a padded cell.

Republican League Clubs. OMAHA, Neb., Oct. 12.—The editor of The Bee wishes to correct some of the statements occurring in an article in today's issue of The Bee, concerning the aims and purposes of the National League of Republican clubs. It was made to appear as though the principal object of our league was to build up a republican organization throughout the country and utilize Judge Taft's popularity to accomplish this purpose. This is erroneous as the sole present object of the work of the league and its members is to promote the election of the republican candidates. We believe this can best be done by organization as through republican clubs we can get the issues more clearly before the individual voters. It is, however, our hope to make these clubs permanent and we believe that they can be made a power throughout the country in promoting republican principles and the success of the republican party.

Awa Right on Tuberculosis. A. E. Keppford, state agent of the Board of Control in the campaign for the eradication of tuberculosis, has returned from attending the international congress on tuberculosis at Washington and has reported to the board that the conclusions arrived at by the congress are confirmatory of the plans and methods now in use in Iowa. In other words after many days of discussion among the scientists of the world no conclusions were reached that in any way conflict with the lines on which our work is already being done in this state.

WIRELESS TELEGRAPH RECORD. Messages Exchanged from San Francisco to Hawaii for Two Hours. SAN FRANCISCO, Oct. 12.—A new record in wireless telegraphy is claimed by the United Wireless Telegraph company which, from its station on Russian Hill in this city, established communication with the Kuluahu station on the island of Oahu, one of the Hawaiian group. The station at Kuluahu was caught at 1:30 o'clock this morning and messages were exchanged until 4 a. m. It is claimed that communication between these hours was uninterrupted. The distance to Honolulu is 2,500 miles.
