

THE OMAHA DAILY BEE.

FOUNDED BY EDWARD ROSEWATER

VICTOR ROSEWATER, EDITOR.

Entered at Omaha postoffice as second-class matter.

TERMS OF SUBSCRIPTION: Daily Bee (without Sunday), one year, \$4.00; Daily Bee and Sunday, one year, \$5.00.

DELIVERED BY CARRIER: Daily Bee (including Sunday), per week, 10c; Daily Bee (without Sunday), per week, 8c; Evening Bee (without Sunday), per week, 10c; Sunday Bee, one year, \$1.00.

REMITTANCES: Remit by draft, express or postal order payable to The Bee Publishing Company.

STATEMENT OF CIRCULATION: State of Nebraska, Douglas County, ss.: George B. Tschuck, treasurer of The Bee Publishing Company, being duly sworn, says that the actual number of full and complete copies of The Daily, Morning, Evening and Sunday Bee printed during the month of September, 1908, was as follows:

Table with 3 columns: Number, Circulation, Total. Rows include various circulation figures for different editions and a total of 1,098,390.

Net total, 1,098,390. Daily average, 36,238.

Subscribed in my presence and sworn to before me this 1st day of October, 1908. (Seal.) ROBERT HUNTER, Notary Public.

WHEN OUT OF TOWN: Subscribers leaving the city temporarily should have The Bee mailed to them. Address will be changed as often as requested.

When it comes to Indian summer the Nebraska brand cannot be beat.

All of the European powers are apparently trying to become Turkey gobblers.

Notwithstanding his new constitution the sultan of Turkey is still "The Sick Man of Europe."

The coal man and the plumber will soon be letting the people know whether they rule or not.

No explanation is offered of Central America's failure to bring out the usual October war scare.

It might pay some junk man to make a trip through the Balkans and gather up those discarded yokes.

Anyway, the Standard Oil company has not been accused of owning or controlling any of the base ball teams.

It is recalled that Governor Haskell was really Mr. Bryan's first choice for the vice presidential nomination at Denver.

"Bryanism is a religion," says a writer in the London Times. Possibly, but the record does not show that anyone has been saved by it.

New York financiers are now predicting that money will soon be a drug on the market. If that is true, look for a marked increase in the drug habit.

England is insisting that the integrity of Turkey must be preserved. The general impression prevails that Turkey hasn't enough integrity to worry about.

The Transmississippi Commercial congress voted down a resolution favoring the parcels post. The members doubtless have express reasons for the action.

A dispatch from Muskogee, Okl., reports the mysterious disappearance of one of the secret codes of the Standard Oil company. Has Mr. Hearst been in Oklahoma recently?

The recent Ak-Sar-Ben carnival has given Omaha an immense amount of favorable advertising. To get full results there should be a follow-up system and no let-down.

Crete threw off the Turkish yoke and asked to be annexed to Greece, but Greece rejected the proposition. Crete now knows how it feels to be run down between third base and the home plate.

Hong Kong sends a report to the effect that the United States, Great Britain and China are planning a triple alliance. Hong Kong has peculiar facilities for learning things that ain't so.

The International Road congress, in session at Paris, is trying to find some method of making an automobile-proof road, experience having shown that the rubber tires are harder on macadam than steel or iron tires. The problem is one of vast importance to all countries.

"The Best Time to Do Fall Plowing" is the title of a learned editorial in Colonel Waterston's paper. Many arguments are advanced to support the contention that the best time to do fall plowing is in the fall. Colonel Waterston is remarkably convincing when he discusses nonpolitical subjects.

THE YEAR'S CROPS.

The October crop report by the Department of Agriculture gives practically the harvest figure of the corn crop and fixes to a reasonable certainty the estimate of the wheat crop, on which the department made several varying reports during the summer.

The final estimate of the wheat crop is placed at 559,000,000 bushels, a decrease of 30,000,000 bushels from the June estimate. The final yield is some 30,000,000 bushels larger than last year's record, but is still far below the crop of 1906 and is less by from 10,000,000 to 35,000,000 bushels than the crops of three years since 1900.

With the yield pretty accurately determined it is an easy matter to figure the farm value of these cereals, the result showing that the farmers will make more money with their crops this year than ever before. This is assured by the condition of the European grain crops.

NEW TRANSPORTATION SECURITIES. James J. Hill stated some time ago that the transportation interests of the country would require at least \$1,000,000,000 a year in improvements and extensions for the next ten years to care for the increasing business, and Mr. Yoakum of the Rock Island more recently placed the estimate of needs in that direction at \$600,000,000 a year.

When he declared that no project should be undertaken and no plan approved until it had been carefully considered, the cost weighed and the feasibility and usefulness of the project fully demonstrated.

REASSURING FIGURES. Some statistics furnished in a recent bulletin issued by the comptroller of the currency throw an interesting light upon the effect of the panic on savings bank depositors.

USEFUL OR ORNAMENTAL. The people of Omaha and the Second Nebraska district are again called upon to say whether they want a congressman to represent them at Washington who will be really useful or solely ornamental.

DELAY AND DENIAL OF JUSTICE. In his Chicago Chamber of Commerce speech Mr. Taft said that the delays in the administration of justice and the inequality between the poor and the rich need reform more than any other existing wrong.

FINANCING DEEP WATERWAYS. The striking difference between Mr. Taft and Mr. Bryan in their mental grasp of great problems and their ability to outline plans for immediate and future action in dealing with large undertakings was strikingly illustrated at the meeting of the Lakes to the Gulf Waterways association in Chicago recently.

ROUND ABOUT NEW YORK.

Ripples on the Current of Life in the Metropolis. "Unprecedented" is the only word that pictures the depression in political betting circles in New York City, where once upon a time, and not very long ago, betting on election results was as open and active as dealings on 'change, now there is nothing doing day or night in the former way.

THE SUPREME COURT HAS HELD THAT the nomination for coroner in Douglas county belongs legally to the candidate who had the highest vote on the face of the returns.

WHILE MR. BRYAN IS TALKING publically of campaign contributions, why not make an accounting of that \$15,000 of Ryan money handed over to Brother-in-Law Tom Allen in 1904 just as an evidence of good faith?

OF COURSE, the democrats do not concede that Nebraska is in the slightest degree doubtful. Mr. Bryan is devoting three days of his time and oratorical talents to his home state simply to keep in exercise.

MR. BRYAN HAD TO PUT IN a special word for the "cheek-book" candidate in the Third Nebraska district. The check that went to pay for those extra subscriptions to the Commoner is remembered.

THE LAUGH LAST. Fat, comfortably fed army officers are now undergoing the walking test and are getting the horse laugh from the thin men.

PLACE IN HISTORY SECURE. In history this political campaign stands a chance of being identified by the fact that it took place in the great base ball year.

DEBS SPRINGS HIS GUESS. Incidentally, candidate Debs lets it be known that he will poll 2,000,000 votes. He may be right, but at that rate it is going to be difficult to have enough votes to go round.

FIT FOR EITHER PLACE. It looks as though Secretary Root was pretty sure of distinguished political recognition if he desired it. As senator, he would stand for some of the deficiencies of New York in the past; or as justice of the supreme court he would help to maintain the best standards of that body.

GOOD FOR A FEW MORE. John Temple Graves says that the Bryan party will "go to pieces" after election. Why in 1908 any more than in 1900 and 1906? So long as the Bryan party centers in W. J. Bryan, and that individual continues hale and vociferous, what reason is there against the democratic candidate being provided for the next four or five campaigns?

DOING QUITE WELL, CONSIDERING. It is doubtful if Victor Hugo and Dumas had combined their imaginations whether they could have produced a more sensational incident than the struggle between a madman and two policemen on the span of the Williamsburgh bridge 22 feet above the surface of the East river.

MAN TO TIE TO. Mr. Hughes, as a candidate for re-election as chief executive of the state of New York, is threatened with defeat by powerful interests because of certain commendable things which he has done in office. He meets the attack with characteristic frankness. In a public address the other day he said:

THE MEN MOTORISTS HAVEN'T any monopoly on cold nerve when they scoot through the city streets. The other day a pretty young girl, in a gray motoring costume that matched the gray body of her racing car, came to a halt right across the Thirtieth street Cross-Town car tracks at Madison avenue.

AN ISSUE OF VITAL IMPORTANCE TOO MUCH NEGLECTED. In his Chicago Chamber of Commerce speech Mr. Taft said that the delays in the administration of justice and the inequality between the poor and the rich need reform more than any other existing wrong.

Don't wash and scrub, bend and rub over a hot wash tub; sift a little GOLD DUST in the water, loosen the dirt, and save rubbing

Soap is not a bit of cleansing good until it is mixed with water and made into suds. And then it still needs the rub-rub-rub of human muscle.

GOLD DUST works in an entirely different way—instantly and totally dissolves in hot or cold, hard or soft water—and, without any aid from you, starts to cleanse.

GOLD DUST is more than soap—better and more economical. It is a powder of magic power—but rightly directed power, that leaves the wash white, sweet, wholesome.

Use your brains, not your muscle!

Throw away your soap, get GOLD DUST, and simply use it according to the directions on the package.

"Let the GOLD DUST Twins do your work."

Made by THE N. K. FAIRBANK COMPANY Makers of FAIRY SOAP, the oval cake.

SAID IN PEN.

Mrs. Upson—Is your dentist one of the "palinists" kind? Mrs. Oylwell—Not at all. He's so sympathetic he says it hurts him just as much as it does me.—Chicago Tribune.

"Have you ever visited Sorrento?" asked Mrs. Orlowitz. "No," replied her hostess, as she tossed her \$30.00 (lira) upon the infant center table. "The Sorrento is a most paltry reader."—Chicago Record-Herald.

"Biggins enjoys telling people something disagreeable." "Yes. He would make an ideal weather prophet."—St. Louis Republic.

"So you don't approve of the strikers?" "I won't say that," answered Mr. Slogo. "But I must admit I can't quite see the need of their strikes, railways and automobiles already afford such extensive opportunities for risking life."—Washington Star.

"How's yer husband after the accident, Mrs. Orlowitz?" "Faith, sometimes he's better an' sometimes he's worse, but from the way he wears an' when he's better an' when he's worse."—Puck.

"Oh, doctor, do you think my baby's lungs are sound?" "Madam, I think I hear of your baby this moment. I think his lungs are all sound."—Baltimore American.

"I fancy our family doctor is the least ambitious of all the doctors in the city." "What is he—allopathic or homoeopathic?" "Well, he's most apathetic."—Cleveland Plain Dealer.
