> Through their cut and trimming mode current fashions should convey the impression of unbroken lines. The figure foundation required for accenting this new effect must not exaggerate the natural curves of the waist and hips, but only slightly define the waist and scientifically reduce the hips and abdomen so that the whole figure is given the appearance of natural slimness.

be held in Omaha, says: "I note in various Eagle publications a proposition is being agitated to hold the grand aeric meeting at the same time as

factory. The Eagle, convention will very likely draw 50.000 people to Omaha, because of its very central location geographically and because of the many trunk lines of railroad running into Omaha.

"The Ak-Bar-Ben festivities always draw an immonse throng, and next year will be no exception. Omaha simply would not be able to take care of the multitudes if the two events were to be combined. We want

all Eagles who come, and their friends, to have the enjoyment of comforts of living as well as fraternal pleasures. Hence, we must not encourage any move that would crowd everything to the utmost possible imit, and beyond. So I am in favor of the grand aerie meeting being held about the first week in September, when our weather conditions are, as a rule, ideal for real enjoyment, and I hope the Omaha committees having the arrangements in charge will work to have the grand serie meeting
