BEAR FACTION SEEMS SATISFIED

Unsettled Conditions Throughout Country Permit Little Activity to Be Shown by Any Large House.

Markets were dull, with light trading and to features. The bear faction seem to be satisfied with slight declines and the unstitled conditions throughout the country perroit very little activity to be shown by any of the larger houses. Conservative scilor is the prevailing sentiment until the conditions develop into a proceed of the stage.

Wheat opened steady at yesterday's level and after a slight drop hold steady, with me apparent feature. Trading was extremely light, with the real leaders out of the market entirely waiting developments. December wheat opened at 23c and closed of 33c. of 93c. - Corn showed better strength, due to the

r Corn showed better strength, due to the unlaverable weather, which is expected to keep the new crop from moving as soon as was expected. Receipts were light and cash demand some brisker and offerings were soon taken up. December corn opened at \$54.00 and closed at \$54.00.

Primary wheat receipts were 1,105,000 bushels and shipments were \$1,000 bushels and shipments of \$25,000 bushels and shipments of \$25,000 bushels and shipments were \$35,000 bushels and shipments were 17,000 bushels, against receipts last year of \$35,000 bushels and shipments were \$17,000 bushels and shipments were \$1,000 bushels of carn, 15,000 bushels of oats, and wheat and flour caula to 411,000 bushels of owen the could be shipped on corn.

bell, and the predictions were for continued wet weather in many sections. News from Argentina also was more optimistic, several dispatches claiming the damage to the new crop by frosts would be only alight. Prospects of a further liberal increase in the visible supply of wheat in the United States and Canada for the week furnished an additional motive to sellers. The principal builtsh influence of the day was a continued excellent demand for flour at Minneapolis, where 100,000 barrels, it was claimed, apolis, where 100,000 barrels, it was claimed, were sold yesterday. Cash whoat here was steady at unchanged premiums and no export business was reported. The seaboard also reported no sales for expart. Clearances of wheat and floor were equal to 41,000 bu. Primary receipts were 1,105,000 bu. compared with 881,000 bu. the corresponding day a year ago. Minneapolis, builth and Chicago reported receipts of 708 cars, against 775 cars last week and 617 cars against 775 cars against 775 cars last week and 617 cars against 775 cars last week and 617 cars against 775 cars against 775

Fears That the movement of new corn to market would be hindered by the wet weather, present and prospective, caused many local traders to become quite active buyers of corn during the first haif of the session, which resulted in moderate advances. Later in the day, however, several leading commission houses sold the May delivery freely and this tended to weaken the market in general. The market was influenced by the cash grain situation, new gorn being steady to 30 lower at the sample tables. The market closed firm, with prices a shade to 14074c higher, with December at 634c and May at 635c. Local receipts were 30 cars, with 22 cars of contract grade.

CHICAGO, Oct. 24.—Wet weather in the winter wheat belt had a depressing effect today on the local wheat market, but buying by shorts caused a steady tone at the clienges from the previous close. Corn, cats and provisions were firm.

The wheat market was an extremely narrow affair, both in regard to the amount of business transacted and in the range of prices. Throughout the entire day the price of all deliveres held within a half-cent range. Although the market closed steady, sentiment during the greater part of the weather conditions which prevailed in the weather conditions which prevailed in the west and southwest. The weather bureau reported rain over the entire winter wheat we wather in many sections. News from the disturbance of considerable energy has developed over the central valleys, with its center over the wat the center over the wat the conditions what region, and is preceded by rainy and unsettled weather conditions which prevailed in the Missouri river east to the Atlantic coast. The pressure continues high over the west. and clear weather prevails everywhere west of the Missouri river. Temperatures are slightly higher in the Lake region, upper valleys and throughout the west. They are much lower in the extreme lower valleys and west Gulf states. Killing frost occurred in Okiahoma, and light frost in western in the Missouri river east to the Atlantic coast. The pressure continues high over the west. CATTLE-As usual on a Saturday was no business of any consequence doing in the yards, there being very few cattle in sight, in ract, not enough to attract the attention of buyers or make a market. Receipts for the week have been quite liberal, showing a considerable gain over the previous week, although being a fiftle short of the record for two weeks ago and for a year ago. Other market points have been well supplied throughout the week and the total number of cattle on sale at leading markets has been so large as to bring about a general reduction in values.
