NEW RATES FOR CITY WATER

Revised Schedule Adopted by Board for First of Year. CHEAPER FOR SMALL CONSUMER

Price for Large Consumers Raised So as to Equalize Scale—Letter Are Held to Be Too

Table with columns: Meter rate per 1,000 gallons, up to 2,000 gallons, 2,000 to 4,000 gallons, 4,000 to 10,000 gallons, 10,000 to 20,000 gallons, Over 20,000 gallons.

Declaring that in its opinion the rates charged the small consumer should be reduced, that 5 cents per 1,000 gallons to some large consumers was relatively too low and that there should be certain reductions and modifications in the meter rates...

SCHOOL AND COLLEGE WORK

Passing of 'Little Red School House' from New England's Landscape. CONSOLIDATED SCHOOLS THE RULE

High Results Expected from Agricultural College Graduates—Activities of Universities—Educational Notes.

The 'little red school house,' with all its hallowed associations, has become almost a memory in New England, where it was reared for the most part for the past quarter of a century. The color designation is a misnomer. Very few were painted red, most of them were spotted with ochre, some were white and many were painted blue.

Review of the Work. Accompanying the report the committee on water rates submits a long report covering the detail of its mission dating back to March 18, 1906.

UNIVERSITY OF ILLINOIS

Increasing Interest in Education for Business Life.

Tables of registration for the last three years, which have just been issued by the school of business administration in the University of Illinois, show a steadily increasing interest in the work now being done by the universities in educating men for business life.

The oldest continuous agricultural experiment in the United States is in progress at the University of Illinois, and the field on which it is being conducted is the oldest soil experiment field in the United States and probably in the world.

COLLEGE FARM MANAGERS

Results Expected from Agricultural College Graduates. Persons seem to expect more of graduates of colleges of agriculture than of those of other kinds of colleges.
