COLE SHOTS OUT VISITORS

Cornhuskers Putting in Last Days of Practice in Secret.

NEW PLAYS ARE INTRODUCED

Work Well and Coach and Players Expect to Use Them Profitably. Against the Hawkeyes Saturday.

LINCOLN, Oct. 27.—(Special.)—The Cornhuskers held their first secret practice of the season this afternoon. "King" Cole took them to the field on the account of the muddy field at Antelope park, and refused to let any spectators witness the first of the two final scrimmages before the Iowa game Saturday.

All of the varsity players were out for practice with the exception of Cooke and Prum. Bell and Kroger took a very active part in the scrimmage. The former, with one of the substitutes, spent most of the time in passing the ball on the forward pass and in limbering up his booting leg.

He punted the ball a considerable distance, with his punts going over fifty yards. His work this afternoon was the best he has done this season in practice. Kroger, whose kicking leg has been out of service for the last ten days, did a little drop and place kicking, but the injury to his leg kept him from doing any satisfactory work.

Several new plays were introduced for the men and were used with great effect against the scrubs. The new "peckaboo" offense was employed for two of the plays and proved to be better than even the coach had anticipated. One of these plays in particular wrought all kinds of havoc with the defense.

Manager Bourke of the Omaha base ball team has received word from J. F. Gunther of Plainville, Neb., that he has completed a contract for the Omaha team, or rather, Tebeau's half interest, and that everything looks good for base ball in Omaha this winter.

While the annual meeting of the Western League was in session at St. Paul, Minn., on Tuesday, October 27, the Omaha team was in Chicago and lay plans for next season.

AMES AWAITS PEEK-A-BOO PLAY

SI Lambert Counted on to Break Nebraska Formation.

AMES, Oct. 27.—(Special.)—The game with South Dakota is expected to be a close one, and the regulars made constant gains that resulted in two touchdowns being made in close succession. These plays are to be used in the Iowa game Saturday, and the Nebraska coaches believe they will be good for many gains.

KAISER MAY SPOIL PLANS

Position of Germany May Prevent Conference on Balkans.

GERMANY IS WITH AUSTRIA

Former Will Not Consent to Discussion of Any Subject to Which the Latter May Object.

BERLIN, Oct. 27.—A semi-official news agency summarizes the results of the conference which has been going on between the German and Russian foreign ministers; Prince von Bülow, the imperial chancellor, and Herr von Schoen, German secretary of foreign affairs, as follows:

"The German government has no objection in principle to the proposed international congress to discuss the Balkan situation. The German and Russian governments recognize the fact that a conference of the powers can only prove useful if a complete agreement among all the signatories of the Berlin treaty, respecting the scope and contents of the program to be submitted to the conference, be attained beforehand.

Both governments will continue their efforts to find a peaceful and just solution of the present difficulties."

Servia the Danger Point.

LONDON, Oct. 27.—The British government has issued in London and through the British ambassadors abroad a formal denial that the rupture in the direct negotiations between Austria-Hungary and Turkey was due to Great Britain's intervention, together with a statement that any direct arrangement satisfactory to Turkey would be in the opinion of the British government smooth the way towards a general settlement.

Although there has been no change in the actual situation, the tendency of diplomatic activity is toward peace. Servia remains the danger point and the visit of the Servian crown prince to St. Petersburg carries a certain amount of apprehension in the absence of actual knowledge as to whether he is going on a matrimonial errand or a diplomatic mission to the emperor, or has merely been sent by King Peter to put an end to his dangerous activity.
