UNCLE SAM IS SAVING MONEY

Success in Chopping Contracts in West Lends to Inquiry of Conditions on Eastern Trunk Lines.

If the plans of the Postoffice department are carried out of forcing the railroads to accept the short owleage basis of pay for carrying the government matis the roads will lose over \$1,000,000 in revenue annually.

The Postoffice department has decided that the basis of pay, for nauling the mails everywhere shall be the short line mileage between the points of transportation. The west led in this reduction two years ago when the big fight was on for the mail carrying contract between Chicago and Omaha. It was the action of the Burlington in accepting less pay which has led the government to make the proposed The Rock Island at that time demanded the mail contract between Chicago and Omaha, basing its claim upon a saving of \$75,000 annually which could be made. The Bock Island claimed the malls could be transferred at Englewood, thereby saving considerable time and mileage which was used in hauling the mail into Chicago. The Rock Island is also a land grant railroad and there would have been considerable reduction on that account. The Burlington route, the official road for handling the western mails for the last twenty years, notified the postoffice officials it would meet the reduction of the Rock Island in the matter of time, mileage and compensation and was permitted to keep the mail contract.

Look for Other Cuts.

Realizing the economy which had thus been made, the government officials busied themselves to see whether other cuts could be made. A start has been made with the New York Central lines. The department has served notice upon the New York Central and Lake Shore roads that if they do not desire to avcept the pay upon the basis of the shorter mileage between New York and Chicago, the large transcentinental business which is now given to those lines will be furned over to the Pennsylvania. To comply with this demand will cost the New York Central and Lake Shore about \$25,000 every four years between the period of weighing the mails.

The readiness with which the Burlington. accepted the less revenue has indicated to the department that toher roads will also accept less rather than lose the business. The Burlington may now be asked to meet the short line mileage between Chicago and Kansas City or give the business to the

MORE GRANT CORN SHOW RATE

Illinois Central is Now in Line on the Passenger Pare.

The Illinois Central has received notice from its Chicago headquarters that that road has acquiesced in the rate of one and one-half fare for round trip during the National Corn exposition in Omaha. Its rates will, like those of the Milwaukee. apply to the general Western Passenger association territory and observe about what limit is neked.

Other roads are expected to announce their rates now any time.

Baggage cars will be furnished by the ratiroads coming into Omaha to bring exhibits to the National Corn exposition free of charge and those who desire to send exhibits will be notified as to the days these cars will be carried by the railroads. This arrangement was announced Wednesday by the corn show management.

which has had the matter up with various railroads for some time. The first railroad to agree to furnish the cars was the Chicago Great Western,

General Passenger Agent J. P. Elmer writing at follows: 'We are permitted by law to move exhibits for fairs and expositions, and we shall, therefore, take great pleasure in ar-

ranging baggage cars as you request." Other railroads have been quick to follow and before the end of the week all roads are expected to furnish the cars. which means much to both exhibitors and

the corn exposition. The plan is to have cars at all county seats in the states which will exhibit at the show in Omaha. Exhibitors need only express their corn, wheat, cuts, alfalfa or other exhibits to the nearest point where

the baggage car stops to have the exhibits brought to Omaha without charge. The exposition will furnish an attendant with each baggage car, who will be in charge from the starting place of the car until it gets to Omaha, seeing that the exhibits are properly handled. This insures the exhibits arriving to Omaha in the best

possible condition and in good time. TWO LOVED ONES MISSING Minneapolis Woman Seeks Daughter

and Concord, N. H., Man Has News for "Will S. Reed." Information regarding the whereabouts of Will S. Reed and the daughter of Mrs. bell Rose Russell of 718 Third avenue, north.

Minneapolis, is wanted by relatives of the

missing people, according to letters re

selved by The Bec. Mrs. Russell writes that her husband took her child away and that she has heard she is in Nebraska, while B. S. Reed of 83 Hall street, Concord, N. H., an old soldier writes that he has good news for Will S Reed. Mr. Reed writes that some of the relatives of the missing man have dled and that it is important to find him. Both correspondents request the forwarding of any information any man may have of the missing man and child. Will S. Reed formerly lived in Omaha.

A Total Eclipse of the functions of stomach, liver, kidneys and bowels is quickly disposed of with Electric Bitters. 50c. For sale by Beaton Drug Co.
