BELT LINE INDUSTRIAL HUB

Will Encircle Many Large Plants if Election Goes Right.

BUSINESS FIRMS ARE EXPANDING

Commercial Club, Railroads and Manufacturers and Wholesalers Are Preparing for Big Enterprises on Missouri Pacific.

"If the election goes right—and we believe it will—the Omaha Belt line will be a long workshop in the next four or five years."

This is the verdict of many Omaha business men and members of the Commercial club who are intimately interested in various industries, lumber and coal yards and other improvements which it is proposed to locate on the Belt line, now the most accessible and desirable location for industries.

A party of Omaha business men, including several from out of the city, made a trip over the Belt line Thursday afternoon to look over the sites offered for industries and visit those already located on the line. The party was conducted by H. B. Kooser, assistant general freight agent of the Missouri Pacific railroad, together with D. E. King, industrial agent of the company, and J. M. Guild, commissioner of the Commercial club.

The business men in the party represent large interests which contemplate locating various industries in Omaha. After election a decision will be reached by them as to whether they will move to Omaha or expand their business lines by locating branch houses and factories in Omaha. During the last month the Missouri Pacific Railroad company has had applications for six switch tracks from the Belt line. Some of them are for new industries, others asked by firms already located on

the Belt line, because of a general expansion of their business.

Firms Expanding Business.

Among the firms which are expanding their business is the Bowman-Kranz Lumber company, which has bought almost two blocks of vacant property near West Leavenworth and the Belt line for a second yard. This company has extensive yards near Thirtieth street on the Belt line, but its growing business and that of the Missouri Valley Lumber company, which the firm controls, makes the second yard necessary.

The Bowman-Kranz company came to Omaha from Sioux City because of the advantages offered for distribution and with other lumber companies located in Omaha, dates who it is expected will not shake the foundations of industry, the Omaha Belt line will be the busiest stretch of track between Chicago and the Pacific coast.

The party of business men visited a number of factories located on the line and found them all busy, as were the lumber, coal, cement and cement block yards and plants.

NO KIN TO ACTOR FAVERSHAM

Young Woman by that Name at Hotel is Simply Piano Seller.

"No, I am not a relative of the actor," said Miss Marion Faversham at the Henn-haw, Friday morning, and I don't want to be interviewed unless you will say that the piano house I represent makes the sweetest toned instrument on the market and the most enduring of tone, too. Its just the best little piano that you can buy anywhere, really it is. "There are not many girls selling pianos,

but those who are so engaged are quite successful, and they make more money, most of them, anyhow, than girls and women in all other occupation except actresses.

"But as I was saying this piano of ours has the best action of any instrument made and more are being made and sold than all other makes combined and—"

CAPTAIN DUNN IS NOT LOST

It is Only His Fine Dog that is Missing, but Police Get Great Scare.

If a letter of information left by an officer of the night police force Thursday night for Day Captain Mostyn is true, Night Captain Henry W. Dunn is lost in the wilds of East Omaha and the job of police officers have been asked to keep a sharp lookout for him. But after an investigation Friday morning it developed that the report of the loss of a strong and wide-awake police captain had been made only through slight carelessness in writing the report. Following is the letter as received by Captain Mostyn: Police Headquarters, Oct. 29.—Captain Mostyn, Dear Sir: Officer Leach reports that Captain Dunn got away from the former's place last night and would like to have the patrolmen keep a sharp lookout for him.

An accurate description of a liver-colored pointer followed the news of Captain Dunn's disappearance and the report was signed by one of the desk officers.

It seems that Captain Dunn had left his fine hunting dog with one of the patrolmen to keep for the winter, the dog had gotten away from the officer's home in East Omaha, the desk officer had endeavored to report the fact and the amusing report of the loss of a police captain had been occasioned merely by the use of the words "Captain Dunn" in the report instead of the words "Captain Dunn's dog." The fact that the officer, who made the mistake in the report, failed to appear for duty at the police station Friday morning, makes the matter all the more interesting, as wild conjectures are circulating as to what has become of him. It is not known whether he was given a vacation for making the "boof," or whether he is now trying to locate the missing captain.

Injured in a Fire or bruised by a fall, apply Bucklen's Arnica Salve. Cures burns, wounds, sores, eczema, piles. Guaranteed. 25c. For sale by Beaton Drug Co.

DELANO SEES IMPROVEMENT

President of Wabash Comments Hopefully on Situation.

IN OMAHA ON TOUR OF HIS ROAD

Says He Finds Business in General Very Encouraging and Making a Steady Improvement Everywhere.

"Omaha is growing and improving rapidly. I notice it every time I come here," said President F. A. Delano of the Wabash at the Union station last night. "I have been here two or three times since I have been with the Wabash and I was here several times before, and on each visit I see new evidences of substantial business growth."

"Our trip has no special significance from either a railroad or business standpoint. We are making the usual annual inspection of the Wabash line and our main object is to meet shippers and discuss matters of mutual interest and also we are inspecting the property of the company."

"How do we find business conditions along our lines?" he said, repeating a question in a general way I can say they are good and are steadily improving. Of course we are not doing quite what we did a year ago, but the number of idle cars is decreasing every day."

Mr. Delano refused to talk politics and would not even express an opinion as to the result of the election next week. "We are railroad men, not politicians," he remarked smilingly. "In our party you will find men of all political beliefs." He admitted, however, that an exception would probably have to be made in the case of the socialist party.

An accurate description of the trip by the heads of the various departments of the road. The party reached Omaha last night at 6 o'clock on a special train made up of the three private cars "St. Louis," "Chicago" and "Missouri." Those aboard beside President Delano were Henry Miller, vice president and general manager; George G. Yeomans, assistant to the president; S. E. Cotter, general superintendent; A. O. Cunningham, chief engineer; E. F. Needham, superintendent of locomotive and road department; W. C. Maxwell, general traffic manager; C. H. Stinson, general freight agent; H. E. Watts, W. H. Wylie and E. R. Newman, assistant

general freight agents; J. D. McNamara, general passenger agent; J. E. Stumpf, superintendent; M. G. Carter, trainmaster; J. H. Dacey, master mechanic; J. T. Sheahan, engineer in charge of way; Edward Sheehan, engineer in charge of way; George M. Entrikin of Omaha, division freight agent, and H. E. Moore of Omaha, northwestern passenger agent.

The entire party left last night at 10:10 o'clock for Kansas City.

Second Burlington Route.

Burlington officials are anxiously awaiting the building of the second route from Omaha to join with the Northern Pacific near Billings. Officials say, however, that in spite of reports to the contrary, nothing will be done on this during the winter, but that it probably will be the first work undertaken in the spring. The building of this second line through Wyoming to the Northern Pacific will mean that the Burlington will not be extended to Salt Lake City as was contemplated two years ago. The second line will be an absolute necessity soon for two reasons, one, the increase of business due to the return of prosperity, and the second, the extra business which will come to the northwest line because of the new line between Billings and Great Falls to connect with the Great Northern. Slow freight is now being sent over that line, with rates favorable to Omaha.

Work on Double Tracks.

Double track work between Granger and Green River is being pushed at a rapid rate, and everything is being done to hasten the work before freezing weather puts a stop to outside work. Over fourteen miles of this new track is now in operation and except for three miles of rock cut thirty-two miles should be done before December. The double track work in Nebraska is also being pushed and mile after mile is being added to that now in use.

To a person standing along the line of the Union Pacific and watching train after train as they are sent over the road, the wonder is how the road has been operated so long as it has without these double tracks. At times it is almost a procession of trains.

Accident is Peculiar.

Investigation has developed a peculiar condition as to the cause of the Rock Island passenger train going into the ditch between Omaha and South Omaha two days ago. Although the accident happened on the Union Pacific tracks, it was caused to a Rock Island train by a part of the brake rigging falling from a Rock Island freight train immediately ahead of the passenger train. The first report gave the cause as a broken switch, but the in-

vestigation which the Union Pacific always has as to the cause of accidents puts the blame on the broken brake rigging.

Easterners Getting West.

Thousands of easterners seeking the warmer clime of California are daily passing through Omaha and the capacity of the depot facilities is taxed every day to handle the tourists. The close of the colonial rates is at hand and Thursday the Burlington train ran into Denver in three sections and the three afternoon trains of the Union Pacific for the west had fourteen cars each. These colonists are hustling to California to escape the coal bills of the colder clime.

The Burlington route has arranged to give complete election returns to passengers on every passenger train on the system on election night. The bulletins will be posted in conspicuous places all through the trains and will be received from each large station as the train passes.

Rats in Subways.

At least three of the underground railways in London are now free from rats. Once the rats had obtained an entry into the tubes they multiplied rapidly until recently their death warrant was being issued as it was found that they showed an increased liking for nibbling electric cables. To carry on a war a thousand tubes of a special virus were obtained. This virus only harms rats and mice, and not eaten by them they suffer from an insupportable dread of being underground in a consuming desire for one last long slip of clear cold water. The officials used the virus and spread it at night. A few days after eating it the rats began their jostling rush

TIRE FLIES FROM CARRIAGE

Rubber Circle Shoots from Wheel of Vehicle Carrying Two Catholic Prelates.

While a beautiful black carriage was going south on Sixteenth street about 2 Douglas, Thursday afternoon the rubber tire on one of the hind wheels burst and was thrown out at full length by the momentum of the wheel over the carriage, nearly striking the driver. It made most peculiar sight and attracted much attention from pedestrians who did not at first comprehend just what it was. It looked like huge serpent.

Interest in the affair was heightened when the Rt. Rev. Richard Scannell, Catholic bishop of Omaha, stepped out of his carriage and proffered his assistance to the driver, who had stopped from his seat above. With the bishop in the carriage was the Most Rev. Michael Kelly, coadjutor Arch bishop of Sydney, Australia, who is the guest of Rt. Rev. Richard Scannell, bishop of Omaha. Archbishop Kelly stopped in Omaha en route to Australia after a visit to Rome. He also stopped in many of the principal cities of the east and participated in the celebration at St. Louis, being the guest of Archbishop Glennon in that city. The archbishop will leave for San Francisco in a few days and return to Sydney in two or three weeks.

PROMPTLY OVERCOMES STOMACH TROUBLE

All distress from your disordered Stomach and Indigestion will vanish.

You haven't catarrh of the Stomach, or Nervousness, or Gastritis, or Cancer, etc. Prove this by taking Pope's Diaprepin after your very next meal. Convince yourself within five minutes that your actual disease was sour, acid stomach—Food fermentation—that every bite you eat turned to Stomach Gas, Stomach poison and Acid, which makes you feel sick and miserable, producing such symptoms as pain in the pit of the stomach, Difficulty in breathing after a meal, Headaches, Belching, Heartburn, Nauseous breath, Water brash, Biloousness, Sour risings, Gas on Stomach and many other bad feelings.

Indigestion is a result, not a cause, of your misery. If the stomach is sour, your food becomes tainted, and that is why

you have these stomach disorders. Ask your pharmacist to show you a case of Pope's Diaprepin, which costs only 50 cents. Read what this effective Stomach and digestive treatment contains, and how absolutely harmless it must be; how it does for the stomach what the washing and sun bath do for the chorn; absolutely removes every corrupting or tainting element and will digest all the food you can eat. Go to your druggist and get some Diaprepin now, then eat anything you want at your next meal, and you will not suffer from Indigestion or Stomach trouble. Each bite of food will taste good, and besides, you will not need liver regulators to keep your intestines and Stomach clean and fresh.

Now and forever rid yourself of the misery of Indigestion and Stomach trouble. Make your meal a pleasure by going to the table with a healthy appetite.

Run Down

If you are all run down, easily tired, thin, pale, nervous, go to your doctor. Stop guessing, stop experimenting, go direct to your doctor. Ask his opinion of Ayer's non-alcoholic Sarsaparilla. No alcohol, no stimulation. A blood purifier, a nerve tonic, a strong alternative, an aid to digestion. Lowell, Mass.
