Then my mother recommended the Cuticura the Cuticura Remedies. I washed my children's heads with Cuticura Soap and then applied the wonderful cintment, Cuticura. I did this four or five times and I can say that they have been entirely cured. I have another haby who is so plump that the folds of skin on his neck were broken and even bled. I used Cuticura Boap and Cuticura Cintment and the next morning the trouble had disappeared. I am using the Cuticura Remedies yet whenever any of my family have any sores. I can never recommend Cuticura sufficiently; it is indispensable in every home. I cannot find its equal. Mme. Napoleon Duceppe, 41 Duluth St., Montreal, Que, May 21, 1907."

INVESTORS LOSE TEN MILLION

Remarkable Methods Employed Financing Electric Road.

IMMENSE BONDED INDEBTEDNESS

Wisconsin Division Cost Actually Two and Quarter Millions, but is Bonded for Over Thirteen Millions.

CHICAGO, Oct. 30 .- Ten million dellars in round figures out of a total of \$18,000,000 put up by investors for the bankrupt Chicago & Milwaukee Electric Raliway company has gone into something else besides construction, according to reports of certifled accountants to the receivers appointed by Federal Judge Peter S. Grosscup.

The principal feature of the accountants' reports was made public today. The reports show that \$8,454,000, including the floating debt, has been spent in the construction of the entire road. Outstanding against this is a total bond and certificate issues of \$16,000,000 and other debts amounting to \$2,169,000, making a total deft of \$18,-169,000. The difference between this amount and the money actually expended on the road is \$9,715,000.

Only a hazy idea of the ultimate disposition of this \$9,715,000 exists outside the circle of the promoters of the company. A tremendously large amount was dissipated in the selling of bonds at extremely low prices. Until affairs are probed thoroughly the investors will not know all of the quicksands that sucked in their money.

The Wisconsin division of the road is

the most striking example of extraordinary financing. The actual cost of the construction was \$2,250,000. Against this is a debt of \$12,929,805. There also are interesting wrinkles in financing the completion of the road during the last few months Receiver Moore was appointed by Judge Grosscup at the instance of the Loewenfeldt London Security company, which has \$1,250,-000 of the road's bonds. Loewenfeldt, it was understood, was to take \$1,000,000 of the cociver's certificates issued for the comdetion of the road into Milwaukee, and Engineer Drum was appointed, at the instance of Receiver Moore, to superintend the work. They contracted to finish the road and to receive a commission of \$40,-

Mr. Loewenfeldt, it appears, did not purchase the receiver's certificates, but turned them over to Receiver Moore, who was to try to dispose of them in the United States and Canada, there being no market for them in London after the exposures of the road's condition. In exchange for the certificates Loewenfeldt took \$1,000,000 of the bonds of the Michigan United Railways company, in which Moore is interested. Loewenfeldt, as a result of these deals, has furnished only \$180,000 toward financing the completion of the road.
