Cunha Cash Prices. Carlot Receipts.

Wheat, Corn. Oats CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Nov. 10.—Wheat prices on the lacal exchange advanced from ic to 2c per thishele Teday, owing to active demand based on an enormous export business. The close was almost at the top at net gains of 14,614,6624c. Corn and oats were close was almost at the top at het gains of 14,6714,6724c. Corn and oats were also strong, but provisions were weak.

The wheat market opened strong at prices up 4 to \$65%, compared with the previous close and after steadily advancing throughout the day, closed excited and strong with December at \$1.02% and May at \$1.07% (\$1.4%. The mersers was bullishly affected at the start by an advance of 1d at Liverpool, and later in the session, frosh impetus was given the upward movement of prices by advices from the northwest, clauming that exporters at Winnipeg and Dututh were taking all wheat that was offered them. One report asserted that the fored them. One report asserted that the total sales today in the northwest would aggregate between 100 and 200 bont loads, but the exact figures, it was said, were not available. A premium of 5c on the price of November wheat at Winnipog over the December delivery seemed to furnish proof of the claims of a big export business.

Minneapois also reported an excellent demand for flour. The market was further suretistatened by numerous reports from the winter wheat helt telling of the stunted growth of the fall sown crop owing to drouth. The fact that the drouth had been partly broken by rain in the Ohio vailey during the last twenty-four hours seemed to be given scant consideration. Clearances of wheat and flour were equal to 28,000 hashels. The visible supply increased 1.323,000 bushels.

The corn market responded to the strength of wheat and rallied sharply late in the day, prices advancing nearly ic from the day, prices advancing nearly ic from \$1.00.

the low point of the session. The close was strong with prices at the top notch end at het gains of \$654c, final quotations on December being at 634c and May

Active buying by cash houses caused strength in the oats. The market closed strong with prices up \$10 c. with December at \$10 c and May at \$10 c. with December at \$10 c and May at \$10 c. with December at \$10 c and May at \$10 c. with December at the principal points were estimated at 116,000 head, compared with \$2,300 the corresponding day a year ago. At the close prices were 74,000 to 15c lower.

The leading futures ranged as follows:

Day's Conflicting Movements, Including Realizing Sales, Leave Small Net Gain on Leading Issues.

Liverpool came strong and reports from resulting are nutstrong and reports from resulting for the mean relation of the company of the compa

The most clearly defined of the many rumors circulated alleged an intended issue of the per cent Southern Pacific bonds to retire the 7 per cent preferred stock, which is subject to redemption at 115 or to exchange into common stock. An advance in the dividend rate on the common stock to 7 per cent was an alleged accompaniment of this proposed financing. The large holdings of Southern Pacific in the Union Pacific treasury make clear the advantage that would accrue to that treasury from increased dividends on Southern Pacific and enlarged dividends for Union Pacific were hastily assumed from this possibility.

There was no authoritative confirmation or deal obtainable for any of these rumors, but they were made the basis for many further conclusions affecting stocks in which Union Pacific is a holder. Stocks in which the Harriman interest has been demonstrated moved up strongly from the forenoon depression when the Harriman Pacifics began to boom. The early depression was unexplained by any unioward development, such as the decision of violation of the anti-trust law by the American Tobacco company was assumed to be yestered.

14.0GS—Receipts of hogs were very liberal at the different market points. Kansas City was in fact overloaded, 30.000 head being reported in at that point, with prices logific lower on the opening. With discouraging advices from all points, the market here weakened and was generally 5010c lower than yesterday. A good share of the hogs sold at \$5.005.90, with a top of \$5.75. The trade was reasonably active at the decline and the most of the hogs changed hands in fair season in the morning. Representative sales

80

18. The second s last week's close. There were no choice lambs on sale to make a test of the mar-ket and very little good stuff of any kind. It was very evident this morning that buyers wanted the feeder lambs and as the

was restricted by the settlement, the prospects of a satisfactory conclusion of the political differences on the continent created a steadier feeling. Consols hard-ened a fraction, while cheerful Paris advices improved foreign bonds. Mines continued strong, especially copper shares, which made a further sharp advance, but closed below the best.

American securities received increased support and in the forenoon went above parity, Eric and Union Pacific leading in the Improvement, which was helped later by bear covering. New York continued the advance in the afternoon, but sold in the later and the source today was firm and prices were slowed steers.

Buyers went through the yards early picking out here and there and the common and intered the activity of the definite passage of amelioration of the situation between Germany and France and the whole list was buoyant.

Metal Market.

New YORK, Nov. 10.—METALS—There was quite a sharp reaction in the London time market, prices being about 21 lower at £1505.75; fair to good to choice of the situation of the situation between Germany and France and the whole list was buoyant.

Wool Market.

BOSTON, Nov. 10.—WOOL—The advancement of prices throughout the list has served to curtail somewhat the activity in the local wool market. The demand, however, continues to run to almost all grades. The leading domestic quotations range as follows: Missouri and Kentucky three-eighths blood, NaTic; quarter blood, 2425c. Scoured values: Texas, fine twelve must be significant.

Coffee Market.

NEW YORK, Nov. 10.—COFFEE—Market for coffee futures opened steady at unchanged prices to a decline of five points, under scattering liquidation and selling by trade interest, in the absence of important support. Prices held around the initial figures on a small volume of business, the close being steady net unchanged to five points lower. Sales were reported of 11,600 bags, including December at 5.5c. Spot, quiet; No. 7 Rio, 6%c; No. 4 Bantos, 8%c. Mild, dull; Cordova, 10@13%c.

Toledo Seed Market.

CROP YIELD FOR NEBRASKA Good Show for State is Made in the Report of the Union Pacific.

The Union Pacific has prepared an interesting crop estimate of the yield and acreage by countles in Nebraska for the years 1908, and also a comparison of crops with 1907. The report shows that the acreage has been increased on winter wheat, corn, Irish potatoes, alfaifa, millet, timothy and wild hay. The total yield shows an increase on oats, corn potatoes. millet, alfalfa, timothy, wild hay and sugar beets in spite of less acreage on some of these commodities.

Summary and comparison of the acreage and total yields of Nebraska crops for 1907-1908: ACREAGE .--CROP

CROP.
Winter wheat 2,064,970
Spring wheat 252,254
Oats 2,830,119
Rye 104,859
