If you haven't been using Updike's Pride of Omaha, make up your mind now to ask your grocer for it today. If he doesn't have it telephone Webster 68 and we will see that your order is filled.

### NO FIRE HOUSE IN STREET

Auditorium People and City Authorities Reach an Agreement.

### LOCATED ON A VACANT LOT

Contract Awarded for Moving it and Sale of Building to Julius Jensen is Ratified by the City Council.

As a result of a conference held yesterday afternoon between the members of the city council and representatives of the Commercial club, the National Horticultural congress and the Auditorium company, the fire station at the foot of Bryant street will not be moved out into the street intersection in front of the main entrance of the auditorium while the new fire house is being constructed. A plan for disposing of the old engine house was agreed upon which is satisfactory to all the interests involved.  
It was decided to move the building directly across Main street to the lot formerly occupied as a wood and coal yard and more recently by the Nevada Motor company. This location will afford the fire department convenient means of getting out and into the building and will remove it entirely from the street and away from the auditorium. The cost of moving the building across Main street will be but little more than that of moving it twenty-five feet from its present site into the street intersection.  
Following the conference the city council, at the suggestion of Mayor Maloney, held a special meeting and took formal action in the matter, directing that the fire house be moved across Main street and a contract with Hollenbeck Brothers for moving it was approved. The city will bear the expense of moving the building, which has been sold to Julius Jensen for \$27 under his bid filed last Monday. Jensen has provided that the city council retain occupancy of the building as long as it needed to.

### CANVASS OF VOTES IS COMPLETE

Congressman Smith Runs Ahead of the Ticket.  
The official canvass by the Board of Supervisors of the vote cast at the general election, the footings being completed yesterday by the county auditor, shows that William H. Taft carried Pottawattamie county by a plurality of 61 over William J. Bryan. As there was no popular vote directly for the presidential candidates the figures are taken from the vote on the first named republican candidate for elector-at-large and the first named democratic candidate for elector-at-large on the ticket. Contrary to expectation there was a comparatively small variation in the votes of the first named candidate for elector-at-large and the district electors. The difference between the first and the last electors on the republican ticket was 188, while that of B. F. Carroll, republican candidate for governor, over Fred White, democrat, was 216.  
The prohibition party did not make any material gain this year. E. W. Chaffin, its party candidate for president, received 169

votes in the county. Two years ago the prohibitionists polled 154 votes. Before election there was talk of a big socialist vote in Pottawattamie county, but it did not materialize. Eugene V. Debs received 194 votes, as against 153 polled by his party two years ago. Thomas E. Watson, presidential candidate of the people's party, received five votes and Thomas L. Hagen, presidential candidate of the independence of William Randolph Hearst party, received three votes.

Woman and joined the church. One of the principal witnesses for the plaintiff yesterday was Robert Jordan, prominent in colored church circles. He testified that shortly before his death and when he realized his end was near, Giles told him that he wanted to acknowledge his son, whom he had denied since he had married the woman who was his wife of that time.

### BLUFFS DAY AT THE CORN SHOW

Suggestion that Its Scope Be Broadened to Take in County.  
Monday, December 14, has been designated as Council Bluffs day at the National Corn exposition in Omaha. Announcement to this effect was made yesterday by Gordon W. Wattles, who has charge of the arrangements for special days during the exposition. Victor E. Bender has been requested by Mr. Wattles to preside at the exercises planned to be held on that day.  
In his letter to Mr. Bender the following suggestions are offered by Mr. Wattles:  
We wish to make it an event which will attract the attention of the people of Council Bluffs generally and make their attendance worth while. My notion is that you ought to preside at the exhibition and make a brief address. The mayor of Omaha might be expected to make a brief address.  
I wish to lift the program of Council Bluffs day out of the purview of order of exercises and make it something worth while. How would it do to get a band and have a special train of motor cars to leave Council Bluffs at a given time and place?  
It has been suggested since Mr. Wattles' letter was received that the special day for Council Bluffs should be for Council Bluffs and Pottawattamie county, as the farmers in this county are aving much interest in the exposition. The commission in Pottawattamie county has done some good work and aroused considerable enthusiasm among the farmers and for this reason it is suggested that the special day on December 14 should be for Council Bluffs and Pottawattamie county and not for Council Bluffs alone. It is expected that this suggestion will be made to Mr. Wattles and the other managers of the National Corn exposition.
