

DUN'S REVIEW OF TRADE

Percentage of Idle Machinery and Unemployed Labor Decreases.

PRICES FOR PIG IRON ADVANCE

Many Furnaces Have Contracted Their Output Up to July—Many Inquiries for Steel Rails.

NEW YORK, Nov. 12.—Dun's Review of Trade tomorrow will say:

Expectations are being fully realized in the increased demand for manufactured products that each day reduces the percentage of idle machinery and the number of unemployed. The depleted condition of stocks is disclosed as business expands throughout all industrial channels there is a sudden pressure to meet requirements that assures activity for some time at least. Higher prices for pig iron followed the increase in demand, consumers providing for requirements well into the future. Several of the railway rates in steel to be delivered in the spring. Furnaces have added still further to the active capacity and some have contracted for much of their output up to July 1. The better feeling is also reflected in the market and, if weather conditions permit, the movement down the lakes probably will be increased to 2,000,000 tons for the season. Several of the railway rates in steel to be placed this week.

BRADSTREET'S REVIEW OF TRADE

Expansion Continues in Business and Industrial Lines.

NEW YORK, Nov. 12.—Bradstreet's tomorrow will say:

Expansion continues in trade and industrial lines, shipments over the railways are increasing. Idleness is being diminished, prices in numerous lines are higher, collections are better, and sentiment is brighter than it has been for twelve months past. In many sections retail stocks are badly broken, owing to conservative purchases heretofore made, and as a result requests for immediate shipments are quite the rule.

On this account and because of more reasonable weather, sorting up orders in wholesale and jobbing lines are of larger volume.

Spring business is also developing quite freely although widespread improvement in this direction is not looked for until after the turn of the new year. Demand for holiday goods is increasing. Practically

Passenger and Freight Trains Come Together at Thurston.

THURSTON, Neb., Nov. 12.—(Special Telegram.)—Fireman George Stauffer of Omaha lost his life in a collision on the Omaha road here this evening. Freight train No. 16, northbound, was switching in the yards here just at dusk and the headlight of the engine had not been lighted, so it is stated. Mrs. Paulus, the mother, died nearly one year ago, after several months of sickness, though her mind was in good condition. BRYAN THANKS UNION LABOR

Letter from Nebraskan Read at Convention of American Federation.

DAY DEVOTED TO ADDRESSES

Fraternal Delegates Report and Women Make Speeches on Work of the Label League.

DENVER, Nov. 12.—At the close of Thursday's session of the twenty-eighth annual convention of the American Federation of Labor, President Samuel Gompers, in thanking the speakers of the day, said that he had heard since coming to Denver that it was intended by the present session of congress to pass a bill amending the Sherman anti-trust law in a way detrimental to the labor movement. He said if such an attempt was made he would fight it in the halls of congress. At the request of Mr. Gompers the sec-

retary then read a letter from William J. Bryan, in which he thanked President Gompers and the other members of the Federation for the support given him during the recent presidential campaign.

With the exception of two reports made at the morning session the entire day was spent in listening to reports, fraternal and other addresses.

The first speaker of the afternoon session was Rev. Charles Steble, superintendent of the Immigration Board of the Home Missions of the Presbyterian Church of New York. He took for his subject, "The Farthest Alms of the Church and the Labor Party."

Mrs. Raymond Robbins and Mrs. Anna Fitzgerald, representing the Women's Trade Union league, addressed the convention, telling the delegates of the organized movement among the women. Mrs. Robbins said the league consisted of four branches, one each in Chicago, New York, Boston and St. Louis. She said they were trying to teach concerted action to the women.

Andrew Furuseth read the report of the federation delegates to the forty-first British Trade Union congress. He said the committee found that in England women

and children were being pitted against men in all lines of industry. He said that a majority of the English workmen oppose a tariff because they believe it would increase the cost of living. He read an invitation from the congress urging that Samuel Gompers attend the next British congress.

Hugh Francy, the federation's delegate to the Trades and Labor congress of Canada, read his report, which was a brief record of the official proceedings of the congress.

Read what they say: Mrs. Treat in a letter March 30, 1908, wrote:

"I take pleasure in informing you of the great benefit derived from the use of Duffy's Pure Malt Whiskey. My husband also suffered with his stomach, had no appetite and was so weak and run down that he had given up his work. He was induced to use your Malt Whiskey, with the result that he is now able to attend to his work every day and has a hearty appetite.

"We do not approve of the improper use of any liquor, but Duffy's Pure Malt Whiskey, used as directed, has done much for us, for which we are extremely grateful.—Mr. and Mrs. J. E. Treat, 91 Camp St., Meriden, Conn.
