

# WAS DELIRIOUS WITH ECZEMA

On Chest, Back, and Head—Pain, Heat, and Tingling Were Excruciating—Nerves in Exhausted Condition—Sleep Badly Broken.

## CURE BY CUTICURA SEEMED LIKE MAGIC

"Words cannot express the gratitude I feel for what Cuticura Remedies have done for my daughter, Adelaide. She is fifteen years of age, and had never had anything the matter with her skin until four months ago, when an eruption broke out on her chest. The first symptom was a redness, and then followed thickening and blisters, which would break and run matter. I took her to a doctor, and he pronounced it to be eczema of a very bad form. He treated her, but instead of being checked, the disease spread. It showed itself on her back, and then quickly spread upwards until the whole of her head was affected, and all her hair had to be cut off. The pain she suffered was excruciating, and what with that and the heat and tingling her life was almost unbearable. She became run down in health, and at times was very feverish, languid, and drowsy, and occasionally she was delirious. Her nerves were in such a low state that she could not bear to be left alone. In spite of the cold weather she would insist on having her bedroom window open, and would lean out on the window-sill. She did not have a proper hour's sleep for many nights. The second doctor we tried afforded her just as little relief as the first, and I really do not know what we should have done if we had not read of Cuticura. I purchased Cuticura Soap, Cuticura Ointment, and Cuticura Pills, and before the Ointment was applied the itching subsided every trace of the disease was gone. It really seemed like magic. Her hair is coming on nicely, and I still apply the Cuticura Ointment as it increases the growth wonderfully. Mrs. T. W. Hyde, 1, Ongar Place, Brentwood, Essex, England, Mar. 9, 1907.

## WEATHER FOR CORN SHOW

Mexicans Wish to Know What Temperature Will Be.

## ASK WHAT THEY SHALL WEAR

Famous Oats of England Will Be Exhibited by Five Sons of Albion—Wearing and West Virginia Heard From.

The many merry Mexicans who are coming to the National Corn exposition are in a happy frame of mind regarding their trip, but are disturbed over one thing—what weight of clothing they should bring. A letter of inquiry on the subject thus places General Manager J. Wilkes Jones in the delicate position of a long range weather forecaster. The letter is decidedly worth while as showing the enthusiasm which the people of Mexico have for the Corn exposition. It runs as follows: HACIENDA DE SAN JUAN MACHOR, R.P., Distrito de Tecamachalco, E. de P. de Nov. 14.—J. Wilkes Jones, Esq., General Manager National Corn Exposition, Omaha, Neb. My Dear Sir: I have to say that the trophy is very near finish and I will send you a photograph of same as soon as it is complete. As I told you in my previous letters it is a bust of President Porfirio Diaz which will be the base of the best oaty that we have. I have been working in the map, as I intend to give a graphic statistic of the production of corn in Mexico. I have samples of corn from every state of the country. The samples are of the following varieties: some of the most important faces of our agriculture life, such as the plowing and how the Indian woman makes the tortilla (the only feeding stuff of twelve million people). I have made up my mind to read some papers upon the following subject: "The Actual Condition of Agriculture in Mexico and its Wonderful Possibility." In this paper I will discuss the fact that there will be some room for this lecture please let me know to prepare the speech. I have invited some of the most progressive farmers to go with me and I hope some will accept my invitation. I have not located Mr. Musher to help me as you suggest me, but am trying to do the best I can myself. Please inform me what is the altitude of Omaha and what will be the weather during my stay, as some of the men are in the questions. Hoping to hear from you soon and assuring my personal esteem, believe me, yours very truly friend, Z. DOMINGUEZ. (Sgd.)

## Belton's Will Exhibit.

Five Englishmen have sent word that they will exhibit samples of their magnificent oats and no feature of the exposition will attract more interest than this. These oats are in addition to the famous "hulless" variety, every one of which will be sterilized before leaving the English soil. The discoverers of this species are taking absolutely no chance that any one should obtain even one seed. As an illustration of their caution, may be cited the fact that when General Manager Jones was visiting Warrington, England, some oats of the kind were handed him to look at. Although long personally acquainted with and a warm friend of the owner, yet the invariable rule was carried out in this instance and the seeds sterilized before they left the hands of the discoverer. Those who will exhibit British oats are: J. T. Baxter, Dutton Hall, Cheshire, England. George Platt, Eaton, Tarporely, England. Robert Garton, Acton Grange, Warrington, England. L. Miller, Larkhill, Formby, England. David Garton, Dean Dam Farm, Newton Willows, England.

## Americans Will Send Many.

England, Canada, South Africa and Mexico will not, however, be the only countries represented at this exposition. For the reports and shipments from all over the United States indicate that the real grain country of the world will have a wonderfully complete exhibition. From points as widely separated as Morgantown, W. V., and Cheyenne, Wyo., came Friday morning letters and word of shipments. The latter was from Governor Brooks to say that he will be sure to attend and that the Wyoming exhibit is being packed. Many Douglas and Pottawattamie county girls are making inquiry regarding the special contest for girls from these two counties, under 21 years of age, for the best corn bread. The first premium in this contest is a \$50 steel range.

## NEW RIFLE RANGE WANTED

Bellevue and Fort Crook Are Decided On as Unavailable for the Purpose.

The utility of the old Bellevue and Fort Crook rifle ranges for regular army target practice seems to have been settled negatively and the board of officers having this matter in charge has been casting about for a new location. This board consists of Captains Joseph T. Gohn and E. R. Chrisman and Lieutenant J. M. Churchill of the Sixteenth Infantry at Fort Crook. The matter of the Fort Crook range has been under consideration by the board for several months. During the summer target practice at the Ashland range, Captain Charles M. Bunde of the Sixteenth Infantry, with his Company I, of that regiment were at the Ashland range, Captain Bunde being range instructor for the target practice. The availability of the Ashland range impressed itself upon Captain Bunde as meeting all the requirements for long range target practice and it is now probable that the United States will make an effort to acquire the Ashland range for regular army target practice. The board of officers having this matter in charge will go to Ashland in a day or two to make an investigation of this range. Its nearness to Fort Crook will admit of the Fort Crook troops making an easy march there, which will obviate the heavy transportation expense involved in going to ranges a hundred or more miles distant from Fort Crook.

## ANNIVERSARY OF THE W. C. A.

Twenty-Fifth Year of Founding Will Be Celebrated on December Fourth.

The Women's Christian association, Omaha's oldest charity organization, will celebrate the twenty-fifth anniversary of its founding December 4. The association supports and manages the Old People's Home and it will observe this anniversary by asking a silver offering for the home. All of the women's clubs of the city have been invited to assist, the plan being to maintain stations downtown that day, where the offerings may be left, the various clubs to have charge of them. About thirty of these stations will be opened, the following organizations having consented to preside: Omaha Woman's club, with three departments—Social Science, Household Economics and Current Topics; Omaha Women's Christian Temperance union, Young Women's Christian association, P. E. O. Sisterhood, U. S. Grant and George Crook Relief corps, New Book Review club, Mu Sigma Woman's club, Visiting Nurses' association, Omaha "C. C."

club, Omaha Settlement association and the Woman's club of the railway mail service. The Tuesday Morning Musicals, Dundee Woman's club, Fine Arts society, Clarkson Hospital association, Needlework guild, Creche, Child Saving institute nursery committee, Friday club and Frances Willard Woman's Christian Temperance union have also been invited to assist, but have not yet responded.

## A RECORD HARD TO BEAT

Male and Hearty Man of 92 Cuts 20,000 Poles and Wins Several Fortunes.

Isaac Meservey of Northport, Me., is one of the most hearty nonagenarians in New England. He was born in Albion, April 27, 1815, and is the last survivor of the thirteen children of his father, John Meservey, the shoemaker of the town. He is one of the California "diggers," has crossed the Isthmus eight times. He has experienced every species of traveler's hardships, was wrecked on the Mexican coast and lost in the Sierra Nevada, endured the deprivations of forest and mining camp, made and lost five comfortable fortunes and is now alone in the world, passing the days resignedly in keeping house with a male relative.

But he is in good health, reads without glasses, his hearing is but slightly impaired, and he is cheerful, contented and ever reminiscient. He went to San Francisco in 1848, arriving there on December 1, and went to work for the Putnam brothers from Aroostook county, sawing shingles at a Roundwood. Shingles were then worth \$60 a thousand, while wages were \$15 a day for anyone who could drive a nail or swing an axe. Work as a miner, prospector and cook in a restaurant and a winter's illness, brought him to the spring of 1851, when he got a three years' contract to furnish lumber for a mining company. He cleaned up \$9,000.

The mine gave out, but in the belief that the vein of another would be found, the company kept on, and Meservey continued to cut timber. In two months he lost all he had made. Successes and failures followed, but such was the passion for gold that nobody wanted to give up until he had made a fortune. Money was plenty and free—with those who had any—and everybody thought it would last forever.

In 1853 Mr. Meservey started for home on the steamer Winfield Scott, which ran on the rocks of an island thirteen hours out from San Francisco. For several days the 700 on board were put on an allowance of one ounce of food a day, and at last had nothing to drink but vinegar mixed with salt water. They were rescued by another steamer.

In 1854 Mr. Meservey again started for the Pacific, taking his wife and son with him, but the wife died soon after arrival, and he was left alone in California with his boy of 10 years.

Visits followed until 1862, when he, his son, took a load of lumber by train to Aurora, where he built mills for a mining company. In 1863 Mr. Meservey lost every dollar of what was a good fortune for those days. In 1864 he lost his son. The next year he came home to Bangor with less than \$2,000. After farming in Delaware he went back to California and sold one of his best teams to a Bangor man in Aurora, taking his note for \$1,050, which has never been paid. In 1873 he settled in Carson City. He was hurt on the railroad in 1874 and the company gave him a job as night watchman. He came home for good in 1877.

In 1889 Meservey married Lisias A. George of Bangor and settled on a farm about three miles out of the city. The buildings were burned a few years later, and he bought another farm in Hermon, from whence he moved to Winterport in 1894, and to Northport in 1896. His wife died last June.

In the winter of 1905-06 Mr. Meservey went into the woods alone and cut 20,000 hoop poles and brought them out on his back through from eighteen to twenty-four inches of snow to the teaming road. He chopped more the next winter, and a few in the fall of 1907.

Late in the autumn of 1907 he had occasion to go to Belfast on business, five and one-half miles, and walked both ways. Mr. Meservey has never used tobacco, and has drunk liquor but moderately. He is stalwart of frame, and his strong features, illuminated by eyes undimmed, are surmounted by a wealth of thick and bushy white hair.—Boston Globe.

## YOUNGEST JUDGE IN THE STATE

Jim Quigley, Graduated at Bellevue Last Spring, on Bench in Cherry County.

James C. Quigley, who graduated in June at Bellevue and was elected county judge of Cherry county at the recent election, was in Omaha Friday visiting friends. He will accompany the Bellevue team to Doane Saturday to witness the annual game between those two rivals. Mr. Quigley has thus beaten the record for the youngest county judge in Nebraska. That record had been held by William Hayward of Nebraska City, who was elected to the 26th county bench at the tender age of 24, but Judge Quigley is not 24 a couple of years. Judge Quigley is not an attorney-at-law either.

## SCANNELL WILL VISIT POPE

Bishop to Accompany Archbishop Ireland to Rome.

## GOES TO EXPRESS FELICITATIONS

American Prelates Will Congratulate the Holy Father Upon His Fiftieth Anniversary in the Priesthood.

Right Rev. Richard Scannell, bishop of Omaha and Archbishop Ireland of St. Paul will sail from New York on Thanksgiving day, Thursday of next week, for Rome, where they will express their felicitations to Pope Pius, who, on Monday, celebrated the fiftieth anniversary of his elevation to the priesthood. Bishop Scannell will depart for Rome Saturday afternoon, and the two prelates will sail on the French steamer Provence. Bishop Scannell says he has no idea how long he will be gone—he may be back in two months and it may be longer. He will not take any special message to the pontiff other than that of the Catholics of west central America that he may live to enjoy many celebrations such as the one held in the fore part of the week. America was represented at the pontifical mass last Monday in celebration of the pope's golden jubilee by Archbishop J. J. Curran of St. Louis, Bishop E. Allen of Mobile, Rev. Robert Seton, titular Archbishop of Sellopolis, of Newark; Monsignor Kennedy, rector of the American college in Rome, and Rev. George W. Mundein, chancellor of the diocese of Brooklyn.

## THIEVES STEAL IN VARIETY

Take Everything from Coffee Samples and Sauer Kraut to Wheat and Chickens.

Thieves generally manage to keep busy in Omaha, but when they take such things as coffee samples, barrels of sauerkraut, wheat and oats by the wagonload and chickens by the dozen the police think something is wrong.

It is not known whether a grand chicken dinner, with raw wheat and huge dishes of sauerkraut on the side, is to be served to the hungry thieves at the county jail, or whether—which is more likely—greater opportunities to steal such things have been recently afforded. At any rate they're gone and the police are trying to find them for the owners. And along with the fowls and huge dishes of sauerkraut, other losses have been reported at the police station by people who awakened Thursday or Friday morning to find that their overcoats, suits, shoes, watches or tools have "folded their tents like the Arabs and silently slipped away."

T. Johnson, 3523 Blondo street, had fifteen chickens pilfered from his coop Wednesday night or Friday morning, the Wedgewood Coffee mills lost a case of coffee samples, Ira Richard had a barrel of sauerkraut removed from his back yard at 115 South Sixth street Thursday morning and some ambitious thieves carol away about fifty bushels of oats and wheat from Missouri Pacific grain cars which they broke open.

Two suspects, who gave the names of William Beer and Harry Allison, are being held at the police station charged with the theft of the grain, and also with having jacked up Illinois Central box cars and removed ten brass journals. They were arrested by Detectives Ferris and Dunn Thursday evening.

Further losses which were reported to the police Thursday are an overcoat off a dummy which had its post in front of Joseph Nemes's store at 125 William street, two rugs belonging to the Millard hotel and placed on the sidewalk late at night to be cleaned and numerous smaller losses, including a clothes wringer and kit of tools.

## MANY USES FOR PAPER

Converted into Artificial Teeth, Barrels, Boats and Paving Blocks.

One of the oddest uses to which paper has been put is that which has resulted in the manufacture in Germany of artificial teeth. These paper teeth are manufactured from the same variety of pulp which enters so largely into the composition of many novelties in the paper line. Paper teeth are said to afford satisfaction, not only retaining their color well, but being less liable to chip than ordinary false teeth. Another odd use to which paper is put nowadays is in the manufacture of barrels. This idea originated in Greece, where the wine growers being badly off for wood with which to construct their casks on

# Palace CLOTHING COMPANY

## CARS CLASH IN DENSE FOG

But for Motormen Disastrous Collision Might Have Occurred.

## BOTH MEN AT WHEEL KEEP COOL

Accident at Eighth and Pierce Streets, on Harney Line, Leaves Some Bruises, but None that Are Serious.

Dense fog along the street car tracks of the Harney line near Eighth and Pierce streets about 8 o'clock Friday morning caused a head-on collision between two cars that might have proved disastrous except for the level headedness of the motormen. It is thought that the heavy fog in the low land where the accident occurred, is entirely responsible for it and that no blame attaches to the car crews. Both motormen reversed their currents as soon as they saw each other, and the slight damage to the vestibules would indicate that they were proceeding with caution. The single track necessitates a sharp look-out on the part of the motormen to see if there is a car on the line before they pass the switch, and the fog made it impossible to determine this Friday morning. H. M. Bates of Plattsmouth, M. H. Hannan of Fremont, Edgar Howard of Columbus, Dr. F. Simon of Oakland, Charles Clayton of Denver, F. T. Kiser of David City and P. L. Hall of Lincoln are at the Paxton.
