## INCREASE OF FORMAL AFFAIRS

**Larger Parties Grow More Numerous Toward Close of Week—Mr. and Mrs. J. I. Woodard Give Dinner for Bishop.**

Mrs. Harold Gifford gave an afternoon tea from 3 to 6 o'clock Friday at her home in honor of Mrs. Ezra Millard, who is one of the autumn brides. Mrs. Gifford and Mrs. Millard received the guests in the drawing room, where a dainty color scheme of pink was used. Pink chrysanthemums were used in profusion through the room. The hall and dining room were decorated in yellow, the table in the latter room having a centerpiece of the yellow chrysanthemums and yellow shaded candles cast a subdued light over all.

## For Mrs. Barker.

Mrs. Charles Martin and Mrs. Frank Martin entertained at a delightful bridge party Thursday afternoon in honor of their mother, Mrs. George E. Barker. ## Linea Shower.

Mrs. R. E. Bosworth entertained Friday afternoon at a linen shower in honor of Miss Gertrude Childs, whose engagement to Mr. Henry H. Thomas was announced last week. The rooms were prettily decorated in green and white, and pieces of linen were hidden in different parts of the house, which proved amusing to the guests who had presented them to the bride-to-be. A mock sewing bee was held during the afternoon, each one being blindfolded when making various things for the bride's trousseau. Prizes were given. A dainty luncheon, carried out in the same color scheme, was served to about twenty guests. Those present were Misses Francis

and Jessie Bullock, Lina Washburn, Georgia Morton, Edith Cartar, Mattie and Effie McGuire, Alta Thomas and Mattie Nevins of Benson, Ruth Anderson of Council Bluffs, Ethel and Winifred Hamer of Omaha, Mesdames E. W. Childs, Bertha Gross, Margaret McGuire, A. L. Thomas, A. C. Thomas and Mrs. Bosworth of Benson, James Robbins and A. Beattie of Omaha.

## For Bishop Scannell.

Mr. and Mrs. James I. Woodard entertained at dinner Wednesday evening in honor of Right Rev. Bishop Richard Scannell, who leaves Sunday evening for a trip to Europe. Chrysanthemums were used in the decoration and covers were laid for Bishop Scannell, Mrs. E. W. Nash, Miss Sadie Hayden, Father A. M. Colaneri, Mr. and Mrs. Fred Nash, Mr. and Mrs. C. J. ## NEW WAISTS HAVE MANY TUCKS

Late Models, Whether Tailored or Not, Show Great Masses of Them.

Many of the newest tailored waists, in linen, net or sheer materials, show masses of tucks. One stunning and expensive French model is made of batiste, tucked solidly with tucks a quarter of an inch in depth and about two inches apart. The waist is made perfectly plain in front and back and the collar is detachable, so that various collars can be worn with the waist. The sleeves are long and tight, with the exception of a slight fullness at the top. A stunning waist such as this could easily and inexpensively be made by the home dressmaker. India linen or mull can be used in place of batiste.

First of all, before you even lay the pattern on, tuck the material solidly with tucks a quarter of an inch wide and an inch and a half to two inches apart. Then lay a well fitting pattern on and cut the waist out, being careful to have the tucks match in the sleeves. Many people prefer to have the tucks in the body part running up and down, while those in the sleeve go around the arm, and in this case the waist will have to be tacked in two pieces, one with the tucks running across the goods for the sleeves and the other with the tucks running along the length of the material. The waist may be made to fasten either in the front or back.

Belts, girdles and sashes are the most misused and misunderstood articles in a woman's whole wardrobe. Both girdles and belts have a purpose to perform aside from being ornamental. They should really "belt in" the fullness of the waist just above the skirt band. This does not mean that they should be made to serve the same purpose as a corset, however. The belt should carefully outline the waistline. One reason why so many women do not look neat is because they do not know how to wear their belts properly.

The lower edge of the belt should fit perfectly around the lower edge of the skirt band and should never go below it. If you make a belt of ribbon which is, of course, on the straight, it is much better to use two widths of narrow ribbon in preference to one width of wider. Do not sew the two pieces of ribbon together, but sew them to the bones at the front, back and sides. The two pieces of ribbon will give more than one.

## TURKEY WITH CHESTNUTS

How the Holiday Fowl May Be Stuffed with Delicious Dressing.

Select a plump young ten or twelve-pound turkey and, after carefully singeing and drawing, rinse with several waters, using a teaspoonful of baking soda in next to the last. Wipe dry inside and out, rub the inside with a little salt and fill. Fillings: Boil about twenty-five large chestnuts until tender. Remove shell and husk. Take ten of these and run through food chopper with the liver; add a little minced onion and parsley, salt, pepper and the yolks of two eggs. Put this in a cup and set aside. Cut into inch lengths four or five small pork sausages which have been fried until half done; add a cup of soaked bread crumbs, some minced onion and one-half cup minced celery, a large spoonful of melted butter, one egg and the remainder of the chestnuts whole; salt to taste, and fill the turkey. Sew up with strong thread. Tie legs and wings to body and fasten with skewers. Rub with melted butter, dredge with flour, salt and pepper and place slices of bacon on the bird. Bake often, allowing twenty minutes to a pound in moderate oven. Boil giblets until done, mince very fine and add to gravy.

## USING THE FACE CREAMS

Toilet Preparations Should Include Both Skin Food and Cleansing Cream.

In applying cream or cosmetics of any kind, do not be so anxious to get an understanding for what purpose they are to be used, and not apply in a haphazard, careless manner any cream you may happen to have as a massage cream or cleansing cream. There are two distinct creams. There is nothing in a cleansing cream that will rebuild or strengthen the tissues; it only removes the dirt and keeps the skin smooth and soft, makes a good foundation for powder, and does not have to be massaged in. Skin nourisher should be worked well into the skin by patting the flesh briskly with the cushion tips of your fingers, and if such a cream is a really good nourisher it is too heavy for cleansing purposes. One should have both of these creams and use them as directed.

## Prevent Sticking.

To prevent cake from sticking to the pans, butter the pans, then dust lightly with flour. Shake off the loose flour, leaving only what adheres to the grease.
