SOLDIERS' TELEGRAPH SERVICE

Irish Telegraphers Make Good War Training Material—Railways of Island Safe—Pleasure at Taft's Election.

DUBLIN, Nov. 28.—(Special.)—A remarkable situation has arisen over the proposal to erect a monument in Glasnevin cemetery to the late John O'Leary, the famous Fenian leader.

The objection to the words, "Fenian leader" seems to be particularly absurd. John O'Leary was nothing if not a Fenian and he was proud of it.

Irish to Sound England. This alliance by the way seems to be entering on a new phase. The liberal party indeed is no nearer giving a definite pledge for speedy home rule legislation than it ever was but it seems to have arrived at a decision to do so.

Great indignation is now being voiced in Ireland at the joint action of the office of the War Office and the War Office in the matter of the Irish soldiers serving with the colors.

The excuse for the change is that a great part of the work of the signaling apparatus on the railways and that it is desirable that the soldiers should be thoroughly familiar with the railway system in time of war.

Accident List Small. The excellence of the Irish railway administration from the point of view of safety is shown by a return which has just been issued giving the number of deaths and other accidents on the railways in the Kingdom for the month of November.

Rejoice Over Taft's Election. The election of Taft as president of the United States has brought joy to the north of Ireland.

Elevator Carried to Surface and Blown Three Hundred Feet from Shaft—Two Men on It Instantly Killed.

PITTSBURG, Nov. 28.—Shortly after 9 o'clock tonight a rescue party broke into the entry where the miners were entombed by the explosion in Marianna and found all dead.

The first rescuing party of sixty was compelled to retreat on account of the intense heat, which kept within a short distance of where the men are believed to be entombed.

A serious mine explosion occurred shortly before noon today at the mine of the Pittsburgh-Buffalo Coal company at Marianna, West Virginia county, and while there is nothing definite yet as to the number of fatalities, it is believed many men have lost their lives.

Shortly after 2 o'clock this afternoon word was received from Marianna that a rescue party had succeeded in entering the mine. The rescuers have been able to advance but a little way, however, and are attempting to force their way through the debris to where the miners were caught.

According to State Mine Inspector Louttit, there were between 190 and 200 men in the mine when the explosion occurred.

The greatest excitement prevails at the mine. A majority of the miners are Americans and their families are at the mouth of the mine in a state of frenzy.

The heavy iron cage which carried the men from the surface to the workings was blown 300 feet away from the mouth of the shaft. Two men who were on the cage at the time were killed, one of them having his head blown off.

CITY FACES DEFICIT

Administration Running Short Despite Higher Property Valuation.

TAXES RISE \$300,000 IN 3 YEARS

Every Fund is Depleted and Orders to Retrench Go Out.

FORCES ARE BEING CUT DOWN

Levy Lower on Higher Valuation, but Taxes Still Soar.

BAD SHOWING WITH LAST REGIME

Facts and Figures Taken from the Records Show Democrats Are Conducting Affairs of City Extravagantly.

Despite the fact that the valuation of Omaha city property has increased over \$50,000,000 in the last three years and this increase has resulted in bringing in nearly \$300,000 more in taxes than during the previous period while the republicans were in power, the present democratic city administration finds that it is running short of funds and is now facing a possible deficit.

All city funds are greatly depleted and orders as early as last September were sent out to all departments to retrench and attempt to keep within the limit. At that time the engineering department laid off thirty-eight men, the printing department made retrenchments, the public works department cut its force and each week sees more men given their discharge.

What the Figures Actually Are. The city comptroller, in an official statement of the condition of the funds on November 18, as sent to the council at its last meeting, shows that only \$2,238.62 remains in the cleaning and sweeping fund of \$48,000.00.

Taxpayers Pay in More Money. The bare levy under the democratic administration shows a decrease of the average of 2.5 mills, but even with this decrease the taxpayers are paying more money than formerly on account of the increased property valuations—and all this excessive tax has been spent, or will be at the end of the year.

Table showing Tax Value, Valuation, and Produced for various years (1904, 1905, 1906, 1907, 1908).

Four Million More First Year. The first year this democracy were in power the property valuations were scheduled \$4,000,000 higher than during the last republican year and the tax levy was cut something under the previous levy.

Barton to Name Staff. S. R. Barton, auditor-elect, is expected in Lincoln Monday, at which time he is likely to appoint his office force. It is reported on what is usually reliable authority that Pearce of Pawnee county and Sheehan of Kearney will be the two deputies.
