

DOLLARS LAND MISS DODGE

Interesting American Woman is Making Over Warwick House.

AMBITION TO FORM SALON

Former New Orleans Girl Said to Be Engaged to Sister of Duchess of Marlborough.

LONDON, Nov. 28.—(Special).—"Who is Miss Dodge?" is a question which is being asked a great deal here in the social circles of society.

At last the American ambassador, who introduced her to British society and, although she is not yet to be seen at the gatherings which include royalties, that is a recognition which is bound to be accorded to her shortly.

Most Ambitious Yankee.

Miss Dodge is regarded as the most ambitious Yankee who has set foot on these shores since the days when the present Dowager Lady Abinger, who was Helen Magraw, landed in England as a bride and solemnly vowed at Liverpool that she would make Queen Victoria, who had a rooted aversion at one time to American women, acknowledge her.

It will be interesting to discover Miss Dodge's ideas of what constitutes a salon and how she will manage hers. The king, who is an admirer of all original and original people, is said to be greatly interested in Miss Dodge's social future.

Engagement of Duc de Pomar.

Floating around Parisian society is the rumor of the engagement of the well known and very popular Duc de Pomar and Miss Emily Yanaga, the sister of Consuelo, duchess of Manchester.

Another central figure in the best set in Paris is the handsome Miss Yanaga, who lately has taken a charming apartment there and makes it her headquarters for the greater part of the year.

ARTISTS LIVE IN FLORENCE

Colony of Brilliant Men and Women in Ancient Art Center.

GREAT WORK DONE EVERY DAY

Interesting Sights One May See in the Studios of Dugli, Narrow Old Villa Dei Bard.

FLORENCE, Nov. 28.—(Special).—America plays no small part in the art life of Florence. To begin with, Mr. Berensen, the authority on art, has a villa just outside the city at Ponte a Mensola.

Studios of Quakers. If you mount the steps of No. 30 you come to the studios of Richard Levick of Philadelphia, Mrs. Benjamin West, a Quaker, turned painter.

Wandering about Mr. Levick's studio it is easy to conclude that he has studied and traveled in many lands. As a matter of fact, he began his studies in Dresden. At the famous Julian studio in Paris he won prizes and worked under Lefevre and Cormon.

RECORD OF SPEED TRIALS

Electric Locomotive Given the Primacy as Distance Annihilator.

For convenience in comparing speeds made on land by various vehicles as well as by horses and men the following table of mile records has been prepared by a writer in the Metropolitan.

America Place to Grow Up.

In spite of his cosmopolitan experience Mr. Levick believes America to be the place for a young man to grow up in and thither he means to go to educate his only son.

Hunter Killed by Wounded Deer.

The first hunting fatality in this section comes from Coburn, Pa., where John Everett, a young hunter, was attacked by a wounded deer and torn by the enraged animal, whose hoofs penetrated the walls of the abdomen.

The Mean Farmer.

A leading official in the Young Men's Christian association of New York said the other day of the late Morris K. Jessup: "Mr. Jessup's charity was even broader than his wealth. Naturally, then, he hated parsimony. Never saw him indignant save when some instance of parsimony would crop up."

Pertinent Coal Talk

Are you quite familiar with the conditions under which coal is produced and marketed? Coal from Iowa, Missouri, Kansas, Arkansas, Illinois, Ohio, Colorado, Wyoming, Pennsylvania, etc., is shipped into our coal-less section.

Sunderland's Coal Knowledge

is of great benefit to buyers of Sunderland Coal. Why? Don't you see that 26 years of experience enables us to know every mine in every district; know the analysis of its product; know the equipment for taking out the stone and slate; know the reputation of the mine owners; know what you can't possibly know about the coal you use.

Our Coal Buyers

are required to secure for us the best from each district and even the best from the particular companies producing the coal we buy. When we contemplate handling a new kind of coal we try it first in our own stoves. If it is good we offer it for sale; if not good enough for us, it is not suitable for our trade, and we drop it.

And When the Coal Reaches Omaha

it is well stored, well handled, well cared for, well screened, well weighed (2,000 lbs.) and well delivered. To appreciate this you should see to what extent our various yards are equipped with most modern devices and methods for properly serving Omaha coal buyers.

Our Dry, Clean Coal is Cheaper

because it is lighter than wet, dirty coal. If we stored our coal—as many dealers still do—without adequate, if any, protection from the weather, it would be wet, soggy, dirty and heavy. The dust and dirt can't be separated from wet coal because it sticks. Draw your own conclusion bearing in mind that every ton of Sunderland Coal is properly house, is under dry roof and well screened so that the dust and dirt are separated from the coal and from you.

one New Year's eve the snow fell very heavily. From it young Mead modelled a statue of the "Angel of the Departing Year," which won him enthusiastic praise and decided his future.
