Boys Break into Cash Drawer—Boys in
the neighborhood of Thirteenth and Wil-
liam streets broke into A. Greenberg's store
at 142 South Thirteenth street Sunday night
and stole about \$2 from the cash drawer and
a few packages of smoking tobacco.
Detectives Mitchell and Sullivan found the
lads, who confessed the theft and returned
the stolen money and goods.
Fire from Lamp Explosion—Returning
from Hebrew church worship at 7:30 Mon-
day morning, J. Havitz saw volumes of
smoke pouring from the windows of his
house at 1213 Dodge street, but when the
fire department arrived only slight dam-
age was found to have been done by the
flames. The explosion of a burning lamp,
while Havitz was away, is supposed to
have started the fire.
Looking for More Clothing—Night call-
ers, who evidently desired to refurbish their
wardrobes, took off the padlock from M.
Robinson's store at 1630 South Tenth street
Sunday night, and made a bundle of about
50 worth of new and second hand clothes
and left without leaving the name and ad-
dress of the persons to whom the clothes
were to be changed. Robinson reported the
matter to the police.
Fine for Stealing Ties—Helping two
other men steal old railroad ties from the
Union Pacific right-of-way at Seventh and
Pierce streets early Sunday morning, got
August Wengel of 21 Walnut street into
trouble with the railroad company and the
police. He was fined in and costs in police
court Monday, while Fred Gattick and Joe
Snell, the other men in the mess were dis-
charged. Wengel used his team and wagon
in the work and Judge Crawford held that
he deserved punishment.
Arrested for Reducing Own Grip—Be-
ing arrested for reducing his own suit
case at the pawnshop where it had been left
by the man who stole it from him, was the
laid incident that befell W. Skelton of
214 South Thirtieth street Saturday
through a mistake by the police. The pawn-

when the grip was redeemed, so Skelton
was arrested when he tried to get the suit
case out of stock. He was released Mon-
day morning after the situation had been
explained.

BANKS MAKE HEAVY GAINS

Clearings for November Disclose Enor-
mous Increase in Business.
SURE SIGN OF REAL PROSPERITY
Total Clearings for the Month Nearly
Ten Million Dollars More Than
for the Same Month of
One Year Ago.
Bank clearings are generally looked upon
as one of the criterions of business done
in a community. Applying that test to
Omaha, this city is surely more prosperous.
The clearings for the month just closed
show a most remarkable increase, and this
in spite of the fact that Omaha did not
slide backwards a year ago, as did most
of the cities of the country when the finan-
cial depression came.
Returning prosperity, due in a large
measure to the clearing of the political
situation is reflected on all sides and espe-
cially in the figures of the business which
has gone through the banks of Omaha
during the last month. In spite of the
fact that there were but twenty-four bank-
ing days in November, the records show
that the clearings reached over \$60,000,000,
the exact figure being \$60,487,300, an in-
crease over November of a year ago of
\$5,604,857.30, or nearly 50 per cent.
In the weekly statement published for
the last two weeks the figures show that
the per cent of gain is not as great in
Omaha as in some of the other large com-
mercial centers, but these same centers
had a slump of from 50 to 100 per cent
a year ago, while Omaha was holding its
own. Making a comparison with two years
ago the Omaha situation is most splendid
and Omaha the Market town, is more
than holding its own with all the cities
of the country. Omaha was in the helmet
all through the last financial depression,
for when nearly every other large city
in the country was showing a loss a year
ago the Omaha banks were able to report
a gain week after week.

CORN SHOW IN MAGAZINE
Story of Will A. Campbell of The Bee
in the December Review
of Reviews.
The December number of Review of Re-
views contains an interesting story on the
National Corn exposition to be held in
Omaha December 9-19, by Will A. Camp-
bell of The Bee. The author lays down
the prediction that this exposition will
mark a new era in the commercial his-
tory of the country, saying that while
sentiment has played a part in other big
expositions, such as the world's fair,
purely practical and utilitarian motives ac-
tuate the National Corn exposition. The
article is a comprehensive presentation of
the subject and attractively written. It
is embellished with several timely illus-
trations.
