neighborhood of 200 cars against arrivals today of 663 cars. A severe blizzard which was raging today in the Canadian northwest was said to have checked the movement to some extent, but the chief reason for the sudden fallingsoff in receipts was taid to be the fact that the great bulk of the crop has already been marketed. A brisk export demand for durum and low grade Manitoba wheat at Duluth helped to strengthen the local market. Local bulls were liberal purchasers of the December delivery, one of the eladors, it was said, having bought in the neighborhood of 1,500,000 bushels.

There was practically no demand for cash wheat here except by elevator concerns. Clearances of wheat and flour were

cash wheat here except by clevator corns. Clearances of wheat and flour were equal to \$50,000 bushels. The world's visible supply as shown by Bradstreet's decreased 3,078,000 bushels.

The most important factors contributing to the sharp upturn were unfavorable harvesting weather in Argentina and a decided falling off in receipts in this country, especially in the northwest. Several dispatches were received today caliming that rains stil prevailed in the northern districts of Argentina. The decerased movement in the northwest, however, was perhaps the most potent influence. Arrivals of wheat today at Minneapolis and Duluth aggresated 548 cars, compared with 594 cars last week and 1.129 cars the corresponding day a year ago.

Winnipeg also reported that receipts there tomorrow will probably be in the neighborhood of 200 cars against arrivals today of 663 cars. A severe blizzard which today of 665 cars.

*Offered. Monthly Treasurer's Statement. WASHINGTON, Dec. 1.—Athlough gov-rnment receipts from customs, internal rnment receipts from customs, internal gratifying increases over last year, the increases in expenditures are materially greater. For the month of November, 1998, the receipts were \$48,002.590, as against \$45,523.325 for November last year, an increase

of \$2,500,000. of \$2,500,000.

The expenditures for the month are shown to have aggregated \$57,938,133, as against \$42,362,208 for November, 1907, an increase of \$15,600,000. Taking the last seven months as a basis of calculation, the deficit for the present fiscal year will probably be from \$112,000,000 to \$115,000,000.

Customs receipts received last month aggregated nearly \$23,000,000 has against \$22,000,000 for November, 1907, the first of the public months.

WASHINGTON, Dec. 1.—The monthly statement of the public debt shows that for the month of November, 1508, the debt, less cash in the treasury, amounted to \$989.433.561, which is a decrease for the month of \$12.657.993. The debt is recapitulated as follows: Interest bearing debt, \$883.317.400; debt on which interest has seased since maturity, \$3.647.285; debt hearing no interest, \$403.856.167, total, \$1,250.850, 923. This amount, however, does not include \$1,356.636.890 in certificates and treasury notes outstanding, which are offset by an equal amount of cash held in the treasury for their redemption. an equal amount of cash held in the treasury for their redemption.

The cash in the treaspry is classified as follows: Gold reserve, \$180,000,000: trust funds, \$1,256.06.560; general fund, \$131,861,409; in national bank depositories, \$130.111,586; in treasury of Philippine islands, \$4,769,967; total, \$1,772,900,071, against which there are demand liabilities outstanding amounting to \$1,471.512,709, which leaves a cash balance on hand of \$301,387,362.

The receipts for the mough were \$48,002,890 and the expenditures \$57,928,133.

The trade as a whole was reasonably active and most everything that could be classed as good changed hands in fair seeason. Beef steers were sought after this morn-

desirable loads changed hands quite readily at prices that were pretty generally 10c higher than yesterday. There was a good sprinkling of cornfeds, although a good share of them were only warmed up. There were also a few rangers among the receipts.

Cows and heifers of the better grades were free sellers at prices that were strong to lee higher. The common to medium grades were rather slow and inclined to grades were rather slow and inclined to drag at no more than steady prices.

Good feeders were free seliers, the same as they have been for some time back, and prices today were generally lie higher than yesterday. A feeder buyer paid as high as \$5.25 for very good stuff. The common and trashy kinds were extremely hard to move, the same as they have been every day of late. The country does not appear to care for that kind and receivers meet with a

plies.

SHEEP—There was a larger run of sheep than yesterday and the quality was the best that it has been in a long time. In fact, there were some of both sheep and lambs that were the best that have been seen in the yards so far this season. The market on desirable killers, both sheep and lambs, was safely 10015c higher, but the better quality of the offerings made the sales on paper look even 25c higher. As a matter of fact, however, it would hardly be safe to quote the market for the two days as more than 25c higher than last week. The trade was active and desirable kinds changed hands very readily at prevailing prices.

Kentucky, In-SHEEP-There was a larger run of sheep

feeders and they sold generally at about steady prices.

While strictly good kinds of killers are both active and higher, it would be well for the country to understand that common to medium kinds and anything on the half-fat order is not wanted by the packers. It is the worst kind of a mistake for feeders to send in anything that is not thoroughly finished for the market, as they can depend upon its selling to poor advantage. Quite a good many very burry sheep and lambs are coming forward, and it would be well to understand that buyers generally make a difference of as much as 15005c in the case of stuff carrying burrs.

Wool Market.

be safe to quote the market for the two days as more than 25c higher than last week. The trade was active and desirable kinds changed hands very readily at prevailing prices.

There was quite a little sprinkling of feeders and they sold generally at about steady prices.

While strictly good kinds of killers are both active and higher, it would be well for the country to understand that common to medium kinds and anything on the half-fat order is not wanted by the packers. It is the worst kind of a mistake for feeders to send in anything that is not thoroughly finished for the market, as they can depend upon its selling to poor advanlage. Quite a good many very burry sheep and lambs are coming forward, and it would be well to understand that towers.
