CITY REPORTS GO TO PRINTER

No Law to Compel Annual Publication, Says Assistant City Attorney.

Though there is no law requiring the publication of annual reports of the various departments of city government, City Comptroller Luback has sent to the printer the copy for the official report for 1907, which the grand jury in its report said should have been published long ago. It will be out in a week's time. There has been no appropriation for the publication of these reports for three years until now and this has accounted for the delay in the publication, said the comptroller. The new publication will contain the reports for three years.

The publication will not contain the reports of all departments, as some failed to furnish the comptroller with them even though he asked for them several times, said the comptroller. What departments refused to furnish reports for the annual publication the comptroller at first declined to say for the reason, as he expressed it, "I don't want to knock any one." Inquiry was then made of nearly every department head as to whether reports had been furnished the comptroller and when the replies were shown that official, he said that but three departments had neglected to furnish their reports. These three, he said, are the departments of health, water and fire and police commission.

Assistant City Attorney Dunn is authority for the statement that there is no law compelling the publication of annual reports containing the reports of the various departments of the municipal government.
