Franklins have always combined high power with strength and light weight

That gives them good speed and carrying ability. They were always air-cooled. They have no water-cooling apparatus to carry. That cuts out weight and complication and all kinds of trouble right at the start. It simplifies the whole automobile. Franklins have nothing to freeze. You can use any Franklin every day in the year.

Every Franklin has four full-elliptic springs and a laminated wood frame which is stronger and lighter than the steel frame commonly used, and it absorbs vibrations as no metal can do. And all Franklins have large wheels and tires.

All this eliminates jar and shock and the necessity for bulk and heaviness. And this is the only combination that produces easy and perfect riding quality.

As \$39,000, divided as follows: General repairs, cases were severe. The next calemity was the increade in the price of feed for stock. For ten months the institution has had trouble with its water supply.

Fire destroyed the horse barn on November 33, 1908, and twenty-four horses were lost. And the population has steadily decreased. This last is the first ray of sunshine Mr. Sherman has to offer in his report. Mr. Sherman says it is due to the operation of the juvenile court authorities in Omaha and Lincoln. These cities, he says, are taking care of their juvenile delinquents better than ever before. Another reason for the decrease in population is due to the unusual number of paroles. Mr. English brought out on cross-examination the fact Dr. aMthews had been disqualified from practicing medicine on charges he had conducted a criminal operation on a young woman.

"I was falsely charged with such thing," said Dr. Mathews.

Meyer Heard a Shot.

Martin Meyer, who lives next door to the Rustin house, testified he heard the shot at 2:50 o'clock, he having just gotten up out of bed and looked at his watch. He says he looked out of the window at once and could see no one about the front of the Rustin house. He said he listened about twenty-five minutes and could see or hear

Evidence to impeach Mrs. Rustin's testimony was offered by Miss Martine Thode, superintendent of nurses at Clarkson hos pital, where Dr. Rustin was taken im mediately after he was shot. Miss hTode says she was present when a nurse told Mrs. Rustin the police officers wanted to talk to her and heard her say in reply "They'll get nothing out of me."

Miss Thode was the last witness for the defense and immediately after she left the stand Mr. Gurley announced the defense would rest and at Mr. English's request court adjourned until morning.

Insurance Policies Lapse.

Evidence that Dr. Frederick Rustin had allowed \$35,000 in life insurance to lapse within two weaks before his death was offered by the defense in the Davis trial of suffering with throat and lung trouble Monday morning in an attempt to show that is quickly commuted by Dr. King's New he did not plan his death as Mrs. Abbie Discovery, 50c and \$1.00. Beaton Drug Co. Rice testified in order that his family might secure his insurance.

Latham Davis, a brother of the defendant, also went on the stand and testified he was in Dr. Rustin's office the afternoon before his death and saw a man there who corresponded to the description of the man Mrs. R. E. Archer saw pass her house opposite Dr. Rustin's a few minutes after she heard the shot. The theory that this might be the same man was not developed by the defendant's attorneys, however,

The jurors appeared refreshed by their Sunday's rest, which was spent in their rooms at the hotel and in the criminal court room. A mock trial Sunday morning was their principal pastime. Bailiff Kirkendall took them to the court room in the forenoon and they proceeded to have some fun at his expense.
