Their appearance was not needed, for no petition and none of the reported 2,000 supporters of the petition appeared. Only one dealer submitted a written communication. In this he charged the truant officer with "incapacity" and with encouraging boys to become "crooks."

The board as a unit stood behind its officer. It passed a resolution by a unanimous vote as follows:

Resolved. That we, the Board of Education having examined into the facts concerning the action of Officer Paul McAuley respecting his efforts to suppress the use of tobacco in the schools, do hereby declare that his acts are approved.

After congratulations from all sides the teachers withdrew and the board took up the order of business.

In this, only a number of routine affairs were considered. The regular bills were allowed. A number of teachers were reported as advanced by Superintendent resignation of Miss Edith Carpenter, as principal of the Lincoln school. His recommendation was approved. Compared to several of the recent meetngs of the city council the session last night was a tame affair. repairing the hog scraper for a minor defect, and the chain was still moving which drives the hogs through. In some manner Baker's clothing caught in the chain tary and threw him, drawing him around the shaft and sprocket with terrible lacerations and the tearing of his limbs. The machinery was stopped as quickly as possible, by someone cutting the driving belt with a butcher knife, but it was too late. Paul Detbrenner of the fresh pork department, rushing to the aid of Baker, was hit by the belt which flew after being cut, and received a painful bruise. He was taken home but is thought not to be seriously hurt.

Baker was extricated from the machine still alive and was hurried to the South Omaha hospital, where he was attended by Dr. Thomas Kelly, who could do nothing but relieve the immediate pain. The man died within two hours after the injury. The body was taken in charge by Coroner Heafey and the funeral and inquest will be arranged today.

The man had a divorced wife in Omahi and a son living with her. He also had a daughter living with him in South Omaha. He lived near Twenty-fifth and H streets. The coroner arranged an inquest Tuesday morning, which is to be held at 3:30 p. m.

A Greek with an unpronounceable name as near to George Sarkophages as could be learned, was running a saw, clipping off toes, when he ran his hand into it, cutting off a finger down through the palm, in such a manner that the member will probably be disabled, at the same plant yesterday morning. A fellow workman, horrified at the sight, forgot his own cutting machine and put his hand into it, cutting off the tip of his middle finger at the first Workman Falls Dead.

Henry Watts fell dead of heart disease at Armour & Co's, packing plant Monday morning. Watts was a roustabout at the

plant and was engaged in hauling a truck of salt when he was seen suddenly to drop the truck and made as though to lean against it, but fell to the floor before reaching it, where he expired before any help could be summoned. It was considered a plain case of heart failure by the witnesses and the physicians. The coroner has charge of the body and may hold an inquest at the request of the relatives. The funeral has not been arranged. Clamor for L Street Vinduct.

Considerable of a clamor is being made for the rebuilding of the L street viaduct in South Omaha for the accommodation of the large number of persons who have taken up residence in that section and also the numerous business interests which would be benefitted by a new and substantial viaduct. The present visduct was built years ago to accommodate the farmer coming to town with a load of hay or something of the sort, but is not considered safe for street cars. The population to the west is becoming so dense that a car line is needed and the only way to obtain this is to first force the railroads to re-

build the viaduct. South Omaha at Corn Show. South Ornaha is preparing for a great celebration on South Omaha day at the corn show. This date is December 14. The public schools are to be dismissed. The children will be furnished with badges and all the older people who can be persuaded to go will be provided also with them. CROUP

THERE IS NOTHING that strikes terror to the hearts of parents more than to be awakened in the night by the ringing cough which accompanies an attack of croup. The child may retire with nothing but a slight cold and a few hours later the family be aroused by the ominous symptoms. Iowa, in a letter to the manufac-turers of Chamberlain's Cough Remedy praises this medicine for what it has done for his children. He says: "It has not only saved them once but many a time. Only two weeks ago my boy had the croup so bad in the night that had it not been for having a bottle of Chamberlain's Cough Remedy in the house he would have choked before a doctor could have gotten to the house. It is a medicine that no one should be without at any time." It is pleasant to take and many children like it.

Mr. Homer Krohn, of Lisbon,

"We guarantee every bottle of Chamberlain's Cough Remedy," says W. M. Parish, Palmerston, Ontario. "Out of the many bottles sold last wister not one was returned. We recommend it especially for children with croup. Chamberlain's Cough Remedy is famous for its prompt cures of coughs, colds and croup. When given as soon as the child becomes hoarse an attack of croup may be averted. This medicine is entirely free from narcotics or injurious substances of any kind and may be given to the little ones with abso-lute safety.

Attacks of croup are most likely to occur during the early winter months, and every family with young children should be prepared for it. Keep a bottle of CHAMBERLAIN'S COUGH REMEDY in your home. It only costs a quarter, large size 50 cents. Your druggist sells it.
