## PRATT AND MULLANE DEAD

Two More Victims of Riot Started by Fanatics in Kansas City Die of Wounds.

KANSAS CITY, Mo., Dec. 10.—Two more names were added today to the list of dead as a result of Tuesday's battle between religious fanatics and the police here. The total number of dead now being four.

Shortly before noon today Louis Pratt, 45 years old, the foremost disciple of James Sharp, died at the General hospital, and one hour later Michael Mullane, a policeman, succumbed to his wounds at Joseph's hospital. Policeman Albert O. Dalbow and Lulu Pratt died immediately after being shot Tuesday.

Pratt sank into a state of unconsciousness late yesterday and efforts to arouse him were unavailing. His right leg had been amputated at the knee and there was a bullet lodged in his brain. When his wife and children, confined at police headquarters, were told of his death they broke down completely and were much more affected than at the death of Lulu Pratt two days ago.

Mullane suffered himself to be mortally wounded because he would not shoot a woman. According to witnesses he dodged behind a wagon when Mrs. Sharp attacked him with a revolver and though she continued firing he made no resistance though he was armed.

"Boys, I could have killed the woman, but I wouldn't," he exclaimed as he sank to the pavement pierced by four bullets. It developed today that both Pratt and James Sharp, who is now at large, assumed the title of "Adam God" when preaching in separate localities, but Sharp, as founder of the sect, held the prior claim to the title. Pratt professed to have the same divine fire, but in a lesser degree. The body of Policeman Dalbow was interred here today.

## CANAL CHARGE FALSE

(Continued from First Page.)

the old Panama Canal company and 7,400,000 francs being placed to the credit of the new Panama Canal company in liquidation, and by said parties over to the liquidators, respectively, pursuant to a decision of arbitration at Paris, February 12, 1902, confirmed by the civil tribunal of the Seine.

To the senate committee I stated that I did not know with distribution of the fund had been made and that I was in no way concerned or interested therein. This statement by me was true, I had no pecuniary interest in the canal and it was none of my business, personally or professionally, who were the stockholders or bondholders of the company.

Since the recent publications I have made in liquidation in Paris and am informed that the distribution of these monies is a matter of public record, that the amount received by the liquidator of the old Panama Canal company had been placed to the credit of the liquidator of the old company, that the monies were paid to them, that they numbered 225,000, the names of individuals probably ever appearing in person on a single business affair and that the average amount of each payment was made and the amount of such payment is in the hands of the liquidator at the office at New York, and that which is in a prominent and frequented part of the city, near the Bourse, easily found by anyone desiring to do so.

Money First Goes to Bank. As to the funds paid to the new Panama Canal company—that company at the time of the sale of its property to the United States went into liquidation, I am likewise recently informed that the distribution of its assets among its shareholders was made through four leading banks in Paris, the Credit Lyonnais Societe Generale, Comptoir National d'Escompte de Paris and Credit Commercial de France.

In three separate payments (July 15, 1904, February 2, 1905, and June 15, 1905), covering a period of four years, was completed at the regular offices of the company, 19 Rue Louis le Grand, Paris, readily found by anybody who honestly sought to find them. The facts concerning the liquidation are a matter of public report to the shareholders of the company (this company had no stock issued) and were the subject of official publications from time to time covering a period of four years in the official papers under the direction of the courts. The amount so paid to the shareholders of the new Panama Canal company, as I am informed by the liquidators, is approximately 125,000 francs on the basis of par value of 100 francs, that is they merely received back only the capital originally invested with interest thereon. I am not nor my law firm nor any one connected with me ever owned, directly or indirectly any shares of stock in the old Panama Canal company or of the obligations or securities of the old Panama Canal company, nor ever bought or sold any shares or securities of either one of said companies, nor were directly or indirectly interested in them.

Robinson and Taff. A further instance of the unwarranted attitude of the Indianapolis News and other journals repeating the statements, is furnished with respect to the late Mr. and Mrs. Douglas Robinson. In the same issue of the World (October 3, 1908) the mention of the names of Mr. Taff and Mr. Douglas Robinson is another evidence that this is a false story. The mention of the name of Mr. Douglas Robinson ever had the remotest connection with Panama canal matters directly or indirectly, and I never say either of them on this subject before the United States acquired the canal. I do not know nor have ever known any American citizen who has ever dealt in any shares of the new Panama Canal company or the shares or bonds of the old company.

The population of the state penitentiary November 30, 1907, of this number 324 were white, eighty-nine colored, nine Indians and one Japanese.

According to the report of A. D. Beemer, warden, filed with Governor Sheldon, today, the white convicts are one to each 3.76 of the state; the colored convicts are one to each 1.67 of the colored population; Indians are one to each 260. Two of the prisoners are sentenced to be hanged; thirty-six to life imprisonment, thirty have sentences from fifteen to thirty years, an the remainder three months to four years.

The convicts earned during the last two years for the state, \$7,223.31, which is paid into the state treasury. During the biennium four absolute pardons and three conditional pardons were granted; six convicts escaped and four escaped prisoners were captured and returned to the state. One convict was drowned in attempting to swim Salt Creek and his body was found eight days later; two prisoners were executed.

There were released on parole during the biennium forty-one; discharged on parole forty-five; violated parole condition seven; returned to penitentiary five; commuted sentence to life imprisonment one; on parole December 1, 1907, forty-one; on parole December 1, 1907, on parole November 30, 1907, twenty-three.

The value of the home grown produce during the biennium was \$7,321.41; value of

## FEARED BEING GRABBED

Woman's Nervousness on Coffee Drinking.

The brain acts through the nerves. When the nerves are irritated by coffee drinking the mind often imagines things which have no real existence—such as approaching danger, unfriendly criticism, etc.

A Mich. woman suffered in this way but found how to overcome it. She writes: "For twenty years, I drank coffee thinking it would give me strength when tired and nervous."

"The more coffee I drank the more tired and nervous I became until I broke down entirely. Then I changed my work from sewing to housework. This gave me more exercise and was beneficial, but I kept on drinking coffee—thought I could not do without it."

"I was nervous at times that if left alone I would not go from one room to another for fear someone would grab me, and my little children had to go around on tiptoe and speak in whispers."

"Finally an attack of the grip weakened me so my nerves relaxed and the smell even of coffee was nauseating. My husband prepared some Postum for me, believing the long use of coffee had caused my break-down, so that my head and hands shook like the palsy."

"At first I did not like Postum but I kept on drinking it and as we learned how to make it right according to directions on pkg., I liked it as well as coffee."

"Occasionally I make coffee when we have guests and give it to the children, too, but as soon as they taste it they require their cups for Postum. Now I go anywhere in the house day or night and never think of anyone grabbing me and the children can romp as healthy children should—my nerves are all right."

"There's a Reason" Postum Co., Battle Creek, Mich. Read "The Road to Well-being" in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## EVIDENCE AGAINST STANDARD

Missing Contract Showing How Dummy Was Used in Hands of Government.

NEW YORK, Dec. 10.—The missing contract of the Standard Oil company, which explains the loan made by it yesterday to T. N. Barnard of Pittsburg, is now in the hands of Frank B. Kellogg, the government prosecutor, conducting the government's suit to dissolve the Standard Oil company which is in progress here.

The contract had been demanded by the government while John D. Archbold was on the stand recently, and yesterday it was turned over to Mr. Kellogg by Morris Rosenthal, after having been obtained in Pittsburg from the Pittsburg Trust company. The contract, it is said, indicates the Standard's complete control of the oil field which Mr. Barnard operated. Two contracts, in fact, covered the transaction.

During the biennium there were three deaths, one from tuberculosis, one from heart failure and one suicide.

The financial statement shows there was a balance on hand December 1, 1905 of \$25,797.87; the 1907 appropriation amounted to \$95,280, making total resources of \$121,077.84.

There is a balance in the maintenance fund of \$4,231.37. The daily maintenance per capita for the biennium was .4613.

Warden Beemer recommends the appointment of a parole officer to look after paroled convicts, find suitable employment for them and that a life prisoner be paroled also at the expiration of ten years. He also recommends that a tract of land be purchased for the establishment of a second penitentiary, as published several days ago.

Causes for Insanity. Worry, just plain everyday, common worry, causes thirteen people their minds during the last two years in that portion of the state in which the state hospital at Hastings gets its patients. Dan Cupid went wrong in eight cases and as a result three men and five women are here because of a disappointment in love. Domestic troubles sent sixteen people to the hospital while overwork sent six.

All of this is set out in the biennial report of Dr. W. B. Kern, superintendent of the hospital.

## When You Buy Oysters Don't Pay For Water

Why should you get a pint of water with every quart of oysters? Water is cheap—boats and beaches the oyster-catcher's natural favor.

You have never known how good oysters can be unless you have had "Sealsnift" Oysters.

They are shucked into air-tight steel cans and shipped direct from the beds—packed with ice around the container, not in contact with the oysters. You get solid meats. And how fresh, wholesome, appetizing and deliciously different they are!

Ask any "Sealsnift" dealer for a copy of "Sealsnift Sense," a booklet containing new and attractive ways of preparing oysters. "Sealsnift" Oysters are distributed by the following wholesalers:
