Little Soldiers

In your blood are the millions of corpuscles that defend you against disease.

To make and keep these little soldiers healthy and strong, is simply to make and keep the blood of the right quality and quantity.

This is just what Hood's Sarsaparilla does—it helps the little soldiers in your blood to fight disease for you.

It cures scrofula, eczema, eruptions, catarrh, rheumatism, anemia, nervousness, dyspepsia, general debility, and builds up the whole system.

On information from the state food officers at Lincoln warrants have been served on Shoble & Ingram, a partnership, and O. DeChristian and F. Hunckler, storekeepers, who are charged with having sold soda pop containing saccharine, a coal tar product, without so labeling the bottles.

The preliminary hearing and the taking of part of the testimony was held in police court Wednesday morning before Judge Crawford, after which the cases were continued until Saturday morning. Other similar cases are being tried this afternoon in South Omaha.

WORK OF THE WOMEN'S CLUBS

Frances Willard W. C. T. U. Plans Winter's Program.

ORGANIZE FOR HOME ECONOMICS—National Woman's Suffrage Association Circulates Memorial Petition, with Instructions How Reform May Be Accomplished.

Frances Willard Woman's Christian Temperance union held an all-day session Thursday at the home of Mrs. George Coupland, fifth and Wirt streets, and planned a program that should not only give the union a substantial sum for the entertainment of the national convention next October, but mean much to Omaha as well.

The establishment of a public bath has long been the ambition of the union and this it will make its special object. Other organizations of the city will be asked to co-operate in the movement.

A series of two Lenten concerts was planned and also a concert to be given by the Seymour quartet at Trinity Methodist church, January 12. Conferences will be held with the Omaha Woman's Christian Temperance union for co-operation in the entertainment of the national convention.

About twenty-five women were present. The union is growing rapidly, now having a membership of seventy-eight, several new members having joined Thursday. Luncheon was served at noon.

For Home Economics. A convention for organizing an American Association of Home Economics has been called to meet in Washington, D. C., December 22 to January 2, and all who are interested in the purposes of such an organization are invited to be present.

For the last ten years a group of workers has been meeting for a week's conference each summer under the name Lake Placid Conference on Home Economics. Last summer the conference met at Lake Chautauqua upon invitation, and noted that the time had come for a national organization to include primarily those engaged in educational subjects connected with the home, whether in lower or higher schools or collegiate institutions, and also to include those engaged in household and institutional management and in social or municipal work for home betterment.

The following committee on organization was appointed: Dr. C. F. Langworthy, expert in nutrition, United States Department of Agriculture, chairman.

Isabel Brewer, professor of household science, University of Illinois. Mrs. Nettie Dewey, Lake Placid club, Elgin, Neb. Mrs. F. S. Cowgill are spending a few days in Chicago.

Mr. Edward Uptake left the first of the week for a visit with friends in Chicago. Mr. and Mrs. Jerome Magee returned Thursday from a short visit in Chicago.

PERSONAL PARAGRAPHS. Daily improvement is the encouraging report received from George M. Krick, the Omaha young man who was hurt in a foot ball game at Galesburg, Ill., several weeks ago. He has now regained complete consciousness, but is partially comatose of what is going on around him, and often refuses to speak. The physicians are now confident that he will suffer no effects from the accident after he regains his health.

Rheumatism Caused By Dyspepsia. So Claim Many Eminent Doctors Upon Recent Scientific Investigation.

A large number of physicians who are constantly increasing, claims that the eating of too much animal food creates an over supply of proteins, which are composed of carbon, hydrogen, nitrogen, oxygen and sulphur, and that when such proteins are imperfectly digested and go into the blood they create vast quantities of nitrogen which the oxygen from the lungs cannot neutralize and hence results, uric acid and rheumatism and scores of other diseases.

These proteins do not permit the assimilation process to take place properly and poisoning results all through the blood.

However, if such proteins are perfectly digested they form a most valuable part of our food and are absolutely necessary to life.

The fault then rests with the stomach and the digestive apparatus.

Hence it is claimed by these latter day authorities that rheumatism arises in the stomach, goes through the stomach and not in the kidneys as some medical authorities teach.

Stuart's Dyspepsia Tablets cure dyspepsia, reduce proteins to their natural condition best taken up by the system, give strength to the blood, rest the stomach, and invigorate and renew the gastric fluids, pancreatic juice and the digestive organs in general.
