Pittsburg and Baltimore then were about the toughest towns on the base ball map and when a visiting team went into one and took a game it did so at a certain amount of peril to itself. Well, the answer is, that the day of rowdyism has gone-not only is Pittsburg and Baltimore, but everywhere it's a relic of the past.

"Chick" Autrey never had a photograph taken since he became a ball player except in his base ball uniform. That's probably not so much due to any eccentricity on "Chick's" part as it is to the simple fact that he husn't had off his base ball uniform long enough at a time, since he D. entered the game to have a photograph He's like Frank Chance, he plays ball chiefly because he loves it and when winter prevents his playing in a regular league he hikes to another climate and

While he has done excellent work for Lincoln, it is seriously to be questioned if Green's team will not be better off with a less gifted man, who is more tractable than Eddle. Gagnier certainly ought to make good from the start at St. Louis.

Rube Marquard insists he is not bluffing when he says that unless the New York management pays him \$2,500 of that "\$11,000" it paid for him he will continue to raise chickens in Medina county, Ohlo. The gent will first have to prove that New York gave that amount for him. And it may be that if he forces Muggsy's hand, the latter ill stand up and tell his right name.

Sporting News foretold the details of the Bresnahan deal almost to perfection, even naming the players for whom he would be traded. Incidentally it seems that St. Louis has taken a very long shot in letting go two of its star pitchers, Raymond and Karger, even in exchange for so good a catcher, batter and prospective manager as Bres.

LINCOLN, Neb., Dec. 12.—(Special.)—
With the flight between the students at an end, the attention of the students at the state university has again been turned to the approaching election of a captain for the 1205 foot ball team. The attempt to change the system of athletic control left some sore spots among a few of the men immediately concerned in the scrap, but these are expected to heal over soon, leaving the situation rauch as it was before the revolutionary movement was started.

Attention was largely centered upon the riders of these teams, who were tied for the lead, as they wound around the course, warily watching each other for the least sign of an attempt to gain a lap.
